C. W. SWEET,

No. 137 BROADWAY

Governor Cornell has signed the bill relating to assessments, printed exclusively in the REAL ESTATE RECORD of the 5th instaut. The act, therefore, creating the new commission for revision of assessments is now the law of the State, and those not having mastered its various provisions can obtain additional copies of the same by calling at this office.

IMBECILITY OF THE PUBLIC DEPARTMENTS OR WHAT?

Property owners, especially on the West Side, must have reflected ere this on the reasons that underlie the pall which hangs over their investments. It is time, indeed, that they should speak out and begin to call a spade a spade. It is of no use saying that generations yet unborn will inhabit a certain portion of Manhattan Island, for all of it, every inch of it, is wanted for the 1,250,000 inhabitants who now reside within its borders. The generation of our own day will require and in fact does require the improvement of every lot on this island, but the supineness of property-owners, as a class, their unwillingness to be aggressive, has been and still is to-day the main cause of this tardiness in developing the West Side. True, speeches have been made, paper resolutions have been adopted by this or that association, all referring to matters that ought to have been done, and yet that most beautiful section of our island virtually continues to be a barren waste of uncultivated land. For this state of affairs, owners themselves are to blame, *a priori*, simply owing to their lack of public spirit and the notable absence of aggressiveness on their part. They underrate—in fact, they seem to have entirely forgotten—their own important status in this community, as taxpayers, not only, but as owners of the soil. Granted, even that we live in a community where all men are born “free and equal,” human nature, even in a republican country like this, pays homage to capital, and that homage has always stood ready to fawn upon the owners of realty. Why, then, we ask again, have they not combined to take advantage of their exalted position in civic society to make their influence and importance felt upon the body politic, that dare not resist them, if properly organized. Their inaction, their lethargy has led to the accursed red tape which has turned the Department of Parks and the Department of Public Works into veritable labyrinths, out of which no public improvement, once conceived, can find its exit. These departments, composed even though they may be of politicians, will listen, heed and obey if they only hear the indignant voice of the mass of property-owners; but so long as the latter remain silent and refuse to declaim in a voice loud enough to be heard all over the island that improvements must and shall

be made, just so long will these men act and do only what benefits either their own political cliques or their own personal pockets. They never will stir in the good work that ought to be done by them until property-owners, as a mass combine, make the influence they possess felt over the departments and virtually shame the commissioners into doing their duty.

We speak thus earnestly in regard to this matter, as every day's experience shows us that the neglect of the West Side by investors is due not to this cause or that cause, but owing to the tardy public improvements that must necessarily precede private improvements. When, the other day, an auction sale of Riverside avenue lots had to be indefinitely postponed, a prominent owner of adjacent property exclaimed, “how can you expect people to buy there, when not only the Drive but the entire surrounding section is neglected by the Park Department. Strangers and capitalists from other cities when going along that boasted Drive soon get out of it, instead of being anxious to proceed up to its terminus. Had the department gone to work and caused it to be rolled nicely, watered adequately and placed it generally in acceptable condition, you would have found any number of people anxious to locate there.” This is but a mere reflex of private opinion generally entertained by West Side property owners. Instead, however, of making these opinions felt through the aid of a demonstration agreed upon by all, a growl and a shrug of the shoulders constitute the sum total of their activity in the matter.

It is ludicrous to say that only our grandchildren will benefit by this West Side, and that, therefore, we are too much ahead of time in urging its improvement. We know the contrary to be the case, where capitalists stand ready to build if only certain streets are graded, regulated, curbed and guttered. How can they build without these preliminary improvements? Take West Eighty-eighth street, for instance, between Riverside avenue and the Boulevard. Ever since 1873 private efforts have been made to have this street placed in condition for improvement. The entire work might have been done in six months if there was only energy in the Department of Public Works, or rather if Commissioner Allan Campbell had been made to understand his duties to the owners of property, and yet here we are in 1880, and it is only now that we see faint glimpses of prospective public improvements in that street. In the meantime Mr. Wilcox, President of the Meriden Britannia Company, and his friend Mr. Russell, owning together twelve lots, are awaiting an opportunity to put up first class houses there.

If now prompt and immediate action be taken in the regulating of this street, these gentlemen may still build, but if they see no prospect of the sulky department doing anything, can anybody blame them if they lose heart and show a disposition to sell their lots? Individuals are not to blame for this neglect on the West Side. The city and its useless public departments are. To make the latter understand their duties and act up to them, to keep up a constant agitation in regard to these matters, is the hounden duty of property

owners acting in a corporate capacity with energy and efficiency. Unless they do so in the summer months as well as under the gaslight of the winter season they will ultimately recognize the necessity of surrounding the West Side, indeed, with a grand fence and the words “Legacy for our posterity” inscribed thereon.

So many structures known as “markets” have been condemned of late in this city, that architects now have a first class opportunity to present something unique, useful, and at the same time ornamental in the number of new designs they will shortly be called upon to make for the reconstruction of Fulton, Clinton and perhaps Jefferson markets. For a purpose like this the ornamental should be secondary to the useful, and the architect, who, while comprehending the metropolitan taste of our people, nevertheless, can remember that in this city a market structure accommodates only a particular section of the city, will carry off the prize. It is a subject worth thinking of in a city where market structures have been a shame and disgrace to us these many years past. In this connection, also, we call the attention of those interested to the public notice in our advertising columns, by which it will be seen that Hohoken is ready to expend \$50,000 in the construction of a new city hall and armory.

The *Herald*, in commenting upon the apparent failure of the recent auction sale of Riverside lots, appears to be under the impression that property on the West End plateau can still be had by the acre, and attributes the low prices to the fact that those in charge of the sale endeavored to dispose of the property in lots of 25x100. How could they have done otherwise? The entire section has been surveyed and divided in blocks and lots. The auctioneer might have put up the entire block between Riverside, Eighty-eighth and Eighty-ninth streets and Eleventh avenue as a whole, but would he have had any bid at all, then? If capitalists desired more lots than one they could have had any number they desired. We have a suspicion, however, that the *Herald* man when writing about Riverside avenue lots was permitting his thoughts to roam along the vicinity of Fort Washington, about a hundred blocks more northward, where property can yet be had by the acre.

ARREARS OF TAXES.

The Comptroller gives official notice to owners of real estate that, as provided by chapter 123 of the laws of 1880, they may now pay any arrears of taxes and Croton water rents levied prior to the year 1877, with interest thereon at the rate of 7 per cent. per annum. If, however, such taxes and Croton water rents are not paid before the first day of October next, the property on which they are due will be sold for taxes immediately thereafter, with the additions of accrued interest thereon at the rate of 12 per cent. per annum from the respective dates on which they were levied.

Lists for such tax sale are now being prepared by the Clerk of Arrears.

The time of payment of taxes for the years 1877, 1878 and 1879, with interest thereon at the rate of 7 per cent. per annum, is extended to the first day of April, 1881, and if not paid before that date, interest will be payable at the rate of 12 per cent. per annum.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

The week just closed has settled the auction business for this season, and the Exchange Salesroom will know no sales of magnitude until the month of September. The attendance throughout the week has been exclusively of regular dealers and brokers. Even the attractive offering of Riverside avenue lots, and adjacent vacant property on Eighty-eighth, Eighty-ninth streets, and Eleventh avenue, did not create a rally of outsiders. As has been stated in these columns, over and again, the summer season is not one favorable to auction sales, when title has to be taken in July and August, just the time when capitalists prefer to go a-fishing. It, therefore, surprised nobody when last Tuesday's sales had to be abruptly adjourned. There was no market for the lots offered, except at prices ruinous to holders. It was said among those attending the sale that results would have been different had the auctioneer offered first the Riverside avenue lots and "put his best foot foremost." But the auctioneer, after all, is only the executive officer in such an emergency, he must obey the orders of the referee, and if he did not know that it was the best policy in this instance to play his trump card first, he, as representative of the Supreme Court, must be held responsible. And yet no one at all acquainted with the real estate market would have attached any importance to the values, if under these circumstances, the four Riverside lots had been disposed of at say \$6,000 or \$7,000. Beginning as the auctioneer did at Eleventh avenue and Eighty eighth street, and selling the corner at \$3,000, which no one would think of selling at least under \$4,000, an inference may be drawn, not only as to the temper of bidders, but as to the constituency that faced the auctioneer's stand, and therefrom may be judged the fate that was in store for the more valuable Riverside lots on the other side of the block. As to the manner in which these lots were offered, the referee is bound by law to present them in parcels most conducive to the profit of owners, and how he could have offered them otherwise, than in lots with a privilege, surpasses our comprehension. However, as we have stated, this has been the last of notable auction sales this season. It will be remembered that in our issue of last Saturday, we announced that Mr. Harnett would sell, on behalf of the United States Trust Company, fifty-two lots on Tenth avenue, One Hundred and First and One Hundred and Second streets on June 17. Yesterday afternoon a meeting was held at the offices of the Company, when Mr. Stewart, the President, asked the auctioneer to express his views in regard to the advisability of going on with the sale. Mr. Stewart as well as his brother officers leaving the decision in the hands of the auctioneer. Mr. Harnett declared promptly that the season was too far advanced for the holding of any successful auction sale of vacant property, and regardless of his own interest in the matter advised a postponement of the sale. Orders have since been issued to cancel all the notices of the sale, which now stands adjourned, without day, at least until the fall season.

GOSSIP OF THE WEEK.

"The real estate market can take care of itself without the aid of auction sales," was the remark made by a prominent owner on Thursday, and judging by the steady enquiries and many offers made all around, the market, so far as private transactions are concerned, takes no stock in whatever may have been slaughtered on the auction stand.

Two notable transactions, one involving \$200,000 and the other \$400,000, have been the talk of Pine street during the past two days. The former relates to some Fifth avenue property, particulars of which are as yet withheld. The latter sale has been made by Messrs. L. J. & I. Phillips. They have sold at private contract for Miss Henrietta Lenox the entire block, one of the best on the East Side—bounded by Madison and Park avenues, Seventy-first and Seventy-second streets, for \$400,000.

Messrs. E. H. Ludlow & Co. have sold at private contract during the week No. 126 Fifth avenue, No. 49 Park avenue and No. 22 East Fifty-eighth street, at the aggregate amount of \$141,300.

The Barnum Museum Company has purchased the Madison Square garden block for \$800,000 from the

Harlem Railroad Company, and will build thereon a new structure for the edification of New York's amusement seekers. Mr. W. H. Vanderhilt is said to be a stock-holder of this new concern to the extent of \$250,000.

There are quite a number of builders in the market now anxious to purchase lots in Yorkville, from Seventy-second to Ninety-second street, and also as far up as Harlem, where there is a steady influx of new tenants.

Jefferson M. Levy has sold, through George W. Raynor, three lots on the south side of One Hundred and Twentieth st, between Sixth and Seventh avenues to Seymour A. Bunce for \$7,900. Mr. Raynor has also sold one lot on the north side of Eighty-ninth street, 175 feet west of Eighth avenue, to D. B. Alger for \$4,550 cash.

To show the interest now taken by outside investors in New York real estate we take pleasure in announcing that a Cincinnati capitalist has purchased for investment, from Messrs. Anthony McQuade & Son, builders, nine apartment houses on Seventy-fourth and Seventy-fifth streets, between Third and Lexington avenues, at \$14,000 each. They are all twenty foot four-story brown stone houses.

Mr. Otto W. Loeffler has sold, at private contract to Mr. Thomas Patton, two four-story brown stone houses on the north side of Eighty-fourth street, 175 feet east of First avenue, and three four-story brown stone houses on the north side of Eighty sixth street, 95 feet east of First avenue, for a total sum of \$90,000. One of the Eighty sixth street houses is a first-class French apartment house known as "the Elsenore."

Christie & Walker have sold the apartment house and store on the southeast corner of One Hundred and Fourth street and Lexington avenue, 25x65x95, for \$20,000 to Mr. John Brandt.

A sale of real estate occurred in Flushing, recently, of part of the old Jagger estate, to close the affairs of the late Dr. Bloodgood. The house on Main street, formerly occupied by the doctor, was sold to Augustus Jagger for \$4,000. Four lots on Division street brought \$1,220, Morris Franklin being the purchaser. The Broadway Railroad depot was sold to Horace Ripley for \$1,300, with a plot adjoining for \$130. Mr. Ripley was also the purchaser of the farm of eleven acres on Crocheron avenue, at \$150 per acre. The total sum realized was \$9,000.

Henry Hilton, Horace White, and a party of New York capitalists have purchased Judge McLean's large track of land on Ocean avenue at Elberon, N. J., on which a summer colony will be established. In this connection it ought to be stated that the so called "army worm" is playing great havoc at Long Branch and vicinity. Several acres of Mr. John Hoey's property have thus been ruthlessly invaded.

The following are the sales at the Exchange Salesroom for the week ending June 11:

* Indicates that the property described has been bid in for plaintiff's account:

*Broadway (late Kingsbridge road), w s, extdg from 142d to 143d st, 112.10 on 142d st and 209 7 on 143d st, 12 lots. Julia Stanberry (Amount due, abt \$25,550)	\$25,600

THE METROPOLITAN CONCERT HALL.

As a metropolitan institution, the new Concert Hall on Broadway, between Fortieth and Forty-first streets, well deserves the prefix, metropolitan. The audiences that have assembled there since its opening, a few days since, are well satisfied with its acoustic qualities, and the general construction reflects credit upon Mr. Geo. B. Post, the architect, and upon Messrs. Morton & Chesley, the builders. The new style of roof has commended itself not only to the managers of the new hall, but to the vast audiences, especially on sultry evenings, when its temporary removal, aided by a simple mechanical device, transforms the vast hall virtually into an open air amphitheatre, a novelty at once useful as well as convenient. The Pioneer Iron Works, of William street, Brooklyn, are the builders of this moveable roof, which will no doubt hereafter be called for in the construction of similar halls. While this ingenious method of introducing ample air, during the summer months, now attracts most attention, provision for properly heating the hall during the winter season, has been made by the Baker & Smith Steam Heating Company. Four elegantly constructed dumb waiters have been provided by Mr. James Murtagh, whose work remains as staunch now as when he first introduced his specialty to the building fraternity. The reputation he has acquired in the construction of dumb waiters is well deserved, as is shown once more by those he has furnished to the Metropolitan Music Hall. The gas fixtures throughout the building are from the well known Archer & Pancoast Manufacturing Company, and are of artistic designs. There can be no doubt but the entire fitting up of this new place of amusement is in full accordance with metropolitan taste, and we trust that its projectors, under the lead of the talented Mr. Aronson, will reap a handsome return for their investment.

A second trial was recently made of the novel sliding roof in the presence of a large number of the stockholders, directors and invited guests. It worked perfectly and was pronounced by all a complete success, the time occupied in opening and closing it being only two and a half minutes and the services of one man only being required to move the entire roof. When the sides are removed it leaves an open space of 40x90 feet, lending to the vast hall the appearance of being an open garden, and affording probably the best means yet adopted of perfect ventilation, as both the sides and top of the building are open, causing a constant circulation of pure air. Since the opening there has been added to the attractions of the place

billiard room containing fifteen tables. Mr. Rudolph Aronson's orchestra of sixty selected performers gives, nightly, a popular interpretation of the style of music in vogue at the celebrated concert halls of Europe, he having spent ten years abroad studying especially to introduce here that class of music. Mr. Jack Hamilton, favorably known among the press of New York, is attached to the management.

A VALUABLE PATENT.

One of the most useful patents ever issued from the Patent Office has just been granted to the Hektograph Company of New York, 22 and 24 Church street, the assignees of Messrs. Kwaysser & Husak, of Bohemia, for the process of dry copying. By this process, any writing or drawing executed with an aniline ink can be transferred to a surface of gelatine and then as many as one hundred copies can be printed by simply pressing dry sheets of paper on the surface containing the transfer. No press is required, nor are acids or water used. The apparatus or use of the process consists simply of a shallow, oblong tin case, filled with a preparation of gelatine to the depth of about an inch and is exceedingly simple and inexpensive.

BUILDING MATERIAL MARKET.

BRICKS—Following our last report there was a still further decline on the cost of common hards, from which no recovery has taken place up to the present writing, and in a general sort of way the market may still be called rather tame. There is, however, some symptoms of a little better feeling gaining ground, and sellers appear to think the bottom must be pretty nearly reached. One encouraging feature is the closer sale of the supply. There has been about the same amount at hand as last week, but the proportion left over is much smaller, and this is hailed as an indication that cost is getting down to a point at which buyers are better inclined to take hold, especially where they have early use for stock. The prices ruling at the moment may be placed at about \$4.45 for "Up Rivers," and \$4.50@5 per M. for Haverstraw on the general run, but choice cargoes would probably command a premium of 25@50c. per M. Sales have continued on the downward turn also, and are quoted at \$3@3.50 per M., with only a slow, uncertain demand prevailing. Along the line of the Hudson the production continues very general, and all the yards prepared to turn out stock are now understood to be at work. Whether this will be continued for any length of time, without the encouragement of a firmer market, is uncertain, but some of the agents here think work will be curtailed somewhat. Fronts in fair average demand, with a little irregularity on values.

HARDWARE—Occasional spurts of apparent increasing demand have been observed, but they are quickly died out, and the general market continues in a more or less dull and nominal state. In fact, dealers make much less of an effort to disguise the prostrate and unsatisfactory condition of business and the unpromising outlook for the nearby future. The cost of material is, in some cases, even lower than before the "boom" set in, the consumption of goods very small and no one will purchase except as a matter of absolute necessity. Prices still tend downward. Cast Butts have declined and are now quoted at: Narrow Fast, 30 and 10 per cent. discount; Broad do., 40 and 10; Loose 50 and 10; do. Joint, Japanned and Silver Acorn, 55 and 10, and Loose Pin do., 50 and 10. The price of Derby and Cincinnati Fifth Wheels has been reduced 75c. per doz. Manufacturers have reduced the price on Cordage and now quote Manila Cordage, sizes above 12 thread and 11ay Rope, 12 cents; do. 12 thread (3/4 in. diam.) 12 1/2, and do. 6 thread and 9 thread (3/4 in. and 5-16 in. diam.), 13; Manila Cordage Bolt Rope Yarns, 13 1/2, and do. 6 thread and 9 thread, 14 1/2; Manila Whale Lines, 13 1/2; Tarred Manila, 14; Fine Tarred Manila Lath Yarn, 13; Sisal Rope, sizes above 12 thread and Hay and Hide Rope, 9; do. 12 thread (3/4 in. diam.), 9 1/2; do. 6 thread and 9 thread (3/4 in. and 5-16 in. diam.), 10; Tarred Sisal Lath Yarn, 8 1/2; Russian Hemp Tarred Cordage, 12 1/2; American Hackled Hemp Tarred Cordage, 17; Tarred American Lath Yarn, 17; fine Tarred American Lath Yarn, 17; Navy Oakum, 8 1/2; U. S. Navy, 10; Best Oakum, 11; all net cash.

LATH—The market remains in much the same condition as for a week or so past, though, if anything, there is a slight inclination toward a steadier tone as we close. Fair arrivals have taken place but none appear to be left over, and this indicates a little better demand than expected, while on prices a small improvement was obtained, sales ranging at \$1.50 mostly but as high as \$1.55 on full parcels, and \$1.60 on Newark orders. Receivers, however, are inclined to meet the demand readily whenever buyers bid promptly, as the influence of parcels unloaded from speculative accumulations is not yet entirely removed and the wants of dealers are scarcely pressing enough to induce them to take hold with freedom.

LIME—A heavy feeling has continued on this market, and prices again declined, with the feeling still

somewhat unsettled as we write. Buyers, instead of taking hold more freely on the previous shading, seemed to become less inclined than ever to operate, and, as the supplies in the meantime were full, receivers slackened off the price as the only hope of securing custom. The decline sold a considerable quantity of lime, but the market has not yet recovered tone. Rockland is quoted at 80c. for common, and 90c. for finishing, and State lime at corresponding rates.

LUMBER—The situation has undergone no very great change since our last. The volume of business is making a seasonable shrinkage, and in some cases there is even to be heard a complaint of dullness, and, as a natural sequence of the loss of demand, when no actual scarcity of supplies is to be apprehended, prices lose support. The reaction, however, is not as yet great or general, and, with one or two exceptions, the only gain buyers have made is a basis for hope that, as the season progresses, they will secure better terms. Advances from sources of supply commence to conflict slightly, and, while all published accounts have a cheerful tone, private letters have been weak enough of late to induce the withholding of orders for further developments. A great many parcels continue to be received on contract.

Spruce does not find much demand, and the market lacks good support. A few buyers are to be found waiting, and cargoes of desirable character dropping in slowing and at intervals could, by judicious management be placed at about former rates. It would not, however, require many arrivals to make a surplus, and under this a concession must, of course, follow. A great many deliveries on contract have yet to be made. Eastern advances, now that consumptive markets commence to slacken, are brushing up and setting in order the regulation stories about "lack of water," "scarcity of logs," "mills shutting down," etc., and possibly somebody may be influenced. As a rule, however, the trade recognizes old and superannuated acquaintances in these reports. Randoms range mostly at \$14.00@15.50, though extra lengths would reach \$16 per M. Specials \$16.50@18.00, and more asked for extra difficult sizes and prompt delivery.

White Pine has not met with quite so satisfactory demand, either for home use or export, and supplies show some little increase. As no surplus accumulation existed before, however, and many dealers were short, additions are rather welcome than otherwise. There is also considerable faith in a reasonably steady sale of this class of stock all summer, and more especially of dry and desirable parcels which most accounts agree must continue scarce. Prices a little irregular, with some weakness on the common grades. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine is without any admitted change in the value, but has a less solid market. Choice and attractive randoms for prompt delivery would find very good custom and command pretty well or quite up to former extremes, but buyers are less anxious to contract for the future and their bids are reduced. Sellers do not meet them as yet, but it is thought will make some concessions, as the engagements of the mills are growing smaller and less urgent. The deliveries on contract continue quite free. We quote random cargoes at about \$24@26 per M.; ordered cargoes, \$25@27 do.; green flooring boards, \$25@27 do.; and dry do. \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods remain firm as the supply of the desirable stock continues perfect, and sellers are indifferent operators. Most of the distribution is on home account, shippers dolug little business at this point. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chest; nut, 1st and 2d, \$30@35; do. do. cills, \$18@20 do. cherry, \$45@75 do.; white wood, 1/2 and 5/8 inch, \$25@27.50, and do. inch, \$3@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

Shingles remain firm in price and find a very good demand. Quite a good export trade took place last month with a prospect that it will continue. We quote Cypress at about \$6 for saps, and \$8.50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch \$16@22.25 for A and \$28.75@33.25 for No. 1; for 24-inch, 6.50@16 for A and \$16.75@23 for No. 1; for 20-inch \$10.50 for A and \$11.25@11.75 for No. 1.

At the yards the distribution has been somewhat irregular and not quite so full, but stocks are moderate and prices firm.

From among the lumber charters recently reported we select the following:

A Br. Ship, 13'8 tons, from St. John, N. B., to Liverpool, Deals 56s 3d; a Br. Barque, 545 tons, from St. John, N. B., to a French port, direct, deals 63s 9d., c. d.; a Br. Barque, 516 tons, from Montreal to River Plate, Lumber, \$17 net; a Barque, 558 tons, from Portland to River Plate, Lumber, \$14 net; a Brig, 318 tons, from Portland to Matanzas, Shooks and Heads, 25c.; Barque, 599 tons, hence to Pensacola, current rates, thence to Rio Janeiro, Lumber, \$21 net; a Schr., 227 tons, from Bucksville to Guadaloupe, Lumber \$12; a Br. Barque, 825 tons, from Montreal to Buenos Ayres, Lumber, \$15 net; a Schr., 180 tons (here), from Jacksonville to Demerara, Lumber, \$12.50; a Schr., 232 tons, from Kings Ferry to Demerara, Lumber, \$12.50; a Br. Schr., 176 tons, two trips from St. John, N. B., to New York, lumber, \$3.75; a Barque, 485 tons, from Fernandina to New York, Resawed

Lumber, \$7.75; a Schr., 300 M Lumber, from Fernandina to New York, \$7.75; a Schr., 200 M Lumber, from Brunswick to New York, \$7.50; a Schr., 170 M Lumber, from Brunswick to Baltimore, \$7; a Schr., 135 M Lumber, from Georgetown, S. C., to New York, \$8; a Schr., 125 M Lumber, from Jacksonville to New York, \$8; a Schr., 164 tons, from Richmond to New York, White Oak Ties, 16 1/2 c.; a Schr., 175 tons, same voyage, small size Ties, 15 c.; a Schr., 216 tons, from Waverly, Va., to New York, Switch Ties, 3 c. 3/4 ft.; a Schr., 184 tons, from Norfolk to New York, Lumber, \$3.25; a Schr., 110 M Lumber, from Jacksonville to New York, \$8.50; a Schr., 184 tons, from the Chesapeake to New York, eight Foot Chestnut Ties, 18 c., f. o. b.; a Schr., 294 tons, from Pensacola to Portland, Lumber, \$10.15; three Schrs., from Portland to New York, Lumber, \$2; a Schr., 170 M Lumber, from Jacksonville to New York, \$8.75, free of New York wharfage, out in ballast; a Schr., 300 M Lumber, from Savannah to Perth Amboy, \$7.50; a Schr., 250 M Lumber, from Darien to New York, \$8; two Schrs., from Richmond to New York, White Oak Ties, 16 1/2 c.; a Schr., 230 M Lumber, from Pensacola to New York, \$9; a Schr., 225 M Lumber, from King's Ferry to Boston, \$8.50; a Schr., 286 tons, from Wilmington to New York, Lumber, \$7.

Exports of lumber from the port of New York:		
	This Week.	Since Jan. 1, feet.
West Indies	613,862	12,562,552

Europe, United Kingdom	121,600	3,866,395
Total	873,227	29,454,069

GENERAL LUMBER NOTES.

STATE.

The Albany lumber market, for the week ending June 8th, is reported by the *Argus* as follows:

Since our last report we have had a fair attendance of buyers, resulting in a good business in Pine Lumber at quotations. The receipts of pine lumber during the week have been very free, giving us an excellent assortment and a market in good shape for buyers. As we stated last week would probably be the case, this week's fleet of boats by the Erie canal has brought dry lumber exclusively. There is not any weakening in prices and the general opinion is that good lumber will hold its own.

Of coarse lumber the receipts have also been free, but the sales ahead and the present brisk demand prevent any accumulation of stock. The recent rains north will give the mills full employment and steady receipts may be relied on.

The shipments of lumber from the Saginaw river so far this season are 1,086,000 feet and are largely in excess of those of 1879.

The receipts at Albany by canal from the opening of navigation to June 8th were:

Bds & Sctg. ft.	Shingles, M.	Timber, c.f.	Staves, D.
1879..	32,176,100	811
1880 ..	67,518,600	100

The receipts of Lumber by lake at Buffalo for the week are 8,719,300 feet; by rail 98 car loads. At Oswego, 6,097,900 feet.

Freights from Bay City to Buffalo and Tonawanda, \$1.50 @ M. feet; from Saginaw, \$1.75. From Buffalo to Albany, \$2.50; from Tonawanda to Albany, \$2.25; @ M. feet. Lake Ontario freights to Oswego, 90c @ M. feet, and from Oswego to Albany, \$1.75, and boats plenty. From Ottawa to Albany, \$3.75 @ M. feet.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

BAY CITY, June 8, 1880.

Instead of manifesting the weakness for which some have been looking, the market is showing more strength, which finds its justification in advices from outside, and an increase in inquiry. There have been an unusual number of buyers in the valley the past week, and they have bought quite freely, taking hold with more relish than was expected. Several choice lots of lumber have sold at \$7.50, \$14, \$33 and \$35, quite a quantity at \$7, \$11 and \$30, and some coarse stock at \$6.50, \$13 and \$25. The opinion among manufacturers is quite decided that there will be no decline in prices. They say they have no difficulty in selling their cut at the prices above named, and are convinced that they will not be obliged to sell at less.

The supply of shingles is less than the demand, and prices are steady at quotations.

Freights by water show a slight increase, but are still favorable to trade, being at about \$1.50 from Bay City to Buffalo and Tonawanda and \$1.75 to same ports from East Saginaw, to Ohio ports \$1.25@1.37 1/2. The advance in grain freights has taken some of the barges out of the lumber trade.

The shipments for the month of May compare with the same, for years 1878 and 1879 as follows:

	1878.	1879.	1880.
Lumber	88,790,000	73,111,411	89,925,926
Lath	6,980,000	3,547,750	2,069,650
Shingles	20,223,000	30,543,000	17,200,000

We quote cargo rates:

Three upper qualities	\$28 00@32 00
Common	13 00@15 00
Shipping culls	6 50@ 7 50
Lath	1 25@ 1 50
Shingles, XXX	2 85@ 3 00
clear butts	1 85@ 2 00

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, Minn., June 3, 1880.

Trade moves along surprisingly steady in all the Western markets, there being little increase or falling off since the first of February at any of the river towns. Stocks accumulate but slowly, owing to the large demand for railroad and mill stuff, which takes a large part of the product of the mills. Many of the largest firms have all the contracts they can fill for the next three months for this class of timber. This relieves the market from the pressure of green common stuff which would otherwise soon be in excess. Everybody seems hopeful of a continuance of the present excellent demand throughout the year. The only circumstance which seems discouraging is the continued drought in western Kansas and Nebraska, which has about destroyed all the crops and will cut off all demand for lumber from that section.

The bulk of all the logs are in the booms or so near at hand that no fears are entertained of any being "hung up." The only exception to this is the heavy jam on the Chippewa, which still holds 150,000,000 feet of logs. The work of breaking them loose becomes more difficult every day as the water is falling in the Chippewa.

Great activity prevails in rafting and running logs and lumber on the Mississippi. Every available boat is running day and night, and many float rafts are to be seen on the river reminding one of the olden times. There is little change in list prices but it is understood that the lower river points which are selling in direct competition, have been making some concession to meet figures offered at Chicago. The outlook at Chicago is hardly pleasant. The receipts being about four times the shipments, and the latter considerably behind last year's figures.

NORTHWESTERN LUMBERMAN, CHICAGO, June 2, 1880.

The offerings at the wholesale market during the week past have been rather limited, though a considerable fleet, comprising the arrivals of the previous thirty-six hours, was on sale at the opening of business on Monday. The stuff received at the market has all been sold readily, and at this writing the market is empty, and practically deserted by both sellers and buyers. Reports from across the lake indicate that considerable lumber is going into piles, and this circumstance, together with the unfavorable weather, accounts for the limited supply. There is no question but that among buyers there exists more of a disposition to take hold, and sales are made now with comparatively little trouble. In fact, most of the dealers have held off as long as they can safely do so, and feel that it will not do to wait much longer before beginning to lay in a supply for the summer and fall demand. It may be, too, though they are not ready to admit it yet, that they are losing faith in the break in prices that they have been prophesying along back. Certainly the prospect of such a thing is not nearly so promising as it was a few weeks ago.

Under such circumstances, it is only natural that prices should have been maintained firmly. There is, in fact, no special change to be noted from last week, though it is unquestionable that a better feeling exists among sellers, and a greater degree of confidence in their ability to maintain the list without any further concessions. Good Manistee piece stuff is held and sold at \$8, but \$8.25 has been paid for some cargoes, and inferior qualities are quoted only 25 cents below this figure, on white pine, while Norway has been selling at \$7.87. The offerings of dimension lumber have been very light, and the arrivals have been quickly snapped up. Inch lumber has been in good demand, and some grades have brought a trifle better price in a few instances, but the range given in our quotations still covers the market, with unquestionably an advancing tendency. Standard shingles have sold for \$1.85@2 and extra at \$2.05@2.20. Latb are still quotable at \$1.50 and 1.75, according to quality.

The outlook for next week indicates no important change either in the supply or the demand. The first may be somewhat larger, owing to the arrival of the fleet which is now out, but the inquiry from the dealers is expected to be equal to it.

CARGO QUOTATIONS,

Good joist and scantling.....	\$8 00@ 8 25
Common to fair joist and scantling.....	7 75@ 8 00
Good boards and strips.....	15 00@18 00
Common to fair boards and strips.....	9 50@14 00
Shingles, Standard.....	2 00@ 2 10
Shingles, Extra A.....	2 15@ 2 30
Lath.....	1 50@ 1 75

Receipts and shipments of lumber and shingles from Jan. 1 to and including June 3:

	Receipts.		Shipments.	
	Lumber.	Shingles.	Lumber.	Shingles.
1880....	306,233,000	153,108,000	220,204,040	35,969,000
1879....	300,203,398	174,452,000	235,576,813	22,751,000

FOREIGN.

The following are from the *Timber Trades Journal*, of May 29th.

LONDON.

Prices are quiescent, and no stir is as yet apparent in the market here. The recent heavy sales have supplied most of the wants of the trade, and there is very little inducement in the present prospect to speculate farther.

The question then arises how, in face of the supplies coming forward, can prices go up, or even be maintained? On the one hand, consumers appear to be holding off as long as they can, only buying as it were from hand to mouth; and stocks in many parts of the country are reported to be low; hence it is expected that in the ordinary course of things there will be a rush later on to secure what is required.

Again, should present anticipations of shippers, in regard to short supply for autumn shipment (owing to want of water), be fulfilled, then there will be waiting heard on the part of those who have not yet bought, as there would also be on the part of those who have speculated, should from any cause prices come down.

LIVERPOOL.

Although the holidays are now over, we have not yet experienced that favorable turn in trade which all have been so anxiously and hopefully waiting for, and we have still the same old complaint from merchants that buyers are few, and their wants small; even then prices cannot be obtained at anything like a fair profit upon the cost of importation. The tables of import, etc., issued at the end of the current month, will show how small has been the demand, and until it receives a considerable impetus, there is nothing to show why prices should not go lower even than they are now, for the demand seems at a very low ebb, and without, so far as can be seen by most people, any chance of a turn of tide occurring in the immediate future. It is true that the stocks of most goods are very light, yet they are quite sufficient for the present rate of consumption, and may possibly serve until the new import arrives, which, by the way, is likely to be a very late one, owing to the detention that the spring fleet outward bound to Quebec has met with in the Gulf of St. Lawrence, through the almost unprecedented quantity of ice that has been encountered.

Pitch pine—prices are a little firmer, as the season is now nearing its close, and shippers have not yet got over the difficulties they have had to face through the very dry season, which has prevented them from getting down their timber to the shipping ports.

The freight market is quiet, and for forward ships lower rates are obtainable. Quebec freights may be quoted to-day at about 25s. to 25s. 6d. per load.

GLASGOW.

Auction Sale.—On 21st inst., at Greenock, Messrs. Edmiston & Mitchells, brokers:—
Quebec waney boardwood, ordinary, 47 o. ft. per log, 1s. 5½d. to 1s. 7½d. per c. ft.
Quebec deck plank yellow pine, ordinary, 50 c. ft. per log, 1s. 4d. per c. ft.
Quebec yellow pine, 45 & 50 c. ft. per log, 1s. 0¾d. to 1s. 1¼d. per c. ft.
Quebec yellow pine, 35 & 40 c. ft. per log, 11½d to 1s. per c. ft.
Quebec red pine, superior, 30 c. ft. per log, 1s. 2¾d. per c. ft.
Sawn pitch pine, 30 to 35 c. ft. per log, 1s. 2½d. and 1s. 2d. per c. ft.

This week's mail from Havana reports:

White Pine—The demand rules fairly active, and we quote \$33@31 gold, per mille feet, as to assortment.
Pitch Pine—Continues rather scarce and owing to the good prevailing demand, we anticipate a ready and advantageous sale to the first cargoes to come in. Meanwhile we quote nominally \$33@38 gold per m. feet, for good assortments.

Cooperage Stock—Box Shooks—Market continues heavily supplied and we estimate stocks in first and second hands at from 25@30,000, for which sellers would readily accept 6@6½rs.

Hoghead Shooks—About 40,000 in first and second hands remains for sale of those for sugar, that we quote at from 15@17rs.; those for molasses are now scarcer and firmly held at from 21@23rs. as to class.
Empty Casks—We still quote \$3¼@3½ for hds., and \$2@2¼ for tierces, as per last sales.

Hoops—Stock now exceeds of 500,000 and there has been some small sales at from \$38@40 per mille for long shaved, prices that we do not deem obtainable for parcels of any consequence.

NAILS.—Operations are still rather slow and cautious. There seems to be more stock between the manufacturer and the consumer than supposed and first hand supplies in consequence meet with a little neglect. Prices remain without quotable change, but there is a weak and uncertain undertone and regulation figures are sometimes shaded. We quote nominally 10d to 60d, common fence and sheathing, per keg, \$3.10; 8d and 9d, common do, per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common do per keg, \$3.05; 3d and 4d, light, per keg, \$1.60; 3d, fine, per keg, \$5.85; 2d per keg \$3.35.

Cut spikes, all sizes, \$3.35. Floor casing and box, \$3.75@4.50. Finishing, \$4.00@4.75.

CLINCH NAILS.

1½ inch, \$5.50@5.65; 1¼ inch, \$5.25@5.35; 2 inch, 5.00@5.15; 2½ inch, 4.75@4.85; 3 inch and longer, 4.50@4.60.

PAINTS AND OILS.—There is a spasmodic sort of trade doing, which occasionally leads to some fair sized sales, but the movement is not smooth and satisfactory, and the market has rather a tame tone, as a whole. Prices too are irregular, and while it is the fashion to quote most goods "about as before" the anxiety at the indifference of buyers as the case may be makes considerable difference in the line of cost. There is also understood to be an "outside" supply, on which holders occasionally make liberal concessions in order to realize. Linseed oil has sold somewhat more freely, and there was probably less in the way of direct pressure to realize, but the market is still unsettled on price. We quote at about 65 @67 per gallon, from crusher's hands.

PITCH.—Business has been moderately active in a general way, though some dealers report a slight increase in the amount of sales. Supplies fair and the

cost a shade lower. We quote at \$1.87½@2 per bbl., for City delivered.

SPIRITS TURPENTINE.—The market is in somewhat better form, and the depression has in a measure disappeared. Quite liberal amounts were taken for export, and the reduction of stock gave holders greater advantage. The home demand, however, does not greatly improve, and buyers move carefully. As this report is closed, the quotation stands about 27½@28½c. per gallon, according to the quantity of stock handled.

TAR.—Supplies have moved in a somewhat irregular manner without reaching a very full total. Holders, however, retain a fair control over the accumulation, and are steady at full former rates. We quote at \$2@2.25 per bbl. for Newberne and Washington, and \$2@2.55 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranties.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

* 113 EAST 77TH STREET,
NEW YORK CITY, June 11th, 1880.
To the Editor of THE REAL ESTATE RECORD:
SIR.—We noticed in this morning's papers the filing of three Mechanics' Liens, by Hollis L. Powers, as assignee of Brown & Hawkins, amounting in the aggregate to \$6,756.64, against twenty-five buildings owned by us, situate on One Hundred and Third and One Hundred and Fourth streets and Lexington avenue, and on One Hundred and Fifth street, north side, between Lexington and Fourth avenues, and on southeast corner of One Hundred and Sixth street and Fourth avenue.
The filing of these liens is an outrage. We do not owe Messrs. Brown & Hawkins, or their assignee, one dollar; on the contrary, Brown & Hawkins are in our debt over \$3,000.

Yours respectfully,
CHRISTIE & WALKER.

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

NEW YORK, JUNE 9, 1880—BIDS ARE ASKED FOR the purchase of \$2,000,000 of 6 per cent. Second Mortgage Bonds of the Metropolitan Elevated Railway Company.

This mortgage covers the same property as the first mortgage, and is not to exceed \$4,000,000, in case the whole should be eventually needed. The principal is due November 1, 1899, and the interest payable May 1 and November 1 in each year. The payment of both principal and interest is guaranteed by the Manhattan Railway Company.

It is required that the bonds be taken and paid for as follows:—

- 25 per cent. on June 22.
- 25 per cent. on July 15.
- 25 per cent. on August 17.
- 25 per cent. on September 15.

It is understood that the purchaser is to pay the accrued interest on the bonds from May 1 to the date of payment, in addition to the price bid.

Bids will be received till June 15, next, at 12 o'clock, M., and are to be addressed to

JOSIAH M. FISKE,
Chairman Finance Committee,
71 Broadway.

The right to decline all bids is reserved.

Communications should be addressed to

C. W. SWEET.

No. 137 BROADWAY

Builders and material men should read carefully the Mechanics' Lien law which has just been signed by the Governor, and is printed for the first time in the columns of to-day's RECORD. The importance of its various provisions will require a general circulation of this law among the building trade. Extra copies of THE RECORD containing the new statute can be obtained at this office, and orders can be transmitted to us by telephone.

Communication can now be had with this office
BY TELEPHONE,

an accommodation provided specially for our subscribers and advertisers. Up-town builders and agents, also, who are subscribers to the National Bell Telephone, can now, without delay, converse with the editor of THE RECORD without being compelled to come down town.

THE HEALTHY REACTION.

The depression in prices, so sudden and extraordinary during the last two months in various departments of business, proves now to have been a healthy reaction from an attempt at over speculation, so readily indulged in, especially in this section of the country. This reaction was indeed necessary to maintain that steady, onward march of prosperity based upon the excellent condition of the country. Its effect has been to open the eyes of speculators in time, and to put on brakes where matters were going too fast. The lesson has been a salutary one, and the heavy stocks of merchandise brought in here from abroad, owing to the high prices, are being rapidly reduced by healthy consumption and a decrease in the volume of importations. In fact, during the week ending last Saturday the importations were smaller than they have been at any time since January. The eleven, and often thirteen, million dollars worth of foreign goods brought to this port during the booming weeks of March and April are now reduced to seven and eight millions, with a perceptible increase in the volume of exports. The result will soon make itself felt again in an increase of prices, but that increase will be sure and steady and at a moderate percentage. The example of the iron trade will not be followed with its booming prices, since succeeded by crushing failures.

Wall street, also, while recovering from the quasi-panicky feeling of the last month, is more disposed to act in accordance with the sensible ideas of merit and value. The earnings of all the railroads throughout the country are better than they were a year ago, and there is already felt a sound undercurrent which will give better permanency to the prices of stocks.

There are those in the real estate market, as well as in Wall street, who are not always disposed to reason. These people, during the recent healthy reaction, imagined that another long and tedious period was to set in. They must already see by this time the erroneous views under which they labored. Never in the history of the country has business been conducted upon a more solid basis, and the speedy breaking down of speculative prices has already had the beneficial effect of renewed improvements everywhere, of turning the flood of foreign goods and securing a steady consumption by a population vastly increased by emigration.

WHY NOT REAL ESTATE?

If the Government, in taking the census, had made provision for gathering statistics in regard to real estate, both improved and unimproved, property-owners might with complacency regard the schedule for New York City. It would have been like taking stock in a large warehouse, so that those interested in the number of buildings and lots on hand or occupied could have seen at a glance the extent of the supply. We regret that, notwithstanding the tremendous efforts made in Washington to make the census of 1880 a model one, the authors of the census bill did not have the foresight to provide for the gathering of these statistics. It would have been shown, for instance, where the density of population causes a demand for more lots; how those not finding room enough on the soil allotted to them are beginning to build skyward, and how near we, in this city of New York, with the approaching completion of the East River Bridge, may be to the creation of a city and suburbs that must, in the course of time, eclipse even London with its four million of inhabitants. Figures tell the story, whether they show the aggregate of lots laid out or the number of miles covered by paved streets. And it is upon such figures that values may be based. Boston, Philadelphia, Baltimore and other cities would have been benefited by statistical information on such a subject, and the comparative tables forming part of such an investigation would have been scanned with interest, not only, but with profit, by American investors generally. It is passing strange that while the general government has created special bureaus to gather all statistics in regard to manufactures, agriculture, etc., it should have overlooked the real estate column. Especially, in a republic like this, with its fifty millions of inhabitants, many of them owners of the soil in a ratio far surpassing that of other countries, the statistics on this subject would have been instructive, not only to the capitalist and investor, but to the political economists of this, as well as of other countries.

The two most important bills affecting the property interests of the city passed at the last session of the legislature, were the Assessment Bill, already published in these columns, and the Bill for the improvement of Morningside Park and the avenues bounding that park, which we print to-day. Both bills have now been approved by the Governor. For the passage of the latter bill the

city and the West Side property owners are chiefly indebted to the efforts of the West Side Association, and especially of its president, Mr. Dwight H. Olmstead. A bill for the improvement of Riverside Park was also introduced into the legislature. It passed the Senate, but failed to pass the Assembly, owing to the great pressure of other business at the close of the session. It is understood, however, that the Morningside bill is the initiatory step in the completion, at an early day, of all the public improvements on the West Side. The improvement of Morningside Park is much needed, and will open up for occupation a large and growing section of the city.

The question of locating the World's Fair of 1883 is beginning to agitate the minds of incorporators as well as of property owners. It would be folly for any one, during the present embryonic state of the Commission, to designate any particular locality that answers the requisite purposes. And yet, it might as well be said now as later, that the committee charged with selecting a site will have to go where there are but few owners to deal with. It has been so in London, in Paris, in Vienna, and even in Philadelphia, and will be found to be the same when the actual work in securing the ground in New York City will have to be taken in hand. Legislative enactments may give the World's Fair Corporation all the privileges they ask for, but owners of lots or of acres cannot be driven even by legislative enactment to surrender their property at nominal values. One or two may be found, and no doubt will be found to grant leases at nominal figures, or perhaps at no figures at all, but the case will be different when, say twenty-five or thirty owners have to be dealt with. It all amounts to this, then, that to obviate the obstacles that will surely be put in their way by individual owners, the commissioners will have very little to choose from when the all important question must finally be decided. Aside of the Central Park, but few if any tracts can be had suitable for the emergency, provided the Fair is to remain on Manhattan Island. Any other selection would involve tedious negotiations, owing to the number of small owners, whose peculiar ideas as to the temporary transfer of their property, might result in upsetting the very best scheme conceived by the commissioners.

Officials in charge of municipal and other corporations in calling for plans, specifications and estimates make generally a glaring mistake by announcing the fact that they will pay only for the best or second best plans. What these best or second best plans are, can be easily conjectured when no architect of standing can afford to prepare a plan in haste nor give his time for its preparation free gratis. The result is, that in many cases only the drones of the profession send in plans and take their chances, while those who have any work at all on hand keep aloof from making plans not based upon positive remuneration. Our public buildings would be less subject to criticism if all architects, when called upon to submit their views and ideas, were to be paid for

these views just as lawyers are when called upon for their legal opinions. Officers of corporations would then have plans of merit to select from, not daubs prepared by novices, as is now too frequently the case.

We have heard before this, from Wordsworth, that there are some people who can "botanize on heir mother's grave," but never until the last week did it come to our knowledge that there are men who give mortgages on burial plots containing the remains of their offspring. Such an individual is Mr. Andrew J. Thompson, and when he was in want of money he gave as, security, his plot in Greenwood Cemetery. Judge Van Vorst, when the question came before him as to the right of the holder of the so-called mortgage to remove the dead, declared that it was against "the policy of the statute and good morals" to mortgage a burial plot, that the dead should not be disturbed and that the mortgage must be cancelled. Singular to say, on the very same day, a man who offered to become bondsman for his friend in an up-town police court, when asked as to the nature of his security said, "a lot in Calvary Cemetery." Justice Bankson T. Morgan, without knowing the decision rendered in a higher court, that a burial lot is by its very nature "lifted out of the domain of bargain and sale," at once declined to accept the Calvary lot as ample security. In the face of these two decisions, it is to be hoped that in future those owning burial lots in our various cemeteries will not all at once consider themselves real estate owners, and, if they do, they will not endeavor to negotiate mortgages on the same. Though the brokers of Pine street are not all saints, they will certainly, before attempting to negotiate such mortgages, agree with Judge Van Vorst, that it is against "the policy of good morals."

When the new Post Office was fairly under way, there appeared to be an impression that all the heavy financial concerns would centre right around it, within a radius of five or six blocks. It did not take long to disabuse the public mind of such an error, and Wall street continued to be the centre, as it had been before, of financial institutions. That this is going to remain so is evident by the large amounts invested, and to be invested by owners in the construction of new and alteration of old buildings. During the last six weeks permits have been obtained from the building department for the erection and overhauling of half-a-dozen prominent buildings south of Cedar street, the cost of which runs into the hundreds of thousands. Aside of the great bank building on the corner of Broadway and Wall street, which is to cost \$450,000, the Liverpool & London & Globe Insurance Company have just begun the construction of a building on the southwest corner of Pine and William streets, at a cost of \$260,000. A Philadelphia owner is reconstructing No. 55 Broadway into an office building at a cost of \$105,000; No. 63 Broadway is being altered, at an expense of \$25,000, and the additions just made to the building of the Manhattan Life Insurance Co. cost no less than \$50,000. Property in and around Wall street certainly is as flourishing as it ever has been during New York's history, with every prospect of its attaining still higher figures, so long as the great financial centre remains in its immovable locality.

How important it is that all business men should carefully read the columns of THE RECORD was once more illustrated a few days ago, when, in two distinct instances, errors on the regular judgment docket were discovered through these columns. Two gentlemen, who are subscribers of this paper, found that instead of being posted

as judgment creditors they had been inscribed as judgment debtors, and the errors would have remained on the official record but for their discovery in the pages of this journal.

IMPROVEMENT OF MORNINGSIDE PARK.

The following important act, providing for the improvement of Morningside Park, in the city of New York, and of the streets and avenues bounding said park, was signed by the Governor on Wednesday :

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

SECTION 1. The commissioner of public works of the city of New York is hereby authorized and directed to complete the regulating, grading, curbing and guttering, construction of roadways, flagging the sidewalks, the planting of shade trees, construction of sewers, and of the necessary retaining walls to support the roadways and sidewalks of the streets and avenues bounding Morningside park in said city, according to such plans as the said commissioner may deem for the best interests of said city; all such work and the materials necessary therefor to be done and procured by one or more contracts made at public letting in the manner provided by section ninety-one of chapter three hundred and thirty-five of the laws of eighteen hundred and seventy-three, except that the said commissioner is hereby authorized to appoint such engineers or such other persons as he shall deem proper to make the necessary surveys, estimates, plans and specifications, and supervise the construction of the work herein mentioned to be done by said commissioner, and the expense thereby incurred shall be included in the assessment for the work.

§ 2. It shall be the duty of said commissioner of public works to transmit to the board of assessors of said city of New York, upon the completion of said works, or any portion thereof, as the said commissioner may deem advisable, his certificate of the amounts heretofore expended upon said works, together with the expenditures hereafter incurred upon the same by him under the provisions of this act, and the proceedings for laying and collecting assessments for work so certified shall be pursuant to the laws now or hereafter in force for laying and collecting assessments for local improvements in said city. Assessments which are authorized for the expense of any work or materials procured or services rendered under this act may be laid separately from time to time upon the receipt by the said board of assessors of such certificate of the said commissioner.

§ 3. The said commissioner of public works is hereby authorized and directed to change and adjust the grades of said streets and avenues in such manner as he may deem for the best interests of the public, provided that such altered grades shall, at the intersection of the centre line of any abutting street or avenue coincide with the present established grade of such abutting street or avenue; and it shall be the duty of the said commissioner to file in the department of public parks in the department of public works, and in the office of the register of the city and county of New York, a map or maps, duly certified by him, showing the grades of said streets and avenues as so changed and adjusted, and upon the filing of said map or maps as herein provided, the grades shown therein shall be deemed established as shown on said map or maps.

§ 4. The department of public works in said city shall have control of the care and maintenance of said streets and avenues, and the improvements upon the same, after completion.

§ 5. Permission and authority is hereby given to the commissioner of public works to place the slope or batter of such retaining walls within the limit of said Morningside park, and the said commissioner and the contractors and their employees for doing said work may enter and occupy that part of Morningside park fronting the avenues adjacent thereto, for such time as may be required for the construction of said retaining walls and slope or batter. Such modifications and adjustment of said retaining walls and slope or batter as may be required to conform to plans and specifications of the department of public parks for the approaches or means of ingress or egress to or out of said Morningside park shall be made or done by the department of public parks, and the work which the commissioner of public works is hereby authorized to do, and the work required to be done in and about said retaining walls, slope or batter, as herein described, to carry out the plans and specifications of the department of public parks, shall, as far as practicable, be prosecuted at the same time.

§ 6. The department of public parks in said city is hereby directed to adopt and file within three months after the date of the passage of this act, in the office of the department of public works in said city, a definite plan and design for the improvement of said Morningside Park, and of the approaches to said park from the streets and avenues bounding the same, and of any ornamentation which the said department of public parks may deem desirable, in connection with the construction of such retaining or parapet walls, as the department of public works may find it necessary to construct for the improvements of said streets and avenues.

§ 7. The said departments of public parks is hereby authorized and directed to proceed immediately after the filing of said plans and designs and in accordance therewith, and with such additional and amended plans and designs as said department of public parks shall thereafter from time to time approve, to complete said Morningside Park and the improvements thereon, and in order that the construction of the streets and avenues bounding said park under the direction of the commissioner of public works may not be impeded or delayed, the said department of public parks is further directed to proceed firstly with that portion of the improvement including approaches and ornamentation which is necessary to be done in connection with said streets and avenues, and the retaining walls to be constructed by the department of public works for the improvement of the said streets and avenues, and the monies appropriated by this act shall be applied primarily to the said work on approaches and ornamentation connected with said retaining walls.

§ 8. To provide means for the work by this act authorized and directed to be done by the said department of public parks, the comptroller of the city of New York is hereby authorized and directed to create and issue from time to time as required within twenty days after requisition is made on him so to do by resolution of the said department of public parks, or of a majority of the commissioners thereof in the name and on behalf of the mayor, aldermen and commonalty of the city of New York, a public fund or stock to an amount to be mentioned in said requisition, and not exceeding one hundred and fifty thousand dollars in all, whereof not exceeding seventy-five thousand dollars shall be payable on the first day of November, one thousand eight hundred and eighty-one, with interest at a rate not to exceed six per cent. per annum, and the balance thereof with interest at six per cent. per annum shall be payable on the first day of November, one thousand eight hundred and eighty-two, and the proceeds of the said fund or stock shall be applied by said comptroller to payment for work authorized by this act to be done by said department of public parks.

§ 9. The board of estimate and apportionment of the city of New York is hereby directed to include in the final estimates of the amounts required to pay the expenses of conducting the public business of the city and county of New York during the years eighteen hundred and eighty-one and eighty-two an amount sufficient to pay in each said year one-half of the principal of the fund or stock authorized to be issued by this act, together with the interest thereon.

§ 10. Whatever is by this present act authorized or directed to be done by the said department of public works or by the said department of public parks shall be done and performed by any successor or successors in office of said departments or by the commissioners thereof.

§ 11. This act shall take effect immediately.

THE NEW MECHANIC'S LIEN LAW.

AN ACT to secure the payment of mechanics, laborers, and workmen who perform work, also persons furnishing materials toward the erection, altering or repairing buildings, wharves, vaults, or any other structure in the cities of the State of New York.

[Passed May 24, 1880, three-fifths being present.]
The People of the State of New York, represented in Senate and Assembly, do enact as follows :

SECTION 1. Any person or persons who shall hereafter, either as contractor, sub-contractor, or in any capacity under or in pursuance of or in conformity with any contract, agreement or employment by the owner, lessee or person in possession of any land in any of the cities of the State of New York, perform any work, labor or services, or furnish any materials toward the erection, altering or repairing of any house, vault, wharf, fence, or any other structure, or in grading, filling in, excavating or laying walks on any lots of land in the cities of the State of

New York, shall, upon filing the notice prescribed in the second section of this act, have a lien for the price or value of such work, labor, services and materials upon such house, vault, wharf, fence or other structure and appurtenances, and the lots upon which said grading or excavating is done, or walks laid, to the extent of the right, title and interest of the said owner, lessee or person in possession of said house, vault, fence or other structure and appurtenances, and the land upon which the same stand at the time of the filing of the notice of claim in the second section of this act specified, or the successors in interest of such owner, lessee or person so in possession taken with notice of said lien.

SEC. 2. At any time before or within thirty days after the completion of the erection, altering or repairing of any house, vault, wharf, fence or structure, or grading, filling in, excavating or laying walks on any lot of land in the said cities in the State of New York, the persons so performing such work, labor or services, or furnishing such materials, may file with the clerk of the county where the land or premises are situated, a notice in writing, stating his or their residences, the amount of the claim, from whom due, and if not due, when it will be due, the person or persons against whom the claim is made, the name of the owner, lessee or person in possession of the building (against whose interest a lien is claimed), but the failure to state the name of the true owner, lessee or person in possession, shall not impair the validity of the lien; also, a brief description of the buildings or premises, sufficient to identify the lands or premises against which the lien is claimed.

The said notice or lien shall be verified by the person or persons making the claim, or his, or their agent, or any other person, to the effect that the statements therein contained are true, to the best of his or their knowledge, information and belief. Successive liens may be filed for work, labor and services, and materials done and furnished under one contract or employment, but the filing of any such lien or liens shall not entitle the person so filing the same to recover judgment for the amount of such lien or liens, unless he shall be entitled to recover payment by the terms of the contract, or agreement or employment, and in case of sub-contracts or persons doing work, or furnishing materials to contractors, no judgment shall be rendered for any greater amount than the amount which shall be due from the owner to the contractor at the time of the filing of the lien, or which may become due afterward, or which by the terms of the contract or agreement shall be due at the time of rendering of such judgment.

SEC. 3. Where an owner of land contracts with a builder for the sale of lots and the erection of buildings thereon, and agrees to advance moneys toward the erection of such buildings, the lien hereinbefore authorized shall have priority to all advances made after the filing of said notices of lien. And the lien shall attach to the right, title and interest of the owner in said building and land to the extent of all advances which shall have become due after the filing of such lien, and shall also attach to and be a lien on the right, title and interest of the person so agreeing to purchase said land at the time of the filing of said notices of lien.

SEC. 4. The County Clerk shall enter in a lien docket the name and residence of the claimant, the person against whom claimed, the amount claimed, the date of filing, and a brief description of the premises affected.

He shall be entitled to receive a fee of ten cents for each lien filed.

SEC. 5. Liens shall in all cases cease after one year from date of filing, unless an action shall be commenced, and a notice of lis pendens filed with the Clerk of the County wherein the premises are situated, or an order made continuing the lien for another year; in the latter case the County Clerk shall, upon filing such order, make a new docket of such lien. Successive orders and new dockets may be made in the discretion of the court.

SEC. 6. The lien may be discharged as follows:

1. By filing a certificate of the claimant, or his successor in interest, acknowledged and approved in the same manner as the satisfaction of a mortgage, stating that the lien is discharged.

2. By depositing with the County Clerk, if before suit is commenced, a sum of money equal to the amount claimed; and if suit shall have been commenced, a sum equal to the amount claimed, and such sum in addition as shall be ordered by a Judge of the Court in which the action shall have been commenced, as security for the costs of the action; such deposit after suit brought to be made on notice or on an order to show cause, directed to the plaintiff in the action, or his attorney.

3. By the expiration of one year after the filing of said lien, without any order being made continuing the same, or notice of lis pendens filed as aforesaid.

SEC. 7. The liens provided under this act shall be enforced by civil action commenced in any Court of record in said city having equitable jurisdiction, by any person claimant, the original or sub-contractor, or an assignee thereof or contractor, against any property affected thereby, at any time within one year from the filing of such lien. Such action shall be commenced, carried on, and judgment entered and enforced as provided in an action to foreclose a mortgage in the code of civil procedure, and the plaintiff shall make all other parties who have filed subsequent liens under this act, or have any prior record claims or liens upon said premises and their appurtenances, defendants in such action. And the Court shall determine the priority of the liens, the amounts due thereon, and the rights of the respective parties, and render judgment accordingly. The Court may also render personal judgment against or in favor of any party to the action. Costs for or against the parties litigant shall be in the discretion of the Court.

SEC. 8. When separate actions are brought to foreclose liens against the same property, the Court may, on motion, consolidate them.

SEC. 9. Appeals in actions to enforce liens provided for in this act may be taken, in the same manner and within the time, and shall be governed by the same rules and practice as prevail in actions for the foreclosure of mortgages.

SEC. 10. Buildings and property used for public purposes are especially excepted from the operation or effect of this act.

SEC. 11. This act shall not apply to the city of Buffalo.

SEC. 12. This act shall take effect immediately.

BARNUM'S MUSEUM COMPANY.

While calling attention to the advertisement of Barnum's Museum Company, in another column, we ought to state that the building, to be constructed on the site of the old Gilmore's Garden, will be five stories in height, constructed of brick, stone and iron in the most substantial manner, *thoroughly fire-proof*, heated by steam throughout, and will contain *nearly eleven acres of available floor room*, being by far the largest structure of its kind ever erected in this or any other country. As already stated, in a previous issue, the ground was secured for \$300,000. Competent judges now estimate it to be worth at least \$1,250,000 for the purposes to which it is to be devoted, as no block possessing like advantages of location and size can, at the present time, be purchased in the city of New York for less than \$1,500,000 to \$2,000,000, a large concession in price having been made by the Harleyn Company in view of the increase of travel the museum will be sure to attract over its various roads. The New York, New England & Western Investment Company, 31 and 33 Pine street, has been appointed financial agent, and will receive all subscriptions for stock. When the amount of \$1,000,000 shall have been subscribed for the purchase of stock, as aforesaid, the whole amount of the subscriptions will be called in, but *no subscription is to be due or payable until the aggregate subscriptions shall amount to at least \$2,000,000*, as this sum should be in the treasury in order to enable the company to proceed safely and advantageously with the enterprise. It is confidently believed that no corporation was ever organized in the State of New York with surer or more flattering prospects of permanent success than Barnum's Museum Company.

COUNTY COURT HOUSE, }
NEW YORK, February 9, 1880. }

A. GALLAND, ESQ.

SIR:—We tender you, with pleasure, our unqualified endorsement of the superior merit of the "Hydraulic" Elevator constructed by your firm, in this building.

The absolute safety, with its speed and smoothness of motion, proves your Hydraulic Elevator, to our fullest conviction, as reliable a piece of mechanism as has ever come under our observation; while the severe safety test to which you *voluntarily* subjected the elevator, by cutting the ropes holding the car containing an extra dead weight of three thousand five hundred pounds, gained for your elevator the admiration of the experts witnessing the exhibit in and the most complete satisfaction of the County Court House Commissioners present.

In offering you this testimonial, we are prompted simply by the desire to acknowledge our confidence in your ability, and trust your Hydraulic Elevator will

receive that patronage to which its superior merit entitles it. Yours respectfully,

(Signed)
JOHN P. CUMMINS,
THOS. B. TAPPEN,
FRANCIS BLESSINO,
W. BLACKSTONE.

Commissioners for the completion of the New York County Court House.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

There has been during the past few days a slight increase in the number of foreclosure sales, and, with the exception of a few sales of minor importance, most of the property disposed of by order of the courts was knocked down to the plaintiff. Among the parcels thus disposed of was property on the northwest corner of Hudson and Laight streets, put on sale by order of the Receiver of the Glohe Life Insurance Company. It was bought in by him, however, for \$17,000. Mr. Royal Phelps, as plaintiff, bought during the week, No. 312 West Twenty-fifth street, for \$9,900. Nos. 237 and 239 Broome street were purchased on the same day for \$11,175, by Ernest Ohl.

In Brooklyn, Mr. Thomas A. Kerrigan sold, by order of the Sheriff, two lots on the southeast corner of Fulton street and Gallatin place, containing a brick building, to James M. Leavitt, for \$35,000. The same auctioneer sold sixty-two lots, forming part of the Brevoort estate, to S. A. Gilbert, for \$14,000.

GOSSIP OF THE WEEK.

Brokers maintain that they have many enquiries, and in some cases positive orders, for special parcels of property, but transactions that have been consummated at private contract during the week are few and far between. The care taken by those agreeing to a verbal contract before adding their signature to the contract shows an absence of energy quite in contrast with the disposition of buyers a month ago. There are those, however, who keep very close watch of the market. They like to go in with the tide, as the saying is, and, though they may pay a little more then, nevertheless prefer to purchase when the market is active than when there is an absence of activity.

Some few lots have been sold, at private contract, along Ninth avenue, also in the neighborhood of One Hundred and Tenth street, on terms which have not been divulged.

Messrs. Siegmund T. Meyer & Sons have sold, at private contract, a building on the east side of Broadway, between Bleeker and Houston streets, 25x100, for \$60,000, also another on the same side of the street between Fourth street and Astor place, 25x130, for \$45,000. It should be stated, in connection with the \$60,000 transaction first mentioned, that this is the fourth time Mr. Siegmund T. Meyer has sold this house. In December 1878 he sold it for \$42,500, in April 1879 for \$46,000, in June 1879 at a further advance, and now for \$60,000. The same firm has sold, at private contract during the week, the house and lot on the northwest corner of Sixty-first street and Park avenue for \$30,000, also No. 75 Nassau street, Brooklyn, a four-story brick house, 25x100, for \$12,000.

Ex-Mayor Ely, who has not been enjoying good health of late, prefers the actual quiet of the real estate market rather than the noise and excitement following in the wake of political conventions. He continues to be a daily frequenter of the Exchange and has had during the week some good offers for lots purchased by him during the early spring.

Mr. Winston, of the Mutual Life Insurance, continues to take a deep interest in the market. He is frequently seen in and around the salesroom.

Some of the brokers took it easy during the week, while reclining on the piazzas of Long Branch hotels, and left their offices in charge of the clerks.

The story started by a Wall street journal that the open board of brokers had received a bid of \$25,000 more for their Broad and New street property than it cost is a yarn made out of whole cloth. They are perfectly willing to sell out at what it cost them.

Mr. W. H. DeForest has sold one of his twenty-four foot brown stone houses on West Forty-fifth street, between Fifth and Madison avenues, to Mr. Catlin for \$50,250.

The house sold by Mr. Spaulding, the builder, in Sixty-fifth street, between Madison and Fifth

avenues, brought \$42,500, not \$40,000 as erroneously printed in this column two weeks ago.

Thomas Floyd Jones has sold sixteen lots running through from Eighteenth to Nineteenth street, east of Avenue A, eight on each street, to the Steam Heating & Power Company at \$3,500 per lot. This company has already filed plans for the construction of a large building on these lots.

Mr. Poppenhusen sold sixteen lots at Whitestone, on Tuesday, for building purposes.

A. M. Emerson, of New York, has purchased John Donnell's residence, in Flushing, for \$5,000.

The following are the sales at the Exchange Sales-room for the week ending June 18:

* Indicates that the property described has been bid in for plaintiff's account:

Broome st, s s, 27.4 e Ludlow st, 47.8x50.	
Ernest Ohl. (Amount due, about \$10,800)	\$11,175
Greenwich st (No. 110), w s, 26.6x83 6x33x83.6.	
P. I. Barnes. (Amount due, abt \$2,550)	12,000
*Hout n st, s s, 50 e Sullivan st, 25x95. Mills	
P. Baker. (Amount Due, about \$6,100)	9,500
*Hudson st, n w cor Lighthouse, 25x80.	
Lighthouse st, n s, 80 w Hudson st, 20x50.	
James D. Fish, receiver. (Amount due, about \$23,700)	17,000
12th st, s s, 295.6 e Av A, 25x103.3. Eliza Miller	
(extrx) (Amount due, abt \$1,950)	3, 00

lots of estate Leffert Lefferts, in 23d and	
2th Wards. S. A. Gilbert. Partition	
sale)	14,000
Total.....	\$75,172

BUILDING MATERIAL MARKET.

BRICKS.—The more favorable indications on the market for Common Hards, referred to in our last, have been fully realized, and we now have a much more cheerful and healthier tone to record. Demand has proven larger and quicker, the supply sold close, with at times a little scarcity, and about 25c. per M advance may be considered established. The call develops nothing of an unusual character, but appears to be simply the natural outgrowth of the progress of operations towards new work. Excavating, tear-

ing down of old buildings, etc., having about reached completion, and contractors starting in on the consumption of fresh material. Quotations range at about \$4.2 @ 150 for "Up River," and \$4.7 @ 125 for Haverstraws, with choice lots held as high as \$5.50 @ 6 per M. Pales have also met with an increased demand, and strengthened up in price with current cost at about \$3.25 @ 3.50 per M. Advices from primary points indicate some falling off in the production. Many of the manufacturers, with what they have ready and in process of completion, control a pretty good stock, and being dissatisfied with the ruling prices seem inclined to shut down. The shipments, too, have been less freely made, and this was an influence adding somewhat to the strength of the position during the current week. No scarcity of supplies, however, may be apprehended for a time at least. Fronts not very free of sale, but the better grades from the Hudson River make no accumulation.

GLASS.—Some irregularity of tone can be discovered on this market, and with an apparent tendency toward a loss of strength. Holders, however, are not as a rule, inclined to admit the least indications of an unfavorable character, and claim to be well enough fortified to maintain the advantage for a long time to come. Accumulations on hand, it is asserted, are small and of very irregular assortment, and the additions, immediate and prospective, quite moderate. It is also expected that the current slow form of trade will eventually give place to a much better call, to fill up assortments in the interior. Quotations are somewhat nominal at the moment.

HARDWARE.—The sale of supplies to all points continues moderate, and the market remains in much the old, dull and nominal condition, with no apparent basis for hope of improvement before fall. Accumulations are full, but not increasing rapidly, as manufacturers aim to keep the product down to a narrow compass, until there is a fair offsetting competition. In the meantime, the weakness of the position is more generally acknowledged and the price lists are becoming modified. At a recent meeting of the Lock Manufacturers, an important revision and reduction was made on the list for Door Locks, Knobs, Escutcheons, etc., subject to a discount of 50 and 2 per cent. On Strap and T Hinges there is a reduction to discount 45 and 10 per cent. The Brass manufacturers have readopted their previous list, making a reduction of 2 cents per lb throughout. Common Carriage Bolts have been reduced to discount 70 and 10 per cent. The following changes have been adopted by the Stanley Works: Japanned L. J. Butts, Steeple Tips, Nos. 700, 702, 704, 706, 708, 710, 55 and 10 per cent. discount; Japanned Car Butts, Steeple Tips, Nos. 712, 714, 716, 55 and 10; Japanned L. J. Butts, Acorns, Nos. 718, 720, 722, 724, 55 and 10; Japanned Loose Pin Butts, Steeple Tips, Nos. 726, 728, 730, 50 and 10; Japanned Loose Pin Butts, Acorns, No. 732, 50 and 10; Japanned Loose Pin Screws, No. 756, 25 and 10; Parliament Butts, Nos. 830, 832, 50 per cent. The manufacturers of Strap and T Hinges have reduced their prices to discount 45 and 10 per cent. The following reductions have been made by the makers of Wrought Iron Butts:—Narrow, Light Narrow, Light Inside Blind, Table Hinges, Back Flaps, 40 and 10 per cent. discount; Wrought Reversible, Wrought Loose Joint, 50 and 10 per cent.

LATH.—"No change" is the quite general report upon the situation. There has been some arrivals and those not engaged were after ordinary negotiation disposed of at former rates, and receivers think they could sell a few more. The demand, however, is not sharp enough to become stimulating, and dealers intimate that there is nothing to warrant them paying higher rates at the moment.

LIME.—The tendency of the market is for the better. As yet, we learn of no sales showing an active recovery on price, but the impression seems to be that with offerings at hand receivers could secure an advance as there is a slightly better demand. It is not likely that many cargoes will be sent forward, as manufacturers have no margin at present rates, and must secure higher figures or shut down. As compared with last season, labor, fuel, packages and cost of transportation are all more expensive, and if low prices rule on lime it can only be at a loss to the producer.

LUMBER.—Business is growing smaller, and the general market commences to show a pretty dull tone. We find, as usual, some operators whose views of the situation are of the most roseate order, and who really seem offended at the least suggestion of any loss of character on the market, but they are largely over-balanced by those who frankly admit that trade has fallen away materially, with no immediate prospect of revival. As we have before noted, present consumption, and that for some little time to come, has been largely anticipated by the liberal manner in which lumber was contracted for during the early portion of the season, and buyers now stand off and move with the care and indifference natural when there is no direct necessity for securing stock or dazzer that supplies will be suddenly curtailed. The shrinkage in the demand, however, has as yet failed to bring a corresponding decline in price. Cost is certainly "off" a little in a few instances, and there is reason to expect further moderate shadings, unless business improves, but we hear few predictions of a decidedly "feverish" nature. The contracts above referred to have kept the mills so busy in their execution as to afford little opportunity for the cutting of

random stuff, and, as the deliveries were principally for actual consumption, there is no heavy pre-sure of stock seeking a market from first hands, and only a slow accumulation in second hands, a feature of no little importance to the selling interest, as matters stand. Most of the distribution is on home account, to local and nearby sources, the export demand having proven rather disappointing. The clearances this week are large, but they include some sales made a considerable time back and one or two invoices, it is said, which have been withheld from publication.

Spruce is very moderately sought after, and few buyers can be found willing to anticipate their wants. An extra fine random cargo might prove an attraction, and some specifications for specials are still offering, but on the average run of quality the preference is to hold off under the impression that supplies must soon increase. Receivers still claim, however, that there will be disappointment over the amount available. About \$14 @ 15.50 on random, and \$16 @ 18 on specials continue to be quoted.

White pine in moderate demand all around. Home buyers will not handle much, except under absolute necessity, and the foreign call has proven more or less disappointing. The amount of stock available is by no means large, and some dealers, who have been trying their luck in the interior, report a scarcity of desirable parcels within reach of this market, but there was no great call for it of a general character, and the confidence of holders alone appeared to sustain values. We quote at \$17 @ 19 per M for West India shipping boards; \$23 @ 24 for South American do.; \$15.50 @ 16.50 for box boards; \$17 @ 18 for do. wide and sound do.

Yellow Pine is spoken of very cheerfully by most dealers. The number of orders offering are not quite so plentiful and buyers are somewhat less urgent as to time of delivery, while it is not uncommon to hear of agents seeking business for mills heretofore unwilling to contract, owing to press of business on hand. All views on price, however, continue quite as full as before and sellers inclined to withdraw rather than make a concession. For prompt delivery demand is good and attractive, randoms could be placed without much difficulty and on a basis of well maintained prices. There is not much of an accumulation in yard and the assortment is poor. We quote random cargoes at about \$24 @ 26 per M.; ordered cargoes, \$25 @ 27 do.; green flooring boards, \$25 @ 27 do.; and dry do. do. \$26 @ 28. Cargoes at the South \$16 @ 18 per M. for rough, and \$20 @ 22 for dressed at Gulf ports.

Hardwoods are not very active on local account, the consumption having fallen off, and buyers taking only small parcels for special necessity. Supplies, however, do not increase, and prices are well maintained. Ash, in particular, appears to be scarce, though shipments of logs continue. We quote at wholesale rates by car-load, about as follows: Walnut, \$77 @ 85 per M.; ash, \$33 @ 36 do.; oak, \$35 @ 40 do.; maple \$30 @ 35; chestnut, 1st and 2d, \$30 @ 35; do. do. cills, \$18 @ 20 do. cherry, \$45 @ 75 do.; white wood, 1/2 and 5/8 inch, \$25 @ 27.50, and do. inch, \$33 @ 35 do.; hickory, \$35 @ 45 do. for Western, and \$65 @ 75 for good nearby stock.

The yard trade is irregular, in some cases dealers report a very fair movement, but, as a rule, the advances are of a falling off, and a great many admit positive dullness. Buyers all appear to have fallen into the old hand-to-mouth plan again, and few purchases are made, except against immediate consumptive requirements. Prices do not show more than the ordinary irregularity, and we notice small accumulations of stock, with slow additions.

From among the lumber charters recently reported we select the following:

A Br barque, 617 tons, from Doby to a direct port United Kingdom, hewn timber 38s, and sawn 26; a Br barque, 617 tons, from Sheet Harbor to the East Coast Ireland, deals, 58s; a Br barque, 1032 tons, from Pensacola to a direct port United Kingdom, hewn timber, 40s, per 40 cubic ft; an Am brig, 365 tons, from La Have, N. S. to Matanzas, lumber, \$7, Spanish gold; an Am barque, 419 tons, hence to Port Spain, shooks 30c; an Am oakie, 250 M lumber, from Ferdinandina to Natal, \$17; an Am barque, 443 tons, from Ferdinandina to Natal, Brazil, lumber, \$17; an Am barque, 433 tons, from St. Mary's to Montevideo, lumber, \$8, option of Buenos Ayres, \$18.50 net; a schr, 118 tons, from Jacksonville to Port Limon, lumber, \$14; a Br brig, 270 tons, from St. John, N. B. to Seville, deals, 77s. 6d, and timber, 30s; a Br schr, from St. John, N. B. to Boston, lumber, \$3; an Am ship, 1761 tons, from St. John, N. B. to Adelaide, Melbourne or Sydney, deals, 45; a Br schr, 100 M lumber, from St. John, N. B. to New York, \$3.50; a schr, 200 M Sycamore lumber, from Albany to Richmond, \$2.50; a schr, 230 M lumber, from Charleston to New York, \$7; two brigs and a schr, each 350 M, and a schr, 325 M lumber, from Pensacola to New York, or a Sound port, \$9.25; a brig, 350 M lumber, from Brunswick to New York, \$7.75; a schr, 200 M lumber, from Wilmington, N. C., to Portland, \$7.50; a schr, 160 M lumber, from Brunswick, Ga., to Saco, \$8.50; a schr, 411 tons, from Doby to New York, hewn timber, \$9, resawed, \$8; a schr, 300 M lumber, from Brunswick to Philadelphia, \$7; a schr, 207 tons, from Norfolk to New York, lumber, \$3.50; a schr, 122 tons, from Petersburg to New York, resawed Oak lumber, \$5.50; a schr, 300 M lumber, from Pensacola to New York, \$9; a schr, 221 M lumber, from Georgetown, S. C., to New York, \$8; a schr, 349 tons, hence to Port Royal, cement, 20c per lb, and back to Philadelphia, lumber, \$7.50, and timber, \$8.50; a brig, 350 tons, hence to Galveston, railroad iron, \$4.25, and back from Cedar Keys, lumber, \$9.50, and timber, \$11.50; two schrs, 100 and 214 tons, from Richmond to New York, ties, 17c; a schr, 219 tons, from Norfolk to New York, ties, 17c; a schr, 202 tons, same voyage, Juniper ties, 9c; a schr, 170 M

lumber, from Wilmington, N. C., to New York, \$7.25; a schr, 170 M lumber, from Jacksonville to New York, \$9, option of Bridgeport, \$9.50.

THE WESTERN FLOODS.
A special correspondent of the REAL ESTATE RECORD, writing from the lumber region of Wisconsin under date of the 13th instant, states:

"There is great destruction of property up in this section, through wind and rain, Warsaw, Stevens Point and Grand Rapids are almost inundated. The river has never been known to be so high. It has swept everything at Warsaw. There are fears that the large hooms of Stevens Point may go out with millions of feet of logs. The water, when I was at Grand Rapids, was up into the streets. Nearly all of the mills above this point have been washed away. Water in New London, while I was there, rose twelve inches; when I left, the floods above were just reaching there, the town then was all surrounded by water and nearly all of the bridges were carried away. I am glad I got out of the northern portion as I did, or I might be compelled to lay up for a few days. *

GENERAL LUMBER NOTES.
STATE.

The Albany lumher market, for the week ending June 15th, is reported by the Argus as follows:

We have a good, steady business to report in pine lumber, at firm but unchanged quotations. The activity of the Michigan markets with the advances in Lake and Canal freights, must, if sustained, be followed by an advance in prices in our market, and that at an early day. The receipts since our last have been free, and the assortment is in excellent shape.

The large freight engagements made on Saturday at Chicago and noticed above, will not be without influence on Saginaw lumher freights; also on lumher freights from Onogo and Tonawanda.

Coarse lumher is in free receipt and shipment; there is no accumulation of stock to speak of; prices are steadily held.

The receipts at Albany by canal from the opening of navigation to June 15th were :

	Bds.&Sctg. ft. Shingles,M. Timher,c.f. Staves, D	
1879..	45,585,500	996
1880..	85,978,400	100

The market in Saginaw Valley shows more strength; there have been many buyers in market from Chicago and the East who have taken hold freely; several choice lots have sold at \$7.50, \$14 and \$33 @36. The shipments during May were 89,930,000 feet against 73,111,000 feet in May, 1879. The opinion is pretty generally held to, that there will be no decline in prices.

The receipts of Lumher by lake at Buffalo for the week are 5,685,400 feet; by rail 92 car loads. At Oswego, 7,135,000 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2.00 @ M. feet; from Saginaw, \$2.25. From Buffalo to Albany \$2.50; from Tonawanda to Albany, \$2.40 @ M. feet. Lake Ontario freights to Oswego, 9 c @ M. feet, and from Oswego to Albany, \$1.75 @ 1.50. From Ottawa to Albany \$3.75 @ M. feet.

THE WEST.

We are indebted to A. H. Hitchcock, Esq., Secretary Chicago Lumbermens Exchange, for the following figures which we find in his regular monthly report.

COMPARATIVE STATEMENT OF STOCK ON HAND AT CHICAGO.

	1880		1879	
	Lumber and Timber.	Shingles.	Lumber and Timber.	Shingles.

SAGINAW VALLEY.
Lumberman's Gazette,
BAY CITY, June 15, 1880.

It is always gratifying to know you have been on the right side in any matter, and the Gazette is, therefore, especially pleased that its judgment regarding the lumher trade has been correct. It has stoutly maintained that there was no ground for apprehension that the demand would be less than last year, but would be greater, and it has advanced these views not because it believed the market had need of ex-

traneous support, but because we were convinced that it would be better for all concerned if a steady market could be maintained. The events of the past week in this market have demonstrated the correctness of our views, regarding the demand for lumher. The activity prevailing has been unsurpassed since 1872, nearly 40,000,000 feet of lumher having changed hands mostly at \$7, \$14 and \$30 @32, the deviations from these figures being \$6.50, \$13 and \$30, \$7.25, \$14.50 and \$35 and \$7.50, \$15 and \$35. Buyers have been here in force and orders by mail to commission dealers unusually heavy. It has been a boom in fact. The low lake freights prevailing and the probability of a rise had something to do with the activity of the week, no doubt, but there must have been a demand behind which prompted the purchases. The fact is, the trade at the east is in a healthy condition, it is vigorous and growing. The fear that the bottom was about to drop out of everything again, raised by the reaction in the iron trade, has been laid at rest, and even that trade is recovering. The business boom is in no danger of subsiding, and the dread of it is passing away. Lumher is one of the necessities of the country, and the more prosperity there is the more lumher will be consumed.

Lake freights are a little higher than last week, the rates being: lumher from Bay City to Buffalo and Tonawanda, \$1.75; from Saginaw, \$2.00; from Bay City to Ohio ports, \$1.50; from Saginaw, \$1.75. Charters were reported at these figures yesterday.

We quote cargo rates:

Three upper quantities	\$30 00 @ 35 00
Common	13 00 @ 15 00
Shipping chills.....	6 50 @ 7 50
Lath	1 25 @ 1 50
Shingles, XXX.....	2 90 @ 3 00
clear huts	1 90 @ 2 00

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., June 10, 1880.

The steadiness of trade at all the markets is really surprising. The demand continues good although the continuous storm of the last week somewhat interfered with the handling of lumher and perhaps keeps back orders. The floods of last week insure the safe arrival of every log cut in the West. At the mills, but fears are entertained that some of the crop will be swept away by the floods on the various streams. The logs are being turned out of the four main hooms at the rate of 50,000,000 feet per week. Fully 20 per cent. of all the lumher which is turned out of the mills is shipped direct from the saw, the demand for railroad timber absorbing a large part of it. St. Louis, Hannibal, Quincy, Keokuk and Burlington continue to more than hold their own against Chicago. The bulk of the shipments from the latter place being to yards owned and run by Chicago wholesale men, who, of course, will supply their own stock.

The Northwest has nothing to complain of, so far, but heavy rains threaten immense danger to the wheat crop, especially in the level Red River valley, which is devoted almost exclusively to wheat raising. This somewhat dampens the hopes of a large business from that region, which naturally falls to Stillwater, St. Paul and Minneapolis. The extension of so many new lines across Dakota, will open up a vast section of the upper Missouri country and create a large demand, even if the wheat crop should be a partial failure. Taken as a whole, the prospects continue fair. Prices continue without change during the week. Chicago continues to receive three or four times as much as she ships, but Chicago mathematics are equal to the task of showing that there is no increase worth mentioning in the stocks on hand. The little cotillion party of bulls and bears continues, and the question, "who pays the fiddler?" is growing interesting.

The following is from the Northwestern Lumberman :
CHICAGO, June 9, 1880.

The receipts at the cargo market, since our last issue, have fallen short of the corresponding term in 1879 by 5,000,000 feet. This is largely owing to the extremely unpleasant weather which has prevailed for a large portion of the week, and partly to the fact that a large proportion of the receipts go at once to the yard, having been purchased before shipment. As will be seen by the figures below, the receipts for the week have aggregated over 30,000,000 feet of lumher and 10,957,000 shingles. Of this amount, that portion which has been on the market for sale has been taken with the utmost readiness at \$8 and over for piece stuff, and we have not been able to learn of a single sale below that figure. On the 9th, a cargo having a moderate amount of long lengths was quickly taken at \$8.50. The same cargo, two weeks ago, would have found only an ordinary demand at \$8. On the same day, twenty-two cargoes, arriving in the morning, had all left the docks for the yards of their purchasers before noon.

While we revise our quotations to correspond with these statements on piece stuff, our quotations on boards remain unchanged. Cargoes running 30 per cent. to pickings, are high enough at \$15; while 65 per cent. pickings is not too much to ask of a cargo bringing \$18. These rates are, in fact, higher than is warranted by yard prices, which have not fallen off in the recent decline, as has piece stuff. The general feeling upon the market is one of decided firmness, and holders of cargoes are by no means as doubtful about the expediency of asking an advance as they were a week ago. Freights from all lake ports are advancing, under the stimulus of seven to seven and one-half cents on corn to Buffalo; and, with advancing lumher freights, the manufacturers on the east shore can as yet reap no benefit from the increased firmness of the market. The fact that large bills have been offered and taken by many of the mills of Michigan, upon special orders, together

with the fact that the manufacturers have displayed not only a willingness, but a determination to pile their product rather than send it to this market at the prevailing prices, has had much to do with the fact that lumher is not reaching here any faster than is really desirable.

CAROO QUOTATIONS.

Good joist and scantling	\$8 00 @ 8 50
Common to fair joist and scantling	8 00 @ 8 25
Good boards and strips	15 00 @ 18 00
Common to fair boards and strips	9 50 @ 14 00

Receipts and shipments of lumher and shingles from Jan. 1 to and including June 10 :

	Receipts.		Shipments.	
	Lumber.	Shingles.	Lumber.	Shingles.
1880 ...	339,321,070	161,065,000	236,156,589	37,149,000
1879....	339,131,398	190,307,000	253,084,735	25,052,000

An exchange says: It is impossible to convey to the reader an idea of the vast valuable forests of fir, pine and cedar, both in Oregon and in Washington. Trees 200 and 250 feet high and six feet in diameter are never out of view; eight and ten feet in diameter and 300 feet are not uncommon, generally two-thirds free of limbs. Fifty and sixty good timber trees grow on an acre, as a rule, and yield seldom less than three thousand feet, and instances are on record of one million feet from an acre. No acre is worked for profit which cannot yield three hundred thousand feet at least, and even this yield is rare. Logs are seldom hauled half a mile to a river. The manufacture and shipment of timber is the leading industry in Western Washington, employing large numbers of workmen and an immense number of large sawmills, going by steam and water-power, and a large fleet of ships and some small steamers exporting the timber to San Francisco, East Indies, Europe, Australia, Egypt, South America, Japan and China. The timber shipped from one district in Western Washington (Puget Sound), in 1876, by vessels, without reckoning home consumption, equalled 40,000 railway car loads, or 2,000 railway trains of 20 cars each, and in 1878 amounted to 250,000,000 feet. The foreign demand increases every year. Timbered lands, well situated for logging purposes, sell at \$8 to 12 per acre; three miles from a river, timber lands can be had at \$2 to \$1 per acre.

FOREIGN.

This week's mail from Rio Janeiro brings the following:

Pitch Pine.—The arrivals consist of 285,372 feet per John Wesley from Mobile, which have been sold at 36 \$000 per dozen, and which establishes an advance of about \$5000 per dozen.

White Pine.—There have been no arrivals, and we quote nominally 95 to 100 reis per foot.

The Timber Trades Journal, of June 5th, 1880, reports:

LIVERPOOL.

The statistics of the business done during the past month discount very considerably the cry that has been so industriously circulated that very little business was doing, and that there was a general indisposition to make purchases.

The figures show that a fair amount of timber and deals have been taken out of the market by legitimate consumption, and it can only be accounted for on the presumption that the orders have been numerous rather than large, and have caused a steady drain of the stocks, which has not been so apparent as would have been the case had there been some large inquiries in the market.

The stock of Canadian goods is very moderate, and the likelihood of having an exceedingly late season, which will probably prevent many vessels from making a second voyage, will tend to keep prices firm.

Pitch pine is much firmer in price, and the stock of hewn and sawn being moderate higher rates will be wanted, as the shipping season is now drawing to a close, and timber of both kinds is difficult to obtain abroad, unless at higher rates. The other articles speak for themselves, and with the exception of spruce deals, nothing more need be said. There is an impression that for some time to come, say the next two months, the importation of spruce deals will be moderate, and that present prices will be maintained, as some shippers are withholding their stocks, rather than send them upon a market which does not pay for the production.

METALS.—COPPER.—Ingot has found a somewhat irregular and not very active demand. Holders, however, generally express confidence in the position, unless some speculative lots should be unexpectedly unloaded. Quoted at 18 @ 18 1/4 c for Lake. Manufactured Copper, at the reduced cost, does not appear to attract much additional attention and the market has a dull tone. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do, 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 25c per lb; Sheathing Copper, over 12 oz per sq foot, 26c per lb, and Bolt Copper, 28c per lb. Iron.—Scotch Pig has been more active but the business of an irregular character and buyers in nearly all cases looking for something "cheap." As a rule the stock has been offered readily. We quote at \$19 @ 23.50 per ton, according to brand and quantity. Of American Pig, the supply has consisted mainly of small, odd lots dripping from the bands of week holders, and these have been picked up in some cases at pretty low figures. Large parcels are neither called for to any extent nor do they appear to be much

wanted and values are somewhat nominal. We quote at \$24.00@25 per ton for No. 1; \$22@24 do for No. 2; and \$20@21 for forge. Rails meet with some little inquiry but buyers in no case can be considered anxious operators and the bids do not increase. We quote at \$15@17 for iron and \$9@10 for steel, according to delivery. Old Rails \$21.50@25 per ton; scrap \$22@23. Manufactured Iron in moderately active demand, with stock enough available to meet the call, but arrivals small and accumulations not increasing. Nominally we quote Common Merchant Bar, ordinary sizes at 27@28c. from store, and Re-fined at 28@29c.; wrought beams at 3@5c. Fish plates quoted at 3@3.5c.; track bolt and nuts. 4.2c@4.5c. railway spikes, 3@3.5c.; tank, 2.9@3.1c.; horse-shoe, 4.1@4.3c.; angle, 3c.; best flange, 5.5c.; and domestic sheet on the basis of 4@4.5c. for common Nos. 10@20. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD—Domestic Pig not selling very freely but stocks kept under control and holders, as a rule, showing much firmness. Foreign has advanced and this helps the market for domestic. We quote 47@50c. The manufactures of lead are steady and quoted: Bar, 6 1/2c.; Pipe, 7c., and Sheet, 7 1/2c., less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c. on same terms. TIN—Pig in generally limited demand and buyers cannot be coaxed out of their indifference. The stocks, however, are held firmly in most cases and offered carefully. We quote 15 1/2@15 5/8c. for Australian, 15 1/4@16c. for Straits, 15 1/2@15 3/4c. for English Refined, 15 1/2@15 3/4c. for do. Common. Tin Plates are also held with a showing of steadiness and offered carefully but the demand is not very free. We quote I. C. Charcoal, third cross assortment, \$6.25@6.37 1/2 for Allaway grade, and 6.37 1/2@6.50 for Melyn grade; I. C. Coke \$5.12 1/2@5.25 for B. V. grade; 5.25@5.37 1/2 for Yspitty grade; Charcoal terne \$5.75@6 for Allaway grade, 14x20; \$12.50@13.62 1/2 for do., 20x28; Coke terne, \$5@5.12 1/2 for Glais grade, 14x20, and \$11.50@11.75 for do., 20x28—all in round lots. Spelter meeting with a fair jobbing call, but buyers not willing to go beyond this and prices unsettled. Quoted at about 5 1/4@5 1/2 according to brand. Sheet zinc in limited demand and the tone weak on prices. We quote at 7 1/4@7 1/2 according to quantity.

NAILS—Offerings of stock continue pretty full, and the market is abundantly supplied against the limited prevailing demand. Values show the old irregularity, and, to effect desirable sales, there is no hesitation about departing from list rates. At other points, manufacturers are again resorting to the policy of shutting down on production, but it appears to have no influence to stiffen values. We quote nominally 10d to 60d, common fence and sheathing, per keg, \$3.10; 8d and 9d, common do, per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common do per keg, \$3.05; 3d and 4d, light per keg, \$2.60; 3d, fine, per keg, \$5.85; 2d per keg \$1.35.

Cut spikes, all sizes, \$3.35. Floor casing and box, \$3.75@4.50. Finishing, \$4.00@4.75.

CLINCH NAILS.

1 1/2 inch, \$5.50@5.65; 1 3/4 inch, \$5.25@5.35; 2 inch, 5.00@5.15; 2 1/2@2 3/4 inch, 4.75@4.85; 3 inch and longer, 4.50@4.60.

PAINTS AND OILS—On the market for paints there is not much change to advise. A few buyers make their appearance, but the demand is of an uncertain character, and the outward movement of goods by no means satisfactory. Prices show a more or less variable tone, but, as a rule, the tendency is in buyers' favor on any chance to place a good sized invoice. Leads and zincs are in buyers' favor, and do not, in all cases, sell on the list rates. Linseed oil is not wanted in large parcels, but, in a jobbing way, quite a fair amount of stock goes out. Values vary somewhat, but, as we close, may be quoted at about 62@65c. per gallon, from crushers' hands.

PITCH—About the average movement of supplies is reported, and in the usual form, with no new features of special import on the general market. Holders' ideas on price are quite steady. We quote at \$1.87@2.00 per bbl. for city, delivered.

PLASTER PARIS—Arrivals of lump have been quite liberal during the past month or six weeks, and with the larger supply of material thus at hand, the product of sea calcined correspondingly increased. Manufacturers, however, report that the demand kept pace with the supply, and seem to have done a first-rate business, especially on the shipping outlets. We find rather less variation in the line of quotations as given from different sources than usual, and at \$1.25 for common up to \$1.75 for super-fine, the position is about steady. Competition, however, has by no means subsided, and a cutting and slashing of prices on very direct conflict would be almost certain.

SPIRITS TURPENTINE—The major portion of the supply has continued under perfect control, and owners looked for extreme rates. The high cost, however, killed trade, and business was very dull, with the tone now somewhat easier again. As this report is closed, the quotation stands about 29@30c. per gallon, according to the quantity of stock handled.

TAR—The demand fairly active for jobbing lots, but the wholesale market rather dull. Supplies are offered carefully, and, as a rule, only at higher rates,

as all the stock is well in hand. We quote at \$2.75@3.00 per bbl. for Newberne and Washington, and \$2.75@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

YORKTOWN.

Purdy, John—Henry Griffin, adj. new cemetery
 ground, 3 acres..... 550

MORTGAGES.

NOTE.—The arrangement of this list is as follows:
 The first name is that of the mortgagor, the next that of
 the mortgagee. The description of the property then
 follows, then the date of the mortgage, the time for
 which it was given, and the amount. The general dates
 used as headings are the dates when the mortgage was
 handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the
 name of a street in these lists of mortgages, they mean
 that it is a Purchase Money Mortgage, and for fuller
 particulars see the list of transfers under the cor-
 responding date

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

C. W. SWEET,

No. 137 BROADWAY

THE REMEDY FOR OVER ASSESSMENTS.

When Mr. Geo. H. Andrews, in his letter to the *Times*, on Wednesday, spoke of the remedies for over assessments, he did not have in his mind the new law creating a Board of Revision, printed in *THE RECORD* several weeks ago, but the law which is to day published for the first time in these columns. This law affects the owners of real estate throughout the whole State of New York, while the one creating the Board of Revision is of interest principally to West Side lot owners. The law passed on the 12th of May, and published to-day, is considered the most important tax-act passed during the recent session of the Legislature. It provides that all assessment rolls, when completed, verified and delivered to the authority specified by law, shall remain for a period of fifteen days for public inspection. The assessing officers in this city—the Tax Commissioners—shall forthwith give public notice that such assessment roll has been “finally completed,” and the place where the same will be open to public inspection. During the fifteen days after such public notice has been given, a writ of certiorari may be allowed by the Supreme Court on the petition of any person or corporation assessed, and claiming to be aggrieved, to review any assessment of real or personal property, when the petition shall set forth that the assessment is illegal, “or is erroneous by reason of over valuation, or is unequal, in that the assessment has been made at a higher proportionate valuation than other real or personal property on the same roll by the same officers.”

Mr. Andrews, in explaining the provisions of this new law, claims that the words quoted above are grounds upon which a revision has not heretofore been allowed by the courts, and it is provided that this act shall not be construed to repeal or abridge any other right or remedy. There are various provisions for ascertaining facts by taking testimony, and for giving effect to the revised and corrected assessment, and several persons when affected in the same manner may unite in one petition to the court.

As the daily papers have been very derelict in publishing the various new laws affecting property in this city and State, we advise our readers and subscribers to carefully retain the various numbers of *THE RECORD* containing these new statutes, as they will surely be wanted for constant reference during the next ensuing six months.

Instead of reforming the tax laws of our State upon a basis of equal justice to the State as well as to the tax-payer, the various new laws enacted during the last session of the legislature will have the effect of dragging money into the State

Treasury not at all wanted there, more in fact than is called for by the various appropriation bills. True, the result will be felt next year when we may look confidently toward a heavy decline in the rate of taxation, but the idea of raising a surplus for the public treasury is an unwise piece of legislation and thoroughly destructive of the principles of true economy that ought to underlie the control of public affairs.

We print in another column the letter of a gentleman, who is enthusiastic for Port Morris as the proper site to be selected for the World's Fair of 1883. It is but right that those who have anything to say at all in regard to certain localities should say it now, as the commission which is to select a site will probably meet during the coming month of July. Port Morris and vicinity certainly have many advantages that can not be found elsewhere, as will be seen by the letter and circular printed in another column. At the same time, the great objection to dealing with individual owners, as made in these columns a week ago, is overcome by the fact that there is only a single party—the Improvement Company—to be dealt with. We may add, however, that the officers of this company are not over-anxious to part with their property even for five years on the favorable terms of non-taxation during that time, offered them by law. They now feel so strongly the active impetus of improvements all around that they fear that any artificial improvement, which after all is only temporary, may be detrimental to the sure, steady but ultimate grand improvement of the entire section. Considering, however, the natural advantages offered at Port Morris and vicinity, the points put forward by our correspondent are certainly worthy of due deliberation on the part of the commissioners, and that too at their very first meeting.

LAWS OF NEW YORK, 1880.

CHAPTER 269

AN ACT to provide for the review and correction of illegal, erroneous or unequal assessments. Passed May 12, 1880; three fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. A writ of certiorari may be allowed by the supreme court on the petition, duly verified, of any person or corporation assessed and claiming to be aggrieved, to review an assessment of real or personal property for the purpose of taxation made in any town, ward, village or city of this State, when the petition shall set forth that the assessment is illegal, specifying the grounds of the alleged illegality, or is erroneous by reason of over valuation, or is unequal in that the assessment has been made at a higher proportionate valuation than other real or personal property on the same roll by the same officers, and that the petitioner is or will be injured by such alleged illegal, erroneous or unequal assessment. When the alleged illegality, error or inequality affects several persons in the same manner who are assessed upon the same roll, they may unite in the same petition, and in that case the writ may be allowed, and the proceedings authorized by this act had in behalf of all such petitioners.

SEC. 2. Such writ shall only be allowed by a justice of the supreme court in the judicial district or at a special term of the court in the

judicial district in which the assessment complained of was made, and shall be made returnable at a special term in said district. The writ shall not be granted unless an application therefor shall be made within fifteen days after the completion and delivery of the assessment roll, and notice thereof given as provided in this act. A writ of certiorari allowed under this act shall not stay the proceedings of the assessors or other officers to whom it is directed, or to whom the assessment roll may be delivered to be acted upon according to law.

SEC. 3. The court or justice granting the writ shall prescribe in the writ the time within which a return there-to must be made, which shall not be less than ten days, and may extend such time. The assessors or other officers making a return to such writ shall not be required to return the original assessment roll or other original papers acted on by them, but it shall be sufficient to return certified or sworn copies of the roll or other papers, or of such portions thereof as may be called for by such writ. And the return may concisely set forth such other facts as may be pertinent and material to show the value of the property assessed on the roll, and the grounds for the valuation made by the assessing officers, and the return must be verified.

SEC. 4. If it shall appear by the return to such writ that the assessment complained of is illegal, erroneous or unequal for any of the reasons alleged in the petition, the court shall have power to order such assessment, if illegal, to be stricken from the roll, or if erroneous or unequal, to order a reassessment of the property of the petitioner, or the correction of such assessment, in whole or in part, in such manner as shall be in accordance with law, or as shall make it conform to the valuations and assessments applied to other real or personal property in the same roll, and secure equality of assessment. If upon the hearing it shall appear to the court that testimony is necessary for the proper disposition of the matter, the court may take evidence or may appoint a referee to take such evidence as the court may direct, and report the same to the court, and such testimony shall constitute a part of the proceedings upon which the determination of the court shall be made.

SEC. 5. A new assessment, or correction of an assessment made by order of the court, shall have the same force and effect as if it had been so made by the proper assessing officers within the time originally prescribed by law for making such assessment. Disobedience to a writ or order in any proceeding under this act may be punished by the court as for a contempt.

SEC. 6. Costs shall not be allowed against assessors or other officers whose proceedings may be reviewed under this act, unless it shall appear to the court that they acted with gross negligence, in bad faith, or with malice. If the writ shall be quashed, or the prayer of the petitioner denied, costs shall be awarded against the petitioner, but the costs shall not in any case exceed the costs and disbursements taxable in an action upon the trial of an issue of fact in the supreme court.

SEC. 7. Appeal may be taken by either party from an order, judgment or determination under this act as from an order, and shall be heard and determined in like manner. All issues and appeals in any proceedings instituted under this act shall have preference over all other civil actions and proceedings in all courts.

SEC. 8. If final judgment shall not be given in time to enable the assessors or other officers to make a new or corrected assessment for the use of the board of supervisors at their annual session, and it shall appear from said judgment that said assessment was illegal, erroneous or unequal, then there shall be audited and allowed to the petitioner, and included in the next year's tax levy of said town, village or city, and paid to the petitioner the amount, with interest thereon, from the date of payment, in excess of what the tax should have been as determined by such judgment or order of the court.

SEC. 9. All assessment rolls, when finally com-

pleted and verified by the assessors, shall, in towns, on or before the first day of September, and in incorporated villages and cities at the time prescribed by their respective charters or laws applicable to them, be delivered to the town, village or city clerk, or other officer to whom such rolls are or may be required by law to be delivered, and there to remain with such clerk or other officer for a period of fifteen days for public inspection. The assessors or other officers who complete and verify the assessment roll shall, after they have delivered the same to the said town, village or city clerk or other officer, forthwith give public notice by posting the same in at least three of the most public places in said town, village or city, or by publishing the same in one or more newspapers published therein, that such assessment roll has been finally completed, the officer to whom the same has been delivered, and the place where the same will be open to public inspection. The fifteen days from which to complete the time within which the application for the writ of certiorari can be made under this act shall be the time when said public notice is first given.

SEC. 10. This act shall not be construed to repeal or abridge any other right or remedy given to review an assessment by any law applicable to any city or incorporated village, or by the charters thereof.

CHAPTER 367.

AN Act for the better laying out and improving of that portion of the city of New York between Tenth avenue and Avenue St. Nicholas and One Hundred and Thirty-eighth street continued, and the lands of the Academy of the Sacred Heart and One Hundred and Thirty-fifth street continued.

Passed May 24, 1880; three fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The commissioner of public works is hereby directed, immediately upon the passage of this act, to lay out and establish a street of a width of not less than sixty feet, running from the Tenth avenue to the Avenue Saint Nicholas, with such windings and turnings, course and direction as to him may seem expedient, in that section of the said city bounded northerly by a continuation to the Avenue Saint Nicholas of the northerly line of One Hundred and Thirty-eighth street, westerly by the Tenth avenue, easterly by the Avenue Saint Nicholas, and southerly by the northerly and north-easterly lines of the lands of the Female Academy of the Sacred Heart, and the southerly line of One Hundred and Thirty-fifth street continued and extended until it meets the said north-easterly line of the said lands of the said female academy, and to fix and establish the grade thereof. The said commissioner shall make a map or plan showing said street and the location thereof, and another map or plan showing the grade of said street, and shall file said map in his office, and a copy thereof certified by him in the office of the comptroller of said city. Upon the filing of said maps, the lands shown and described as a street thereon shall forthwith be deemed to be and be appropriated for public purposes as a street, of the grade specified on said map, and such grade shall not be thereafter changed except with the written consent of a majority of the owners of land in lineal feet fronting on said street. The commissioner of public works is hereby directed, immediately upon the filing of said maps, to take proceedings in the name and on behalf of the mayor, aldermen and commonalty of said city to acquire title for the use of the public to the land designated and required for said street, and the proceedings to acquire title to such land shall be had pursuant to such acts as shall then be in force relative to the opening of streets, roads and public squares and places in the said city; which said acts, so far as the same are not inconsistent with the provisions of this act, are hereby made applicable to said street in the same manner and to the same extent as if said street had been originally laid down and designated as and for a public street by the commissioners appointed in and by chapter one hundred and fifteen of the laws of eighteen hundred and seven, entitled "An act relative to improvements touching the laying out of streets and roads in the city of New York, and for other purposes." Upon title to such lands being acquired, the commissioner of public works shall forthwith proceed to open such new street or road, and render and make it fit for use and travel by regulating, grading, paving or macadamizing it, or in any other way or by any other process or means which may seem to him best for the convenience of the public, and, in his discretion, curb, gutter, flag and light the same and the sidewalks thereof, and at the earliest practicable time throw the same open

for public use, and no ordinance of the common council or other authority than such as is conferred by this act shall be necessary to authorize him to proceed forthwith with such work, the expense whereof shall be assessed as provided by law for laying assessments for local improvements in the city of New York upon the lands, tenements and hereditaments benefited thereby, and all laws in force for the collection of assessments in said city shall apply to the assessments imposed for such work.

SEC. 2. This act shall take effect immediately.

THE WORLD'S FAIR.

NEW YORK, June 21, 1880.

To the Editor of THE REAL ESTATE RECORD:

I see by your article on the World's Fair, in your issue of June 19, Vol. XXV., 3d column, page 640, you are coming right down to the very idea I have preached for over a year in regard to selecting the location for the World's Fair, i. e., the number of owners, from fifteen to forty (as I said), the commissioners would have to deal with in attempting to select a location on New York island, or even in Brooklyn, or any other place close by.

Port Morris, in the lower part of the Twenty-third Ward, within a short distance of last station on Elevated Railroad, and on the line of the extension of Second Avenue Elevated Railroad, does away with this very serious obstacle. The commissioners will only have one party to deal with. It is one of the finest and most convenient locations that can be found any where, and only one owner to deal with. I refer you to the enclosed circular, thousands of which I had printed a year ago, and distributed among our most influential citizens.

Very truly yours,

GEO. C. GOELLER,

Third avenue, cor. 134th street.

THE ADVANTAGES OF PORT MORRIS.

DEAR SIR:—Port Morris, New York City, possesses unequalled advantages of location for the World's Fair of 1883—sixty to ninety feet depth of water, a good and safe harbor for the largest vessels in the world—twenty-four hours nearer in time to and from Europe than by way of Sandy Hook and New York Bay—on the line of New York, New Haven & Hartford Railroad, New York Central Railroad, Hudson River & Harlem Railroad, Pennsylvania Central Railroad via steamer Maryland (which carries whole trains of cars back and forth from Jersey City without breaking bulk), and of Portchester Branch of N. Y. & N. H. & H. R. R. Also on the line of all Sound steamers to and from the East and near the terminus of the New York Elevated Railway. Contains about eight hundred acres of land, easily drained, and commands a splendid view of Long Island Sound and country. European shippers can send their goods direct to the grounds without transshipment, and with the least possible handling, also our own exhibitors. No other spot in the city and county of New York possesses these advantages, and very few places in the known world are so well located and adapted for such a purpose.

The time is not far distant when all these advantages will become known and tested.

Unless selfish interest, motive or influence prevails, Port Morris will be selected, and is beyond all question the best place for the World's Fair of 1883.

Very truly yours,

GEORGE C. GOELLER,

Third avenue and 134th street

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

Most of the auction sales held during the week were of a legal character and, with slight exceptions, attracted but little attention. Nevertheless, those interested in watching the general market were daily on hand, regardless of the oppressive atmosphere in the Exchange Salesroom. On Wednesday, some thirty-two lots on One Hundred and Eighty-second and One Hundred and Eighty-fourth streets, Tenth and Eleventh avenues, forming part of the Snowden Estate, were offered by Mr. Bleeker in the presence of a very fair attendance. Those interested seemed disposed to part with the property at no matter what sacrifice, but there was so much hy-talk, so

many outsiders made remarks which were uncalled for, and the disposition of the lots offered dragged along so tediously that after ten lots had been sold the remainder was withdrawn. It will be seen by the list at foot that the prices obtained were very low but, at these figures, there were buyers, even in mid-summer, and the entire property might have been disposed of but for the good-natured auctioneer paying too much attention to those who claim that the market can be regulated by their own exalted opinions about values, rather than by the cash of bona fide buyers.

GOSSIP OF THE WEEK.

Messrs. E. H. Ludlow & Co. report quite an active demand for improved property for this season of the year. In fact, the senior member of the firm said, yesterday, that business during the month had been more brisk thus far than during May, and that the June transactions of 1880 might be set down as superior to those of the corresponding month of last year. This firm has sold, during the week, at private contract, No. 57 Fifth avenue, 30x125, with lot adjoining, 20x125, for \$10,000 cash, to Mr. C. Osborne. The house is to be completed according to contract, and was the property of ex-Mayor Opdyke, recently deceased. Messrs. Ludlow & Co. have sold the following houses: No. 11 Park avenue, 20x57x80, four-story brown stone house, for \$30,000; also No. 30 West Thirty-fifth street, 20x30x98, a three story marble front house, for \$17,700; also No. 93 West Third (Amity) street, 25x109, two-story and attic house, for \$6,500. Yesterday the same firm sold No. 81 East Thirty-eight street, 28x60, and dining room extension, 18x25, lot 98.9, for \$55,000.

Mr. John Gorman, of Third avenue, has sold the front—vacant—on the east side of Third avenue, between Sixty-ninth and Seventieth streets, eight lots and two street lots, one on Sixty-ninth street, and one on Seventieth street, to Daniel Greene, for \$95,000. It is understood that the purchaser intends to improve this front at once, by the construction of apartment houses.

Mr. J. J. Clancy has sold at private contract, for the Mutual Life Insurance Company, a single vacant lot on the east side of Ninth avenue, near One Hundred and Fifth street, to Daniel Darmody, for \$3,300.

Messrs. Siegmund T. Meyer & Sons, for and on behalf of Mr. Wm. L. Bartlett, have leased to a number of New York capitalists, the streak of land known as Jones' Beach, and lying between Long Beach and Fire Island. The beach is three and a half miles long, and three-quarters of a mile wide. There is no other beach between this place and Fire Island which is already a prominent summer resort. The gentlemen who have secured the lease for fifty years are Mr. Daniel Conover, ex Commissioner Van Nort, ex-Judge Dittenhoeffer, Sheridan Shook and others, at an annual ground rent of \$500. They intend to organize a company and begin at once the improvement of Jones' Beach, by the construction of a railroad and the erection of one or two large hotels. This beach was leased by the town of Oyster Bay to Mr. Bartlett three months ago, and, through the efforts of Mr. Siegmund T. Meyer, capitalists of energy have now taken hold of it to add another first-class summer resort in close proximity to Coney Island, Rockaway and Long Beach.

It will be seen, by referring to our building column, that the New York Stock Exchange intends to alter the Broad street front, as well as the New street rear. The present front is to be taken out and rebuilt, and a mansard roof is to be added.

The following are the sales at the Exchange Salesroom for the week ending June 25:

* Indicates that the property described has been bid in for plaintiff's account:

* Bond st. (No. 49), s s 25x79.9x25.5x74 10. Sarah M. Grinnell (Amount due abt. \$18,300)	\$17,000

BUILDING MATERIAL MARKET.

BRICKS—There is not much in the way of positive news on the market for common hards, this week. A good, steady call for stock has been found, and the continued moderate arrivals were sold without much difficulty as soon as offered, provided no great advance was asked, though under some circumstances a better price could be obtained. The accommodation of prompt or special delivery, and the attraction of extra quality stock would give sellers an advantage. The consumption continues quite as promising as ever, and while contractors are likely to lapse in demand a trifle after having secured enough to commence work, a great many bricks are sure to be required. The stoppage of production along the river, advised last week, is now contradicted, except in the case of one or two manufacturers, and there is little danger of any immediate scarcity of supplies, except such as may arise out of refusal to ship. As we write, "Up Rivers" are quoted at \$4.50@5 per M, and Haverstraw \$5.25@6 do., but these figures quite extreme. Pales in very good proportionate demand and gaining a trifle on values, with quotations widened out to \$3.25@3.75, according to condition of stock. Fronts firm and selling somewhat better in a few cases.

HARDWARE—A dull market is reported for about all kinds of stocks, and to pretty much every outlet, with few indications of immediate improvement. The great majority of the principal buyers have in hand a supply more than large enough to meet all the calls they can discover as likely to develop, while the few who are compelled to come upon the market handle only just such amounts as will satisfy immediate necessities. The recent announcements upon prices have shown no further positive changes of importance, but manufacturers of pretty much all staple articles are carefully considering an adjustment based upon the cost of material, and it is expected that a great many reduced price lists will be issued before fall.

LATH—There has been some irregularity of tone, but no positive change on the general market rate, so far as can be discovered. Rumors were current of sales at \$1.35@1.40 per M, but investigation seems to show that these figures were merely accepted under a claim for imperfect quality on parcels contracted for at \$1.60 per M. In fact the latter is the market

rate, and at it we have heard of sales of Maine and St. John lath to a considerable extent.

LIME—Up to the time of closing our report, the market has remained in a very doubtful position. There was little or no Eastern here, and a dozen buyers were looking for stock, with a probability that they would pay an advance to get it. Indeed, either through small receipts or some stock held, it is intimated that a higher range was made on one or two sales. State lime also unsettled. Several thousand barrels are coming in under cost of 65c. per bbl. for common, but, at present, holders refuse to listen to less than 70, and are offering sparingly. Consumption is gradually increasing.

LUMBER—Generally the market is dull and the undertone heavy. There does not appear to be very decided pressure of supplies offering, especially of the more desirable qualities, and a great many places are open for both quantity and assortment which would have to be filled before the accumulation could be considered as amounting to anything. Buyers, however, are in an offish mood and it is impossible just now to induce them to move beyond well established and early requirements unless they secure the temptation of reduced cost. At the best, this is not a busy season of the year and, of course, the operations of early spring anticipated a great many transactions that might now be under treaty to partially relieve the dull tone. Prices are let down easy but the general tendency is in buyers' favor on all ordinary offerings.

Spruce has fluctuated somewhat, according to the supply, but developed no special inclination to buoyancy, and buyers rather had the advantage throughout. We find, even among receivers, less inclination to look for anything very encouraging at the moment, either in demand or price, and the market is considered as settling into the midsummer drag. Values are somewhat nominal, but we have quotations ranging from \$13.50 up to \$15.50 for random, and \$15@18 for special, the latter for extra difficult.

White Pine has an irregular tone, but the feeling evidently is not so strong as a short time ago, and considerable shadings would be necessary to start trade into any positive life. Stocks in the hands of jobbers, etc., are small indeed, unusually so in many cases, and the accumulations at primary points under very good control, but buyers generally appear to be sitting still, awaiting developments, and not likely to be moved unless terms are made attractive. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine on any direct demand could not probably be bought for less money than quoted for some time past, nor would an attempt to effect increased sales prove successful, unless considerable concessions were allowed. Both buyer and seller, however, are somewhat indifferent at the moment, and the market has a dull tone generally. Quite a number of mills are seeking orders, but keep their figures full, as an advance in freight is thought likely. At this season, captains and crews are not partial to the Southern trip, and toward cooler weather the cotton crop will be coming in. We quote random cargoes at about \$24@26 per M.; ordered cargoes, \$25@27 do.; green flooring boards, \$25@27 do.; and dry do. do. \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods are rather dull, and nominally unchanged in value. There is some call for small parcels, for car trimmings and work of kindred nature, but rarely an outlet offered for any full invoice. In fact, the manufacturing interest during the recent period of excitement not only over stocked themselves with their product but secured more material than they could consume, and have now become very indifferent buyers. Stocks are held in the interior, however, at very full figures and a sympathetic tone is noticeable here. On the foreign orders large quantities of walnut logs continue to move forward for shipment, but the largest proportion understood to pass through Baltimore. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@35 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$15@20 do. cherry, \$45@75 do.; white wood, 1/2 and 5/8 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

Shingles well maintained in price as the supply has not been allowed to accumulate, but the demand is moderate at the moment and mostly in jobbing orders. We quote Cypress at about \$6 for saps, and \$8.50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch \$16@22.25 for A and \$23.75@33.25 for No. 1; for 24-inch, 6.50@16 for A and \$16.75@23 for No. 1; for 20-inch \$5@10.50 for A and \$11.25@11.75 for No. 1.

Yard supplies are meeting with only a small demand and the retail market presents no special features of interest.

From among the lumber charters recently reported we select the following:

A Br ship, 1299 tons, from St. John, N. B., to Liverpool, deals, 5 1/2, 6d; a Br barque, 1180 tons, same; a Br barque, 657 tons, from St. John, N. B., to the United Kingdom, deals, private terms; an Am ship, 1389 tons, from St. John, N. B., to Bristol Channel, deals, 5 1/2, 6d; an Am barque, 559 tons, from Doboy to Lisbon, resawed lumber, 2 1/2 per standard; a Br ship, 1190 tons, from Doboy to the United Kingdom, hewn timber, 36s, and sawn, 112s, 6d; an Am barque, 500 M lumber, from Montreal to the Boca Wharf, Buenos

Ayres, \$15 net; a Br brig, 325 M lumber, same voyage, \$16 net; a schr, 330 tons, from Pensacola to Cardenas, lumber, \$12; an Am schr, 298 tons, hence to Porto Cabello, lumber, \$7.50; a schr, 200 tons, from Banzer to Jacksonville, ice, and back with lumber to Baltimore, \$10.50, option of a Sound port, \$11.50, for the round; a schr, 160 M lumber, from Brunswick to New York, \$7.75, option of Boston, \$8; a schr, 187 tons, from Jacksonville to Baltimore, lumber, \$8; a schr, 185 M lumber, from Savannah to Washington, D. C., \$7; a schr, 185 M lumber, from Savannah to Philadelphia, \$7; a schr, 350 M lumber, from Savannah to Baltimore, \$6.50; a schr, 170 M lumber, from Jacksonville to Albany, \$10 and Hudson River towage; a schr, 200 M lumber, from Fernandina to Philadelphia, \$7.25; a brig, 250 M flooring boards, from Mobile to Portland, \$9.50; two schrs, from Portland to New York, lumber, \$2.

GENERAL LUMBER NOTES. STATE.

The Albany lumber market, for the week ending June 22d, is reported by the *Argus* as follows:

The trade in pine lumber since our last report has been good for the season at steady and unchanged quotations. The principal demand is from New York, Brooklyn and New Jersey and recently buyers have appeared here personally or by orders from the river towns and towns on the line of the Albany and Susquehanna Railway who heretofore have obtained their supplies direct from Michigan. Albany, now as a purchasing point has decided and very apparent advantages over the Bay City and Saginaw districts. We have an ample and well assorted stock, but there is not any accumulation.

The strong markets in Michigan and Chicago, and the pretty certain belief they will so hold during the season, strengthens the hands of the trade here.

On the line of the Ottawa, where purchases for this side have been freely made and where the English houses are buying, lumber has been sold close up to the cutting.

Coarse lumber is firm in price, and is in continued good demand; the stock of spruce is very light and is insufficient to meet the demand. The coarse lumber trade throughout the district is in a very satisfactory shape.

The Saginaw market has been very active, the business of the past week has been unsurpassed since 1872, nearly 40,000,000 feet having been sold, almost all for the East, at \$7, \$14 and \$32@34. Buyers have been in large force and there have been large orders by mail. The shipment for the week are reported at 11,005,000 feet.

The receipts of lumber by lake at Buffalo for the week are 4,185,500 feet; by rail 106 car loads. At Oswego, 5,715,700 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2.00 @ M. feet; from Saginaw, \$2.25. From Buffalo to Albany \$2.50; from Tonawanda to Albany, \$2.40 @ M. feet. Lake Ontario freights from Port Hope to Oswego, 9c. @ M. feet, and from Toronto to Oswego, 100c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M. feet.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette,

BAY CITY, June 22, 1880.

There have been fewer sales the past week than the week previous, but the tone of the market remains as before. The present prices are regarded as so fully established that there will not be any material change during the season. The demands made upon the supply on the river have been such as to absorb it as fast as it was cut, so that there is not much lumber on the docks but what has been sold. The entire amount on the river at the close of the cutting season was 220,000,000 feet, in round numbers; to this add the season's cut to date, probably about 230,090,000, making 450,000,000 feet to be disposed of. The water shipments of theseason to last Saturday aggregated 225,030,000, and there has probably been shipped by rail since the close of navigation last fall about 75,000,000 feet—making a shipment of some 300,000,000, leaving 150,000,000 on the river all told, providing the estimates of the season's cut and rail shipments are correct. Of the 220,000,000 on the river, at the close of last season, 85,000,000 feet was sold, and this amount should undoubtedly be deducted from the 150,000,000 feet on the river now. As the enormous sales of the past two weeks have been of stock newly cut or to be cut, it is evident that the unsold stock on the river cannot be large in amount.

The sales this week have been at the same range of prices given last week and the amounts taken have been quite liberal. Common stock has sold at \$6.50, \$13 and \$30, good at \$7, \$14, \$30 and \$32, and choice at \$7.50, \$15 and \$35. The demand continues active and sales are made of lumber to be cut.

The shingle trade has been more active and prices have been a little better. It is extremely difficult to buy them at less than \$2 for clear butts and \$3 for XXX, although quotations are continued at 10 cents lower.

A good trade in hoops is done at Bay City.

The shipments from the river by water for the week ending June 19, were as follows:

	Bay City.	Saginaw.	Total.
Lumber.....	12,523,171	4,807,000	17,330,171
Lath.....	1,500,000	5,454,000	6,953,000
Shingles.....	4,583,000		4,583,000
Hoops.....	450,000		450,000

Freights by lake have advanced to \$2.25 per M from Saginaw to Tonawanda and Buffalo, \$2 from Bay City; to Ohio ports \$1.50@1.75, the latter from Saginaw.

We quote cargo rates:

Three upper quantities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@ 7 50
Lath.....	1 25@ 1 50
Shingles, XXX.....	2 90@ 3 00
clear butts.....	1 90@ 2 30

The Northwestern Lumberman as follows:

CHICAGO, June 16, 1880.

The cargo market has been active and firm during the past week, with ready sale for all the stock which has been offered, and no concessions from our quotations. A settled conviction now prevails that there is to be no further decline during the season, and the market has been visited by a goodly number of interior buyers, who together with local purchasers have succeeded in keeping the docks clear and vessels moving to the full satisfaction of the capitalists and owners of lumber carrying craft. On two or three occasions a large number of vessels have been seen at the dock in the early morning, everyone of which had disappeared by noon or at most by the middle of the afternoon. There is little or no questioning or haggling over the price; if the cargo suits the seeker after stocks, it is at once taken. Cargoes containing a fair proportion of long lengths are sought for at \$3.50, and if particularly desirable as to length, \$3.75 or \$9 would be freely paid. Dry stock is firm at quotations, and a fair quantity is being offered. Reports conflict as to the amount of lumber being piled at the mills in Michigan, it being asserted by some parties that the practice is becoming general, and by others that but little lumber is being so held. The Lumberman is informed that the practice is rapidly increasing, and that another year will see quite a change in this regard. The comparatively small amount now being thrown upon the market here is confirmatory of this view, but this is explained by the objector, by the statement—no doubt to a large extent correct—that the mills have taken large contracts for railroad and other special bills. There is no doubt that large orders for bills have been placed among the Michigan mills, and that the filling of them will, in a measure, reduce the amount of piece stuff to be put upon this market. The receipts of the week fall short 6,000,000 feet as compared with those of the corresponding week of last year, while the receipts of shingles are in excess of the corresponding week of 1879. The shipments are also in excess, slightly in lumber and considerably in shingles, showing a better condition of trade.

CARGO QUOTATIONS.

Good joist and scantling.....	\$8 00@ 8 50
Common to fair joist and scantling.....	8 00@ 8 25
Good boards and strips.....	15 00@18 00
Common to fair boards and strips.....	9 30@14 00
Shingles, Standard.....	1 90@ 2 10
Shingles, Extra A.....	2 15@ 2 25
Lath.....	1 50@ 1 75

Receipts and shipments of lumber and shingles from Jan. 1 to and including June 15:

	Receipts.		Shipments.	
	Lumber.	Shingles.	Lumber.	Shingles.
1880....	388,087,000	191,508,000	252,435,888	40,151,000
1879....	393,310,398	214,955,000	269,070,306	26,769,000

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., June 17, 1880.

Chicago is evidently on the rampage, at least some of her lumbermen are desperate. They are paying \$8 for green piece stuff by the cargo, and are selling or offering to sell dry, delivered at Kansas City, St. Joe and Atchison at \$14.50 after paying \$52.20 freight (per car, 24,000 lbs), and offering it at Omaha at \$15, leaving them net \$1.28 for handling, drying and selling, which in Chicago costs over \$2.00. This is done by one or more leading firms. According to our almanac this means that either the Chicago freight pool has gone to pieces again, or the said firms are in dangerous financial condition.

St. Louis is out with a new \$12 list. The trade of this city keeps right along at from 600 to 700 M shipments per day, and no cutting prices.

It will be noticed that the list at Eau Claire has been somewhat reduced to meet the new move at Chicago. The great rains and the disastrous floods all over the West, full accounts of which appear elsewhere, have interrupted trade and retarded shipments for the week along the river, but orders continue to come in freely.

Serious apprehensions are now felt for the wheat crop on the level prairies of the West, but it is now too early to determine the effect of the rains. The disaster on the Chippewa put a great pressure on the log market of the Mississippi, and it will be surprising if the price does not materially fall off. This circumstance ought not to affect the price of lumber, as nearly all the river mills had bought all they could saw at former prices, and this flood having suspended the operation of nearly all the mills along the river, will reduce the cut of the season by many millions of feet. Besides this, the floods have done many thousands of dollars of damage, which must reduce the profit if it does not wipe them entirely out.

There has been a reduction of the price lists at Duquaque, Clinton and Davenport.

FOREIGN.

The Timber Trades Journal, of June 12th, 1880, reports:

LONDON.

Signs of activity are more apparent at the docks as the season progresses, and we notice a marked difference in this respect in the short interval since we last wrote.

We are now in the full swing of the Baltic importations, which are exceedingly heavy, as a reference to our list of arrivals will show, and whatever apprehension there may be about autumn shipments from Sweden, there is nothing at present to indicate any short supply in this market. It has further to be taken into account that the British North American fleet may shortly be expected, and from the White Sea also cargoes of wood will soon be coming to hand. Taking all these facts into consideration, one may be pardoned for asserting that, to use an ancient paraphrase, "there is corn in Egypt."

There is a gratifying increase to record this week in the deliveries from the Surrey Commercial Docks. It will be seen from the return which we publish in another column that the total number of standards which went out during the week ending June 5th was 4,808, as against 3,639 during the previous week, and 3,426 during the corresponding period of last year. The quantity of timber delivered was also 500 loads in excess of the same week last year.

Large as the deliveries of wood are, yet, taken altogether, how insignificant they appear when compared with the quantities imported. On consulting the Custom House returns we find that from June 1st to June 7th, inclusive, there were imported into London 35,369 loads of sawn goods, which are equivalent to 10,718 standards, in addition to which there were imported 5,883 loads of lathwood, 5,319 loads of firewood, and 1,642 loads of staves. During the same period, also, there were imported 13,956 loads of hewn wood.

LIVERPOOL.

Though the demand during the past week for nearly all kinds of timber and deals has been quiet, prices are little, if any, different from those recently current, the only alteration being that spruce deals have declined a trifle at the auction sales, which may, in a great measure, perhaps, be attributable to the fact of such a large quantity being placed on the market at once. As, however, there are few on the way here now, nor likely to be many for the next month or two, it is not probable that any further reduction will take place. Pitch pine timber, both hewn and sawn, is held for higher prices, especially the latter, of which the available supply is very small, and prices are advancing. Canadian goods move off slowly, with the exception of pine deals, which are now arriving by steamer, and, as the stock of wintered goods is now both limited in quantity and of inferior specification, high prices are obtainable for first arrivals and they are easily disposed of as soon as landed. At auction there was offered a cargo of Darien sawn pitch pine, just landed, all of which sold readily at the following prices: 23 to 36 ft. by 16 to 19 in, 20d; 37 to 45 ft by 15 in, 18½d; 36 ft and under by 15 in, 18½d; 37 to 52 ft by 14 in, 18½d; 36 ft and under by 14 in, 18d; 37 to 54 ft by 13 in, 17½d; 36 ft and under by 13 in, 17½d; 37 to 53 ft by 12 in, 17d; 36 ft and under by 12 in, 16½d; 36 ft to 55 ft by 10 and 11 in, 16½d; pitch pine planks, 4, 5 and 6 in, 15½d.

NAILS.—Buyers continue to handle supplies carefully, and the demand has a slow, dragging sort of tone, with the market somewhat stupid. There is stock enough and to spare in first hands for all known wants, and still occasional parcels from outside sources appear to be available. A meeting of the association was recently held and the old list of prices continued, but it is understood that quite liberal concessions are making in a quiet way, as low as \$2.75 per keg being mentioned. We quote nominally 10d to 60d, common fence and sheathing, per keg, \$3.10; 8d and 9d, common do, per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common, do per keg, \$3.65; 3d and 4d, light, per keg, \$4.60; 3d, fine, per keg, \$5.85; 2d, per keg, \$3.35.

Cut spikes, all sizes, \$3.35. Floor casing and hox, \$3.75@4.50. Finishing, \$4.00@4.75.

CLINCH NAILS.

1½ inch, \$5.50@5.65; 1¾ inch, \$5.25@5.35; 2 inch, \$5.00@5.15; 2½ inch, \$4.75@4.85; 3 inch and longer, \$4.50@4.60.

PAINTS AND OILS.—Demand continues slow and uncertain, and the few buyers who do appear show very plainly that the force of actual necessity alone brings them upon the market. Business, in fact, is most decidedly dull, and the feeling among holders of supplies by no means cheerful. No positive break down on values has occurred, nor is any thought to be likely, but constant little shadings have become a necessity in order to secure the small amount of trade afloat, and quotations are, to some extent, nominal. Linseed oil has an irregular market and shows no great amount of activity. Crushers, however, in some cases seem inclined to combat a further decline, and offer stocks carefully. Quotations range at about 62@64c. per gallon.

PITCH.—The demand has shown about the ordinary volume without the development of new features, and the market in a general way is nominally unchanged. We quote at \$1.87@2.00 per hbl. for city, delivered.

SPIRITS TURPENTINE.—With stock remaining well together, holders are quite firm, but occasional ar-

ivals to outside parties are thrown upon the market, and cause some irregularity. Of late the tendency has been upward, and the supply is so concentrated as to prevent much of an offering. As this report is closed, the quotation stands about 29@29½c. per gallon, according to the quantity of stock handled.

TAR.—The market has not changed much, a steady demand prevailing for jobbing parcels, and values ruling quite firm, as the supply is small enough to be well controlled, and not many additions are expected. We quote at \$2.75@3.00 per hbl. for Newberne and Washington, and \$2.75@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

LEGAL NOTICES.

REGENHARD, SHEVILL & CO.—THIS IS TO certify that the undersigned have formed a limited co partnership pursuant to the Revised Statutes of the State of New York.

The name of the firm under which said co-partnership is to be conducted is REGENHARD, SHEVILL & CO.

The general nature of the business intended to be transacted is that of importers and dealers in confections and confectioner's materials.

The names of all the general partners are as follows: Herman Regenhard, who resides at the city of Jersey City and State of New Jersey, and James B. O. Shevill, who resides in the city of Brooklyn in the State of New York, are the general partners, and Randolph N. Bowlby, who resides in the city of Brooklyn, is the special partner.

The amount of the capital which the said special partner, Randolph N. Bowlby, has contributed to the capital stock is the sum of five thousand dollars.

The period at which said co partnership shall be deemed to have commenced is the 1st day of May, 1880, and at which it is to terminate is the 1st day of May, 1882.

Dated on the 25th day of May, 1880.

H. REGENHARD,
JAMES B. O. SHEVILL,
General Partners.
R. N. BOWLBY,
Special Partner.

GEORGE LESTER & CO.—NOTICE IS HEREBY given that a limited partnership has been formed by the undersigned, pursuant to the Revised Statutes of the State of New York: that the name or firm under which said partnership is to be conducted is George Lester & Co.; that the general nature of the business intended to be transacted by said partnership is the buying and selling cigars and other merchandise; that the general partner interested therein is George Lester, who resides in the City of Brooklyn, Kings County, New York, and the special partner is William A. Jones, who resides in the City of Brooklyn, Kings County, New York; that the said William A. Jones, special partner, has contributed as capital to the common stock the sum of three thousand dollars; that the period at which the said partnership is to commence is the first day of May, 1880, and the period at which it is to terminate is the first day of May, 1883.

Dated, New York, May, 1st, 1880.

GEORGE LESTER,
WM. A. JONES.

OUR INDEX.

Simultaneously with the publication of the first number of the new volume, THE RECORD presents its subscribers to-day with an elaborate, carefully collated Index of Volume XXV., just closed, and covering transactions officially recorded up to date.

The transcendent value of the REAL ESTATE RECORD INDEX has been heretofore attested by our appreciative friends, and the fact that our journal has become the standard work of reference in regard to values of realty and other statistics peculiarly its own, makes this Index a matter of necessity. The labor involved in its compilation, the care taken in the revision of its numerous details have heretofore challenged the admiration of our readers, and yet, notwithstanding all this labor, it is again furnished to our subscribers free of cost.

To-day's Index surpasses preceding numbers, in so far that it has been arranged with still greater simplicity, condensed where condensation renders the search the easier, and expanded where additional explanation makes a vain search impossible. For instance, where a lot in the form of an L has been transferred at a certain date, the Index gives the page of the avenue, as well as the street, where said transfer is described. There are those who occasionally complain that they cannot find the street or avenue on the page quoted in the Index, to them we must repeat that they will find it there, if they will only look far enough. Often, the allusion to said street or avenue is to be found in the body of another transfer.

The key to the transactions of the past six months will be appreciated during the revival of activity, two months hence, when investors and operators will be glad to refer back to the transactions that startled the market during the late boom, and also to those that were recorded during the sudden reaction, which created such a lull in activity.

It will be seen at a glance that transfers in New York during the past six months have been most numerous on the extreme East Side, between Seventieth and Eighty-fifth streets, and also between One Hundred and Fifth and One Hundred and Fifteenth streets. In Brooklyn a large number of transfers of lots in the vicinity of Prospect Park are recorded.

Not only, however, does the Index simply fix the reader's eye upon the transfers of real estate, the numerous new buildings erected during the half year, the new laws passed—bearing on property, the mechanics' liens, but all the various matters of interest that are from week to week found in the columns of THE RECORD are carefully indexed in alphabetical order, so that our subscribers can have no difficulty in ascertaining,

without delay, where to look for the information required.

WHERE THE GRANDEST IMPROVEMENTS ARE IN PROGRESS, AND IN EMBRYO.

The exceptionally long and important list, which appeared in this journal last week, under the head of "Buildings Projected," and the steady and continuous sales of first class residences, so unusual in midsummer, betoken most clearly the unabated demand for good houses in desirable localities. Many of the purchasers seem to be availing themselves of the interval of leisure afforded by the summer vacation, giving them time and opportunity for looking about and of securing the required domiciles suited to their tastes and means, or the sites for their speedy erection in advance of the more active demand for both, which is sure to return with business activity.

There are in our midst many gentlemen of forecast, who secured valuable property as opportunity offered, and have been holding it for years in an unimproved state. They seem to have just got in readiness for erecting the houses which have been their ideals during all this period. For these, and other reasons which are obvious, the building of princely residences is more active at the present time than for several years past. This is notably true of that especially attractive section so long known, and appropriately called "Lenox Hill."

In many particulars, "Lenox Hill" is already in advance of the still famous "Murray Hill," especially in the magnificence of its palatial architecture. In the section embracing "Lenox Hill" there are, to-day, more elegant, commodious and costly private, not to say public, edifices than in any other distinct locality in the city. By way of illustration, we point to a number, all of which may be characterized as graceful in exterior, and fitted, furnished and equipped without any close study of cost. The residence of Mr. David Dows, (Herter Bros., architects) is a double house, fifty feet front; that of Mr. Heber R. Bishop (Mr. C. W. Clinton, architect), also double, fifty-four feet front; of Mr. Geo. W. Quintard (Mr. Arthur Gilman, architect), thirty feet front, with an attractive exterior; of Mr. Alex. H. Stevens (Mr. Haaney, of Baltimore, Md., architect), eighty feet; of Mr. Lapham, of Brooklyn (W. H. Hazen, architect); of Mr. S. Bradley (J. G. Prague, architect), twenty-eight feet, with a beautiful facade; of Mr. Anthony Mowbray (Lamh & Wheeler, architects), three houses, all extra size. Mr. Wm. Pickhardt and Mr. Ladieux have their plans out and do not intend to fall behind their neighbors. Any essential deterioration in this direction is precluded, both by the honorable emulation and friendly strife of gentlemen of wealth and ambition, as well as public spirit for pre-eminence in the designs and structures which they contemplate erecting; also, by the conditions attached to the sale and transfer of this property for building purposes, most wisely transmitted by the public-spirited and far-seeing man whose name it must always bear.

Of the comparatively small portion of this "eminent domain" which could be obtained at any cost, Mr. John D. Crimmins, to whose excellent judgment and splendid enterprise these

columns have borne frequent testimony, succeeded in March last in purchasing a most magnificent plot on Sixty-ninth street and Madison avenue, of Mr. Robert L. Stuart, who purchased directly from Mr. Lenox many years ago. Mr. Crimmins, in offering this property to the public, announces his purpose to enforce the original conditions of Mr. Lenox in their fullest spirit and intent. The entire block is thereby restricted to first class houses only, and nothing in any way noxious or offensive to the neighboring inhabitants will be allowed or tolerated. We believe Mr. Crimmins will very soon have the assurance that these restrictions, thus publicly made known, as surely as they enhance the value, will proportionately accelerate the sale of these splendid lots.

The names of other gentlemen, besides those we have mentioned above, occur to us as owning beautiful residences in the same vicinity; among them Mr. J. M. Fiske, Hon. H. C. Van Vorst, Mr. F. D. Tappan, Mr. Anderson Fowler, Mr. Parker Handy, Mr. B. B. Atterbury, and others equally prominent, whose names do not chance to be familiar to us. Messrs. J. M. Fiske and T. G. Eastman (Mr. E. D. Hatch, architect) have, at the present time, two new dwellings of the highest order of architecture under way. Builders have erected the most expensive and magnificent houses in this neighborhood, and so great is the demand, that they have almost invariably disposed of them.

Owing to the character of these structures, as well as the assured respectability of their owners and occupants, and especially owing to the scarcity of lots in this immediate vicinity, the importance of the restrictions in question can scarcely be exaggerated in the estimation of both present and prospective residents. The security they afford the purchaser is an important factor in the consideration of the deed. The value of such a guarantee cannot be measured by legal tender. Mr. Crimmins, we understand, will illustrate his good faith in this behalf by building a house on one of these exquisite lots, which will be, in some sense, a model of his ideas of a "first class" house, as well as those of the original grantor. The remaining lots will be so sub-divided as to enable any party purchasing to determine the dimensions of the ground he may require, be the same twenty-five feet or more; and, at the same time, he can fix his own terms of payment.

Much might be said of the beauty, salubrity and healthfulness of the locality, on the latter point especially, by reason of the nature of the soil and its elevation above tide-water, which is eighty feet, at least ten feet above the highest point of "Murray Hill." The indications are unmistakable that, with the incoming autumn, the demand for residences will be unprecedented. Let gentlemen of means, not yet provided with homes of their own, consider whether the inducements here presented are not worthy their immediate and practical attention, especially before a still more active and speculative market yet further enhances the value of these peerless building sites, in this choicest of localities, with the most attractive surroundings. Investors should also bear in mind that the area of what is known as "Lenox Hill" is not over one eighth the size of "Murray Hill," the park occupying all the ground west of Fifth avenue. Hence the number of lots offered

in this magnificent district is exceedingly limited, and it will not be long before the demand will far outweigh the supply.

The careless manner in which legal documents are drawn up and subsequently placed on file is shown in our columns of Chattel Mortgages today. In one instance the name of the mortgagee is omitted from the document placed on file, and in the other instance the mortgagor has failed to sign the instrument. Both of these documents of course are useless—should any litigation arise in regard to them. This shows the importance of watching the columns of THE REAL ESTATE RECORD, where all such omissions or mistakes are instantly noticed. Lawyers, capitalists and, in fact, all those who are in the habit of placing documents on record, cannot afford to be without this journal. It acts virtually like a check upon their own transactions, as they can see by our columns whether their legal instruments have been properly recorded or not.

THE OPENING OF STREETS.

It will be remembered that at the beginning of the session of the Legislature, Mr. Simeon E. Church had a bill introduced providing for the appointment of a single commission to have charge of all matters relating to the opening of streets and avenues in this city. This bill, we understand, was killed in the Committee on Cities, but the following act, introduced by Mr. J. L. Wells, was passed and has since received the signature of Governor Cornell. It is now a law of the State, and we print it herewith as a subject of great interest to property owners on Manhattan Island and the annexed district.

AN ACT in relation to the opening of streets, avenues and public parks or places in the city of New York.

The people of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. It shall be the duty of the department or board of the city of New York, having the direction or charge of the opening of any street, avenue or public park or place, to furnish to the commissioners of estimate and assessment, that may be appointed in any proceeding to open any street, avenue or public park or place in said city, such surveys and maps as may be required by them in such proceeding. The expense of such surveys and maps shall not be included in any assessment in such proceeding. Such surveys and maps shall be made by surveyors in the regular and stated employment of such department, and it shall be the duty of the board of estimate and apportionment of the city of New York, annually to make provision for the expense of procuring and preparing the same. The fees of such commissioners of estimate and assessment, exclusive of necessary disbursements hereinafter mentioned, shall not exceed in the aggregate the sum of twenty cents a foot for the lineal extent of the street or avenue or the portion thereof so to be opened or altered; but when the assessment district shall extend beyond the street or avenue lying nearest to and having the same general direction as the street to be opened, the fees of such commissioners of estimate and assessment may be increased in the aggregate to not exceeding twenty cents for every twenty-five hundred square feet of territory embraced in the assessment district, lying beyond the said nearest street or avenue; but in any case such additional fees of said commissioners shall not exceed ten cents for each lineal foot of the street or avenue or portion thereof to be opened or altered. No costs, charges or expenses of any description shall be allowed in such proceeding, or charged on any lands affected thereby, except the compensation of the commissioners as above limited, and their necessary disbursements for room rent, actually paid, but in no case to exceed one dollar per day; for advertising, printing or posting any notices required by law, and for any other necessary incidental expenses, not exceeding one hundred dollars.

SEC. 2. Streets or avenues, or portions thereof, which are continuations of each other in the same general direction, and no others, may be embraced in the same proceeding for the opening thereof, and in case of the opening of any street or

avenue, or portions of any street or avenue, where the street or avenue, or portions thereof, sought to be opened shall have been laid down and shown upon any general map or plan made and filed in pursuance with any law of the State of New York, relative to the mapping and planning of streets and avenues in said city, where no buildings for which compensation can lawfully be made shall be taken, the assessment districts shall not extend beyond the centre line of the blocks adjacent thereto, nor beyond the ends of the street or avenue, or portions thereof, sought to be opened.

SEC. 3. The owners of land and of all the estate therein embraced within the lines of any street or avenue laid down and shown on any such general map or plan, and comprising all the land within said lines in an entire block in extent, may, without compensation, and at their own expense, convey all their right, title and interest therein, providing the same shall be free from incumbrance, to the Mayor, Aldermen and Commonalty of the city of New York, and upon the delivery of such conveyances to the counsel to the corporation of said city, with the money necessary to record such conveyances, and affidavits made by all of such owners to the effect that the persons making them are the owners of the estates in such lands so conveyed by them respectively, and stating their interests, and that such estates in such lands are free of all incumbrances, together with abstracts of title, if desired by such counsel to the corporation, it shall be the duty of such counsel to the corporation to examine such conveyances and papers, and if such titles shall not be rejected for good cause by such counsel, he shall cause the said conveyances to be recorded in the office of the Register of the city and county of New York, within sixty days after their delivery to him, and file them with the Comptroller of such city, and thereupon the said Mayor, Aldermen and Commonalty of the city of New York shall become vested with the title to said lands to the same effect and extent as if they had been acquired by a proceeding taken for the opening of that portion of said street or avenue; after the making and acceptance of such conveyances, no proceedings to open the lands so conveyed shall be taken or maintained, nor shall the lands fronting on that portion of the street or avenue so conveyed, and extending to the centre of the block on either side of such portion of said street or avenue so conveyed, be chargeable with any portion of the expenses of opening the residue or any portion of the residue of such street or avenue, except the due and fair proportion of the awards that may be made for buildings as aforesaid.

SEC. 4. All acts or parts of acts inconsistent with this act are hereby repealed.

SEC. 5. This act shall take effect immediately.

IMPORTANT TO BUILDERS OF TENEMENT AND LODGING HOUSES.

We hereby call the attention of builders and architects to the following amendment of the act "for the regulation of tenement and lodging houses in the cities of New York and Brooklyn," and which was passed during the recent session of the Legislature:

It shall not be lawful hereafter to erect for, or convert to, the purposes of a tenement or a lodging house, a building on any lot where there is another building on the same lot, unless there is a clear, open space exclusively belonging thereto, and extending upward from the ground, of at least ten feet between said buildings, if they are one story high above the level of the ground; if they are two-stories high, the distance between them shall not be less than fifteen feet; if they are three stories high, the distance between them shall not be less than twenty feet; if they are more than three stories high, the distance between them shall not be less than twenty-five feet. At the rear of every building hereafter erected for, or converted to, the purpose of a tenement or lodging house on any lot, there shall be a clear, open space, of not less than ten feet, between it and the rear line of the lot; but when thorough ventilation of such open spaces can be otherwise secured, such distances may be lessened or modified in special cases, or the open spaces may be dispensed with on corner lots, by a permit from the board of health. No one continuous building shall be built or converted to the purposes of a tenement or lodging house in the city of New York, upon an ordinary city lot, to occupy more than sixty-five per centum of the said lot, and in the same proportion if the lot be greater or less in size than twenty-five feet by one hundred feet, but this provision shall not apply to corner lots, and may be modified in other special cases by a permit from the board of health.

REAL ESTATE IN BROOKLYN.

To the Editor of THE REAL ESTATE RECORD:

It is a well-known fact that lots in New York City have been greatly enhanced in value by the completion of the rapid transit roads, and that many parties, anticipating the excitement and rise the completion of these roads would occasion, purchased large quantities of lots, which they have since realized upon, some 30, some 60, and some 100 per cent. Whoever thinks that Brooklyn property will not be affected by rapid transit in the same manner as property in New York, has not duly considered the advantages that Brooklyn now offers as a place of residence, nor how greatly those advantages will be increased a year hence, when the completion of the great bridge will virtually unite it in close connection with the business portions of New York. By the bridge, passengers will be transported from the New York City Hall to Sands street (Brooklyn Heights) in five minutes, thence, by rapid transit, the Hill (Clinton avenue) will be reached in twelve minutes more, Bedford avenue in seventeen minutes, Broadway in twenty-five minutes, East New York in thirty minutes; thus bringing all property this side East New York much nearer the centre of business than Harlem, in point of time as well as in distance. Why then should there be such a disparity in the price of lots in the two cities? The expense of improvements in Brooklyn is much less than in New York. Grading and paving costs about one-third as much. Brooklyn has no underlying rock which must be blasted out to make streets, sewers and cellars. The drainage is excellent not alone through the sewers but also through the soil, as the city lies for the most part high, and the soil is porous. It has an abundant supply of the purest water to the highest stories of the biggest houses. It has elegant parks and drives, and its nearness to the great ocean resorts at Coney Island and Rockaway makes it the most desirable city on the continent for a summer and winter residence. It has the best of schools and churches. It is a quiet, orderly city, where society is good and families are safe.

These things being so, and the city being on the eve of great prosperity, it would appear to be wisdom on the part of those who are about to invest money in real estate, to purchase Brooklyn property, and especially low priced lots, which are likely soon to be greatly affected by the improvements now going on.

RULAND & WHITING,
5 Beekman street, New York.

MARKET REVIEW.

For list of lots and houses for sale see pages IV and V of advertisements.

REAL ESTATE MARKET.

But very few auction sales took place during the week, and the majority of those previously announced were adjourned. The property known as the Standard Theatre in Sixth avenue, was sold under foreclosure to the plaintiff for \$28,900, the amount due on same being \$28,850. A bargain was secured by Mr. C. E. Coddington for the College of Physicians and Surgeons, in the purchase of the three-story brick house on Twenty-third street, 75 feet east of Fourth avenue, 20x98.9, for \$18,500. Ten lots on Ninety-seventh and Ninety-eighth street, 100 feet west of Third avenue, were also sold under foreclosure, and purchased by Mr. A. Klaher, plaintiff, for \$33,500.

In Brooklyn, at an assignee's sale during the week, No. 193 Park place, 100 feet west of Vanderbilt avenue, 79x131, was sold to Walter P. Denslow for \$18,100. Ten lots of the Lefferts estate were purchased by Grinnell & Co. for \$8,000.

GOSSIP OF THE WEEK.

There were rumors during the week that the block bounded by Fifth and Madison avenues, Seventy-eighth and Seventy-ninth streets, had been resold for \$650,000, but, after diligent enquiry, no confirmation of the report could be obtained.

Breen & Nason have sold the last of their houses in Sixty-first street, recently described in these columns, on private terms.

Two vacant lots on the north side of One Hundred and Thirty-fourth street, 310 feet east of Sixth avenue, have been sold at private contract for \$5,800, and two lots on the north side of One Hundred and Twenty-eighth street, 100 feet west of Seventh avenue, for \$7,000. This last plot is to be at once improved.

Ground has just been broken on the northeast corner of Fifth avenue and Eighty-third street, where Mrs. Quintard intends to construct an elegant residence, fronting 38 feet on the avenue.

Designs have been completed for the new German theatre on the northeast corner of Third avenue and Fourteenth street, 80x150, which is to cost \$300,000. Adjoining will be a concert hall of iron 84x103.

Messrs. E. H. Ludlow & Co., have sold to Mr. John E. Devlin, No. 18 West Tenth street, a four-story brown stone house, 28.6x70x92.3½, and extra lot in rear, 10x26.2, for \$26,000.

Messrs. Clark & Crane desire us to state that the four-story brown stone house, No. 5 East Forty-fourth street, 27x60x100.5, was sold for \$57,500, not \$60,000, as previously reported.

The new Commission, appointed under the act to revise, vacate or modify assessments, will hold their first meeting in the Mayor's office on Wednesday next at two o'clock.

The hot weather, as well as the Fourth of July celebrations have considerably thinned the ranks of the Pine street frequenters. Mr. Leopold Friedman is studying the value of Eighth avenue lots from the balcony of the United States at Saratoga. Ex Mayor Smith Ely has gone to Richfield Springs. Richard V. Harnett, while enjoying a short vacation from the auction stand, will patriotically celebrate the Fourth on Fire Island. The restless Jefferson M. Levy, after having returned from Cincinnati, made his appearance on 'change, but soon retreated to the seashore. Mr. John H. Deane officiated, during the week, at the laying of the corner stone of the new Baptist Church on the northeast corner of One Hundred and Eleventh street and Lexington avenue.

Quite a number of important sales of property have recently been made on Long Island. The Standard Oil Company has purchased the property in Long Island City between Eighth and Ninth streets, and extending to the East River from West street, embracing about three-quarters of the entire block, paying therefor \$50,000. It will be covered with warehouses. The Mutual Life Insurance Company sold a piece of property at Flushing, 171x204 feet, to William P. Willis, for \$10,000. At College Point Adolph Poppenhusen sold to Israel Cropser six and a half acres, with improvements, for \$62,600. J. J. Betz has purchased the E. Johnston farm at Hempstead, comprising seventy-three acres, for \$30,000, and Mr. Johnston has taken Mr. Betz' place in Flushing for \$10,000. A piece of dock property in Astoria was sold to H. Menke for \$7,000.

The following are the sales at the Exchange Sales-room for the week ending July 2:

* Indicates that the property described has been bid in for plaintiff's account:

Delancey st (No. 252), n s, 25 e Sberiff st, 28x100, three-story brick stone and dwell'g and three-story brick dwell'g, to A. Gott-helf & Sons. (Public auction sale).....	\$7,500
*Madison st, n s, 287.4 e Scammel st, 23.9x96, to Henriette Ringeling. (Amount due, abt \$9,350).....	7,500
*Rivington st (No. 330), n e s, 59.7 w Mangin st, 19.9x81.3, to W. E. Treadwell. (Receiv-ers sale).....	4,146
Washington st, w s, 85.4 n Morris st, 21.10x89.6, John T. Groshon. (Amount due, abt \$5,550).....	4,700
23d st (No. 107), n s, 75 e 4th av, 20x98.9, three-story brick dwell'g, to The College of Physicians and Surgeons. (Amount due, abt \$3,650).....	18,500
35th st (No. 440), s s, 475 w 9th av, 25x98.9, three-story frame (brick front) dwell'g, to E. Banker. (Amount due, abt \$3,000).....	4,700
*38th st, s s, 181.11 w 1st av, 18.3x100.9x25.2, irreg, to Mary E. Gallagher. (Amount due, abt \$2,700).....	2,500
53d st (No. 233), n s, 221 w 2d av, 20x100.4, Bertha Peyser. (Assignee's sale).....	35
*78th st, s s, 343.9 w 3d av, 18.9x102.2, to Sarah Boreel. (Amount due, abt \$8,750).....	7,500
*97th st, n s, 100 w 3d av, 125x100.11.....	{
98th st, s s, 100 w 3d av, 125x100.11.....	{
to Adolf Klaber. (Amount due, abt \$37,800).....	33,500
*118th st, n s, 235 e 5th av, 25x100, to Dennis C. Gately. (Amount due, abt \$1,100).....	1,800

Union av, n e s, 100x157.3.....	{
to Henry Irwin. (Amount due, abt \$800).....	1,768
*6th av (Nos. 545 and 547), w s, 49.4 s 33d st, 48.1x100, to Bernard Earle. (Amount due, abt \$28,850).....	28,900
*7th av, s e cor 127th st, 25x100, to Harriet Overhiser. (Amount due, abt \$5,925).....	5,650
Total.....	\$129,699

BROOKLYN, N. Y.

In the City of Brooklyn, Messrs. J. C. Eadie and J. Cole have made the following sales for the week ending June 30:

Broadway (No. 618), s w s, 45.1 n w Yates av, 21.6x93.4, irreg, three story frame dwell'g, Geo. Ehret.....	\$5,300
--	---------

Park pl (No. 193), n s, 100 w Vanderbilt av, 79 x131, two story brown stone dwell'g and brick stable. Walter P. Denslow (assign-ee's sale).....	18,100
Meeker av, s s, 48 e Graham av, 23x100. John Burnside.....	905
Lots 445 to 451, inclusive, on map of estate of Leffert Lefferts, in 23d and 25th Wards. Grinnell & Co. (Partition sale).....	8,000
Total.....	\$32,305

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards remain much the same as last noted. Demand was at times a little irregular, but has proven full enough to afford an outlet for most of the arrivals, and the accumulation left over afloat gave holders no great amount of trouble, while on prices the range stood about as before. For "Up Rivers" the general figures were \$4.75@5 and Haverstraws \$5.25@5.75 per M with moderate fluctuations according to special influences. According to advices obtained from receivers, the production continues with about former volume, and the output of brick does not as yet diminish to any extent, but the consumption present and prospective is sufficient to afford much encouragement and the selling interest, as a rule, feels quite hopeful. Indeed, taken altogether, the general market is in very good and encouraging shape through the conservative policy observed in the manner of conducting business since the settlement of the trouble with the laborers at the yards, and there is a hope that the situation will undergo no great change for some time to come. For Pale Brick the demand has been good, and the supply sold up closely at full former rates, standing mostly at \$3.25@3.75 though something extra has done a trifle better. For most kinds of Fronts the position is firm and a fair proportionate sale of stock is found.

HARDWARE.—The situation still fails to assume any very encouraging form and business drags on pretty much all lines of goods. Eventually there must be a rather full consumption of builders' hardware, on local account, at least, but only on the force of actual and immediate necessity are buyers likely to move for some little time to come. Manufacturers are in the meantime revising price lists and bringing cost down on most leading articles and until this is through with demand is also likely to be held in check. The price of Padlocks and Padlock keys has been reduced from 33¼ to 45 per cent. discount. The Union Mfg Co. conform to rates of other makers in the following line of discounts: Loose Pin Acorn Butts, No. 63, 50 and 10 per cent., Loose Pin Steeple Tip Butts, No. 90, 50 and 10 per cent., Loose Pin no Acorn Butts, No. 66, 50 and 10 per cent., Narrow Fast Joint Butts, No. 80, 40 and 10 per cent., Narrow Fast Janned Butts, No. 81, 40 and 10 per cent. The Reading Hardware Company have issued a revised list of Door Locks, Knobs and Trimmings, with discount 50 and 5 per cent.

LATH.—Fair supplies have come to hand, but about all were disposed of at former rates, and the market remains steady at \$1.50 up to the present writing. A great many dealers have stock on hand to satisfy present wants, and, therefore, assume more or less indifference, but in a quiet way have given evidence that at only a moderate concession from receivers views they would be willing to purchase with some freedom. Advices from primary points report moderate shipments in this direction.

LIME.—The market is still somewhat unsettled. In most quarters the tendency is to talk upish and refer to higher rates asked, with a surface appearance of strength given in consequence. Against this, however, we have reports of considerable sales at figures which show no improvement, and the transactions conducted by parties who are considered quite as reliable as any in the trade.

LUMBER.—The actual demand, both for immediate and future delivery is moderate, and throughout the market displays a very dull tone with an evident weakening on values. There may be heard a considerable amount of confident talk from a portion of the trade, based upon what they expect after the usual summer apathy has passed away, and it is possible their hopes may be realized. Yet, in some respects, the course of the lumber business has been similar to that of many others of the staple products of the country since the first of the year, and it may be that in due time corresponding results will be reached. The "boom" was comparatively late in starting, and, if the reaction is to come, it will be just so much behind, but an impression is current that the premonitory symptoms are already developing. Of course, it is not a difficult matter to find those who stoutly assert that the lumber market occupies an entirely independent position, and has no factors in common with those of other articles of merchandise calculated to force sellers to surrender more than a natural slight shading from extremes. A retrospective glance, however, will show that the dissimilarity is by no means so great as claimed. There was the same rush to secure supplies which reached almost or quite the nature of a panic, and the moment mills were prepared to take orders they found buyers so plentiful and so anxious that it became a matter of some difficulty to decide who should be first served. Prompt delivery was naturally most desired but far

from imperative, and so that they could engage lumber for some delivery a great many customers did not appear to care much when the delivery was accomplished. The result was that for the season of the year the sales were almost if not entirely without precedent for their magnitude, and even today numbers of manufacturers who have not been idle a moment since power and material became available, must continue a steady and full product for weeks to meet the engagements in hand. Still following out the comparison with other products of the country, it will be found that the demand was based on a considerable revival of consumption, and a great deal of expectation in regard to future consumption, coupled with an apparent belief that unless secured then and there supplies would soon disappear. What are the results? The actual wants of consumers satisfied, further demand has been held in check or killed entirely by the great addition to cost, which was only a natural sequence of the manner in which operations were carried on and buyers have settled down in the old careful form of handling nothing except as a matter of actual necessity, while in not a few cases it is said that contracts have been repudiated on the slightest provocation and the lumber thrown upon the market to swell the supply. Indeed, manufacturers are to some extent brought into competition with their own product, and commence to discover that the outlet is becoming clogged with a surplus of stock which was so generally set down as an impossibility a short time ago. Exporters also exhibit much the same sort of caution as home buyers, and this adds another element of discouragement. It may be consoling, and we know from experience that it is natural for a large percentage of the lumber trade to present the most roseate view of the situation, but the market just now fails to respond to anything of a "bullish" character, and seems to be shaping to give the "bears" their opportunity.

Spruce continues in buyers favor, and the undertone of the market is generally weakening. Randoms are offered readily upon receipt and also to arrive as soon as schedules come to hand, and sellers seem quite determined to prevent an accumulation if possible. Better terms can also be secured on specials, and some low figures are mentioned as having been accepted where the specification was not very difficult. Values are somewhat nominal, but we have quotations ranging from \$13.50 up to \$15.50 for random, and \$15@18 for specials, the latter for extra difficult.

White Pine finds about the ordinary trade on home account, and is taken on a few export orders. The demand, however, is not of an encouraging character, and holders would meet with little success in moving stocks except at a mo lifted cost. South American orders are dropping off. We quote at \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine meets with an occasional sale for export, direct from primary points, and now and then a home buyer can be found, but the demand has no encouraging volume, and the market is tame. Stocks here have increased somewhat, and it is said to a considerable extent from parcels which come from evaded contracts. We quote random cargoes at about \$24@26 per M.; ordered cargoes, \$25@27 do.; green flooring boards, \$25@27 do.; and dry do. do. \$26@28. Cargoes at the South \$16@18 per M. for rough, and \$20@22 for dressed at Gulf ports.

Hardwoods are in moderate demand, and the market without new features of decided nature. Desirable stocks do not increase, nor are many additions expected, and holders views continue steady on all grades. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. cills, \$18@20 do. cherry, \$15@25 do; white wood, ½ and ¾ in. \$25@27.50, and do. in. \$33@35 do.; hickory, \$35@45 do, for Western, and \$65@75 for good nearby stock.

Some of the yards are doing a good business, and others show only a small and irregular distribution. There is also irregularity over values, but no radical changes.

From among the lumber charters recently reported we select the following:

A Ger. barque, 610 tons, hence to Jamaica, part cargo, white pine lumber, £250, thence to London, logwood at or about 45s; an Am. barque, 454 tons, from Portland to Glasgow, spool wood, private terms; a Ger. barque, 311 tons, hence to Hauburg, black walnut, 30s; a Br. barque, 665 tons (here), from Dohoy to the Clyde timber, 37s. r hewn, and 115s. for sawn; a schr., 180 M lumber, f m Pensacola to Aspinwall, \$15; a Br. brig, 194 tons, from a southern port to Sagua, lumber, \$9, Spanish gold; a Br. brig, 237 tons, from Bridgewater, N. S., to Barbadoes for orders, lumber, \$7; a barque, 240 M lumber, from Fernandina to New York, \$8; a barque, 400 M dry boards, from Pensacola to New York or the Sound, \$9; a schr., 150 M lumber, from Jacksonville to Albany, \$10; a brig, 250 M lumber, from Apalachicola to Boston, \$9.50; a schr., 150 M lumber, from Jacksonville to Hyde Park, \$9.60; a barque, 800 tons, from Pensacola to Boston, lumber, \$8.50; a schr., 223 tons, from Norfolk to New York, lumber, \$3.

Exports of lumber from the port of New York:

GENERAL LUMBER NOTES.
STATE.

The Albany lumber market, for the week ending June 29th, is reported by the *Argus* as follows:

There is a better feeling throughout the trade, both with the present condition of things in the District and with the prospect near at hand and to the close of the season, than has existed for some time. This is not only as regards prices but covers the extent of the trading to be done. Though there is not any change to be made in prices, they are firmly held especially for uppers and for which some houses are asking an advance on our quotations. Although this is Fourth of July week when no great trading is looked for, there has been quite a sprinkling of buyers in the District and one or two round lots have been sold; one covering 1,500,000 feet in two parcels. After Fourth of July has passed a big trade is looked for and an advance in prices. This would seem to be beyond question in view of the firm attitude of the Michigan markets and the high and advancing lake and canal freights and the conceded light stocks in consumers' hands. The stock of Pine is ample and well assorted; it consists mainly of Dry; there is not any green cut to speak of.

Of coarse lumber there is not any change in quotations; there is not any change in the tone of the market; the receipts are good but there is no accumulation. The Northern mills are again shut down for want of water.

At Saginaw there is a very active trade at the following range of prices: \$6.50@7; \$13@15 and 30@35. The shipments from the river during the month have been about 60,000,000 feet. Lumber is sent forward as fast as cut to cover sales made ahead.

The receipts of lumber at Chicago for the week are 36,991,000 feet, and since January 1st, 413,500,000 feet against 412,700,000 feet from 1st of January, 1879. The shipments for the week are 15,449,000 feet, and since January 1st 263,131,000 feet against 283,725,000 feet from January 1st, 1879.

The receipts of lumber by lake at Buffalo for the week are 8,790,500 feet; by rail 91 car loads. At Oswego, 6,614,400 feet.

The receipts at Albany by canal from the opening of navigation to June 23d were:

Bds. & Sctg. ft. Shingles, M. Timber, c.f. Staves, D	
1879..	58,879,700 1,096
1880..	102,202,600 150

Freights from Bay City to Buffalo and Tonawanda, \$2.25 @ M. feet; from Saginaw, \$2.50. From Buffalo to Albany \$2.50; from Tonawanda to Albany, \$2.40 @ 2.50 @ M. feet. Lake Ontario freights from Port Hope to Oswego, 9c. @ M. feet, and from Toronto to Oswego, 10c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M. feet.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office,

BAY CITY, June 27, 1880

The market continues in the most satisfactory condition, and exhibits more activity than during the month of June for many years past. The demand is good and prices are kept well up and are exceedingly firm. Buyers have never been known to exhibit such avidity; they take hold without urging, and have some difficulty in satisfying their wants, as they are not able to pick up desirable stock on every dock. The mills are running to their full capacity, but their product is picked up about as fast as it is ready for shipment. The sales during the past week will amount to about 2,000,000 feet, which has been mainly sold at prices ranging from \$7, \$14 and \$32 to \$7.50, \$15 and \$35, with occasional parcels at \$6.50, \$13 and \$30. A sale of choice at \$3, \$16 and \$36 is also reported.

The shingle trade is also well sustained, and the stock offered is rapidly absorbed. Prices are firm at quotations. A good trade is doing in hoops at \$3.50.

Lumber freights: Alpena to Detroit, lumber, \$1.75; Bay City to Ashtabula, lumber, \$2.25; Saginaw to Ashtabula, lumber, \$2.50; Saginaw to Cleveland, lumber, \$2; Saginaw to Buffalo, \$2.50; Saginaw to Chicago, \$2.50; Bay City to Buffalo and Tonawanda, \$2.25.

We quote cargo rates:

Three upper qualities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@ 7 50
Lath.....	1 25@ 1 50
Shingles, XXX.....	2 90@ 3 00
clear butts.....	1 90@ 2 00

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., June 24, 1880.

Among the effects of the floods upon the Western rivers is a heavy reduction of the amount of lumber which will be produced. Nearly every mill on the waters of the Mississippi and all its tributaries had a full stock of logs, and but for the floods would have run until winter. The mills at Anoka and Minneapolis have lost about twelve days; the St. Croix loses twenty days; the Chippewa Falls, two months; Eau Claire, one month; Menominee, two weeks; Winona, and La Crosse, three weeks. The Wisconsin River from Jenny down to Grand Rapids at least three weeks. Below La Crosse the delay of mills will be light, but in the aggregate amount to the cutting of several. It is estimating inside, to say that all these mills would cut 125,000,000 feet during this delay, which amount is to be deducted from the total product of the season. Lumber sawing and crowding the mills cannot alter this result. This fact ought to influence the market price immediately. A personal investigation

at many of the principal markets along the river shows that the lumber business is from thirty to forty per cent. better than it was last year, from January to June, and the present stock on hand far below what it was the same time last year, notwithstanding sawing commenced earlier. The crops have so far withstood the floods as to make it reasonably sure that an abundant harvest will be reaped nearly all over the West. Along the river they have settled down on a \$12 list for dry common, and cutting prices only where they are forced to it in direct competition with Chicago, and forced to it by that Eodom of the lumber trade which they meet. The advance in cargo prices at Chicago last week seems to be maintained, and this will probably stop the cut lists. Let every lumberman on the line hold steady.

NORTHWESTERN LUMBERMAN,
CHICAGO, June 24, 1880.

In respect to the amount of business done, the past week has brought very little change to any of the northwestern markets. The demand continues about the same as it has been for some little time. It is described as good at some points, but at others only fair, the average probably being somewhat below that of a year ago. In this city, according to the shipments, trade seems to have fallen off a trifle; but this may be, and doubtless is, only a temporary variation, due to causes which have little or no effect upon the business in general. In the interior, it is said that buyers are getting a little anxious to have lumber, but are not quite certain whether prices have yet touched the lowest point for the season. At the East, the situation is much the same as it is this way. Buyers are uncertain about taking hold, and generally prefer to make such small purchases as their immediate necessities demand, and leave larger investments to be made by and by. In short, lumbermen everywhere are in much the same condition—too hopeful of the future for any marked exhibition of weakness, and yet not confident enough to put on a bold front and discount it.

The dealers at Hannibal, Mo., have raised some of their prices to the extent of \$1 per thousand, and in addition to an advance at the cargo market here, a few of the yard dealers have changed their quotations in a similar way; but, generally speaking, there has been no important variation in the value of lumber. The advance at Hannibal is, no doubt, due to the fact that the dealers of that city are afraid the floods on the upper river and the tributary streams will affect the supply of rafted lumber, and, perhaps, make it difficult for them to get all they want. This apprehension does not imply any doubt that there will be lumber enough manufactured on the river, but merely that the mills which raft their product, and upon which many of the Mississippi dealers depend for their supply, will be able to send forward the usual quantity. While this may be true, it has but a local effect, as it does not alter the fact that all the distributing hooms are full of logs, and will be able to keep every mill on the banks of the Father of Waters running to its fullest capacity to the end of the season. It is claimed, to be sure, that many logs have been lost; no doubt they have; but there are a good many left, and skeptics will find at the end of the season that there is in them the making of an immense quantity of lumber. We cannot see that the prospective supply of lumber in the Mississippi valley is diminished a particle, and as there has been no change elsewhere, the situation in this respect is practically no better or worse than it has been. It is as useless to attempt to disguise the fact that there is a large stock of lumber to be sold this fall, as it is, on the other hand, to undertake to cover up the prospect that the demand for it will likewise be laid out on a liberal scale.

In bringing these points to the attention of the trade, the *Lumberman* has no desire to give undue prominence to the dark side of the picture. We are obliged to take the situation of the trade as we find it, and it is certainly not the part of wisdom to ignore its disagreeable features, or to underrate their importance. Though we believe there is a prosperous season in store for lumbermen during the present year, we do not by any means believe that the profit is already secured, or that it will be realized in spite of any blunders that may be made. We recognize the fact that there is a large supply of lumber on hand, and to come forward, and that there is some doubt in the minds of many whether the demand will be sufficiently active to admit of its being sold at profitable rates; but at the same time we cannot help thinking that the weight of the evidence which the indications afford is against such a conclusion. That the majority of the lumber manufacturers and dealers agree with us in this, is shown by the conservative course which they are now pursuing. There is very little real weakness in the trade, considering the excuse that might be found for it. At most points the dealers are decidedly in favor of holding for present prices, instead of making further concessions, which argues that they are possessed of no small degree of confidence in the future value of their stock.

FOREIGN.

This week's Havana mail reports as follows:

White Pine—No recent sale to report and wanted; we quote \$33@35 gold per mille feet, as to assortment.

Pitch Pine—Is still scarce and wanted; we quote \$33@38 gold per m. feet for first arrivals, if of good class and assortment.

Cooperage stock—Box Shooks—Market continues heavily supplied and we cannot quote at over 6@6½ rs.

Thld. do.—Large stock of those for sugar that we quote at from 15 to 17 rs.; those for molasses are unchanged at from 21 to 23 rs. as to class.

Empty Casks—We quote as per last sales, \$3¼@3½ for hdds., and \$2@2¼ for tierces.

Hoops—Stock continues exceeding the demand and holders still pretend \$38 per mille for good long shaved, a price that we do not deem obtainable for parcels of any consequence.

METALS.—COPPER.—Ingot has met with a better and more general demand, and while there was a failure to greatly stimulate values sellers gained some advantage and the feeling was strong. We quote at 19@19¼ for Lake. Manufactured Copper in fair average request and ruling about steady. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do, 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 25c per lb, and Bolt Copper, 28c per lb. IRON.—Scotch Pig in store is held with a showing of considerable firmness, but many parcels arriving came to receivers who have greatly weakened since they made their investment and these supplies continue to be thrown over with considerable freedom and as a natural result at low figures. We quote at 20@24 per ton according to brand and quantity. American Pig has sold rather slowly, and, as a rule at low and unsatisfactory rates. Consumers confine their operations to immediate and actual requirements, and not a few are securing supplies from the offering of foreign. The leading companies offer carefully, but there appears to be a great many "outside lots." We quote at \$35.00@34 per ton for No. 1; \$22@24 do for No. 2; and \$20@21 for forge. Rails are in moderate demand, and hold a pretty steady position, with steel, however, having quite a decided preference over iron since the cost of the former has decreased. We quote at \$45@47 for iron and \$50@51 for steel, according to delivery. Old Rails \$23 50@24 per ton; scrap \$23@24. Manufactured Iron in uncertain demand. Quite a fair sale of structural and tank, however, has been made of late, and thus affords dealers some encouragement. Nominally we quote Common Merchant Bar, ordinary sizes at 2 2@2 3c. from store, and Refined at 2 4@2 5c.; wrought beams at 3@4c. Fish plates quoted at 2c.; track bolt and nuts, 3½c @ 3 6c. railway spikes, 2¼c., tank, 2½@2 6c.; angle, 2 7c.; best flange, 4@4 1c.; and domestic sheet on the basis of 3¾@4c. for common Nos. 10@20. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig finds only a slow sale in small lots as wanted for immediate use. Holders, however, remain pretty steady and are generally asking former rates. We quote 4¼@5c. The manufactures of lead are steady and quoted: Bar, 6¼c; Pipe, 7c., and Sheet, 7¼c., less than the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c. on same terms. TIN—Pig has had quite a little flurry since our last report and reached much higher rates, but the full advance was not sustained. Most of the demand appeared to be speculative. We quote 17¼@18c. for Australian, 18@18¼c. for Straits, 18¼@18½c. for English Refined, 18@18¼c. for do. Common. Tin Plates have been somewhat irregular with a tendency to weakness on Charcoals, but, as a rule, holders are not much inclined to shade. We quote I. C. Charcoal, third cross assortment, \$6.12½@6.25 for Allaway grade, and \$6 37½@6 50 for Melyn grade; I. C. Coke \$5.12½@5.25 for B. V. grade; \$5.25@5.37½ for Yspitty grade; Charcoal terne \$5.50@5.62½ for Allaway grade, 14x20; \$12@12.50 for do., 20x28; Coke terne, \$5@5.12½ for Glais grade, 14x20, and \$11@11.12½ for do., 20x28—all in round lots. Spelter in slow, uncertain demand, but stocks, as a rule, held steadily at about former rates; quoted 5@5½c. Sheet Zinc quiet and steady at 7¼@7½ according to quantity.

AILS.—An irregular feeling continues extant on this market without much increase in the general volume of business. In some instances sales have been larger, but buyers were always to be found operating on the basis of actual requirements and unwilling to anticipate the future. Prices must be looked upon as nominal. The list rate is "quoted," but it seems to be very well understood that \$2.75 is regularly accepted for 10d. to 60d. and we omit other figures as only calculated to mislead.

PAINTS AND OILS.—Business is without much animation and the movement of supplies confined principally to an ordinary run of jobbing parcels taken for some special necessity. This, however, is, to a considerable extent, seasonable and no revival can be looked for until toward fall. Not many additions to stock are making, but the accumulation and assortment are full enough for all present outlets and holders, in some cases, quite willing to realize. On the general run of prices no change of importance can be made. Linseed oil has found some demand, but the general tendency was in buyers' favor under a pretty full pressure of supplies and, at the close, 60c. is about the top rate from crushers' hands.

PITCH—The market moves along in about the uniform style, buyers merely taking enough for immediate requirements, and find stock to meet their call at former rates. We quote at \$1.87@2 per hbl. for city delivered.

SPIRITS TURPENTINE—Much the same general features have remained current. Demand fair for export with about the average home call, and owners retaining control of the of the accumulation, values were well sustained for a time, but subsequent increased offerings led to a decline. As this report is

closed, the quotation stands about 28@29c, per gallon, according to the quantity of stock handled.

TAR—Demand is fair for the ordinary run of jobbing orders, and buyers generally submit to former rates without much of a contest. Indeed, they cannot reach supplies unless full figures are bid, the accumulation receiving no additions. We quote at \$2.75@3 per bbl. for Newberne and Washington, and \$2.75@3 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranties. 2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he has not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

MISCELLANEOUS.

Alphonso of Arragon had a partiality for four things, viz.: dry wood for firing, wine a year old for drinking, an old friend for conversation and an old book for reading. Had he lived in our day he might have added a fifth, an Esterbrook Pen for writing.

J. L. MOTT'S

"ST. GEORGE"

ELEVATED OVEN AND

"DEFIANCE"

LOW OVEN

KITCHEN RANGES,

Suited to all sizes and styles of Buildings. Sizes specially adapted for use in Flats.

"DEFIANCE" BROILER,

A new and desirable addition to the Defiance Range

"SOCIAL"

FIREPLACE HEATER; handsome in appearance, perfect in operation, and durable in construction.

Mott's "STAR"

HOT AIR FURNACES, Unequalled for Heating Power and Economy in Fuel. Also,

MOTT'S "PIONEER"

Wrought Iron

HOT AIR FURNACES

Portable and brick set; all sizes.

GRATES AND FENDERS,

New and Handsome Designs.

ANDIRONS in Brass and Bronze, Antique and Modern Designs.

SCHWEIKERT'S Improved Patent Ash Chute.

Folding Washstands.

Patent Folding Self-Acting Urinal.

A most ingenious and desirable Urinal for private houses.

DEMAREST'S

Patent Water Closets.

Thoroughly reliable and strictly first class in every respect.

MOTT'S

ENAMELLED BATHS & WASH TUBS

IMPROVED KITCHEN SINKS,

AND ALL KINDS OF FIRST CLASS SANITARY GOODS.

All goods warranted. Estimates furnished. Send for Circulars.

All Sanitary Goods can be seen in operation at our Showrooms.

THE J. L. MOTT IRON WORKS,

OFFICE AND SHOW ROOMS,

Nos. 88 and 90 Beekman Street, N. Y.

REMOVAL

E. A. BOYD,

Successor to PLATT & BOYD, Glass Importer, 79 and 81 Murray street, has removed to his new Warehouse,

61 and 63 Wooster St.,

and

167 and 169 South Fifth Av.,

Near Broome Street,

Where he is prepared to fill orders, no matter of what magnitude.

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

Money to loan on First-class New York and Brooklyn property at 5 and 6 per cent. Choice building lots for sale in desirable localities

LEGAL NOTICES.

REGENHARD, SHEVILL & CO.—THIS IS TO certify that the undersigned have formed a limited co partnership pursuant to the Revised Statutes of the State of New York.

The name of the firm under which said co-partnership is to be conducted is **REGENHARD, SHEVILL & CO.**

The general nature of the business intended to be transacted is that of importers and dealers in confections and confectioner's materials.

The names of all the general partners are as follows: Herman Regenhard, who resides at the city of Jersey City and State of New Jersey, and James B. O. Shevill, who resides in the city of Brooklyn in the State of New York, are the general partners, and Randolph N. Bowlby, who resides in the city of Brooklyn, is the special partner

The amount of the capital which the said special partner, Randolph N. Bowlby, has contributed to the capital stock is the sum of five thousand dollars

The period at which said co partnership shall be deemed to have commenced is the 1st day of May, 1880, and at which it is to terminate is the 1st day of May, 1882.

Dated on the 25th day of May, 1880.

H. REGENHARD,
JAMES B. O. SHEVILL,
General Partners.
R. N. BOWLBY,
Special Partner.

C. W. SWEET,

No. 137 BROADWAY

THE LATEST VALUATION OF NEW YORK REAL ESTATE.

The assessment rolls presented to the Board of Supervisors, on Monday last, increase the valuation of real estate in the city and county of New York by \$24,437,310. As there will be little, if any, change from the figures submitted by the Commissioners of Taxes, we risk nothing in accepting their figures as the official exhibit of the value of realty in the twenty-four wards of the city of New York. It is evident, as shown by the table printed elsewhere, and as explained in these columns only a few weeks ago, in reply to a communication from a down-town property-owner, that valuations in the Seventh and Thirteenth wards have decreased. These localities are, for the time being in a transitory state; property there is dormant, and the time has not yet arrived for enquiry in regard to the various sites they offer for manufacturing purposes. When that demand sets in, as surely it will, the region covered by Market, Rutgers, Attorney, Ridge, Pitt, Willett, Lewis and Goerck streets will no longer show a decrease of value. In so far the commissioners taking an actual survey of the condition of our city have acted in accordance with a judgment with which no expert can find fault. But how is it with the other down-town wards? The increase in valuation in the First ward is only \$966,000, and in the Third ward \$395,250. And yet, at no previous time during the past ten years has the business property held for investment, and paying magnificent returns, had such a start as it received during the past twelve months. Improvements that would have been ridiculed, five years ago, have been started below the Post Office, all the way down to the Battery, around and along Broadway and Wall street, fixing a permanency for that centre far in excess of any anticipations entertained by the tax commissioners a few years ago. The Boreel building alone, at 115 Broadway, without naming the magnificent bank building now going up on the corner of Wall street and Broadway, the beautiful office building now being constructed on the corner of Exchange place and Hanover street by the Post estate, the improvements in Wall street proper by insurance companies and other firms, the extension of the Stock Exchange, denoting its permanency as to a future abode, aside of the completion of the Coal and Iron Exchange and the Smith building in Courtlandt street, and many other important changes in the lower part of Broadway and cross streets; all these have, within the last eighteen months, given a permanency to that section of the city, of which investors have well known how to take advantage. It does not show, on the part of the tax commissioners—who pride themselves upon being thoroughly posted as to market values—a sharp or shrewd insight into the spots whence

are derived the actual increased returns by investors. They have, for instance, increased the valuation of Nineteenth ward property to the extent of ten millions of dollars, because the Vanderbilts have chosen to select their habitations in the Fifth avenue, and hence, as a tax commissioner stated the other day to a reporter, the increase there is simply owing to the influx of the Vanderbilt family. Real estate has not risen in value, even along Fifth avenue, owing to the movements of the Vanderbilts, at the ratio in which it is "bulled" by the tax commissioners, but Nineteenth ward property has been heretofore assessed altogether too low considering the enormous amount of improvement. The conclusions arrived at by the Commissioners may be right, but the reason for arriving at these conclusions is simply ridiculous. The fault is, they have assessed it in accordance with their own notions of values, but not in accordance with strict market values. The owners of numerous new buildings erected in the Nineteenth ward, will find that it is rather an expensive piece of business to be located in a section that is to be controlled by the Vanderbilt status.

As to Twelfth ward property, located most north of Central Park, the increase seems to be justified by the facts, as whole tracts of vacant lots have been improved there during the past twelve months. But the increase of nearly one million in the Twenty-first ward, where there has been little but speculative dealing, and but little improvement, ought not to have been countenanced by the commissioners. A careful study of the columns of THE REAL ESTATE RECORD would have kept the commissioners abreast of the real estate market, and, while we do not take exception in the least to the total increase of valuation on Manhattan Island, we simply desire to express our astonishment that the commissioners, with the data ready at hand, and basing their assessments upon actual "market prices," made their valuations in the various wards at figures which will make the most docile taxpayer despair that the definition of the word "equalization" will ever be understood by officials in its true sense. The way this table is made up, is "equalization" in accordance with common street talk, and in pursuance of sensation articles on real estate published in the daily papers. Whenever it shall be understood in the tax office that no sensation article can ever affect values of realty, and that no "boom" will ever control the whole of Manhattan Island, but only in certain localities, then, and then only, will we have assessment rolls showing, indeed, true equalization of taxes in the twenty-four wards of New York city.

The determination of owners of ocean steamship lines to locate their business above Twenty-third street, along the North River, will give a fresh impetus to a sorely neglected portion of the city. The Dock Commissioners, anxious to accommodate the various steamship lines, are already preparing plans for the construction of seven piers, which will command a yearly rental of \$20,000 each. If these piers were ready now, they could be rented without difficulty, as all the owners of ocean lines now see plainly that they can handle passengers and freight to a greater advantage on this side of the Hudson than they could on the Jersey

or Brooklyn shore. When these piers are all completed, of course that section of West street will present a contrast to the present state of affairs, such as will be thoroughly relished by all property-owners.

HAVE STOCKHOLDERS ANY RIGHTS WHICH JOURNALS OUGHT TO RESPECT.

That demagogism is not confined to politicians is evident by the manner in which the leading daily journals again urge upon the elevated roads the adoption of the five cent fare rule. This question was discussed in all its bearings, fully and elaborately, during the recent session of the Legislature. THE REAL ESTATE RECORD then maintained that the adoption of this rule, in the absence of any accurate data in regard to the cost of maintenance and the various improvements yet to be made all along the East, as well as the West Side lines, would be ruinous to the stockholders. We desist to-day from repeating the various arguments then set forth in these columns, which were endorsed by legislative action, but we wish to ask those editors who clamor for five cent fares, whether they think that the capitalists have any rights at all in the premises. They may prate all they please about the magnificent franchises conferred upon these corporations, but how and in what manner do these franchises compare to the great and profitable boon conferred upon New York City by these elevated corporations. Why did those public spirited men, who for years talked about "rapid transit," not put their hands in their pockets and construct a road—that has given life and activity to the property interest of New York, that has brought back thousands of citizens to our island, heretofore residents of Brooklyn and New Jersey, that has thrown a veritable calcium light upon the hitherto unexplored West Side, and has kept the temper of merchants and business men in a mood free from vexation, such as was provoked by the hanging on to straps in the horse cars, and led to subsequent irritations in business transactions not easily to be computed. Why, why, we ask, was all this not done by others? The grand franchise of which we hear so much was open to them, as well as to the present stockholders of the elevated road. Why did they not put their hands in their pockets and build, for instance, the magnificent Metropolitan Road? The stockholders who now resist the clamors, not of the people but of those would-be leaders of public opinion, occupying temporarily editorial chairs, did put their hands in their pockets. They have paid in their cash and have done New York City great service, have helped its business, improved its waste property and infused life where heretofore there was lethargy. They are men of business, however, satisfied, it is true, with their investment; but they also demand an opportunity to see how this is all going to work. The great public is satisfied to pay ten cents from the Battery to the Harlem River. The theoretical editors of the daily press, however, simply to keep up a mere sensation, are anxious to fan a flame, for which, just now, there exists no fuel.

LAWS OF NEW YORK.

LOCAL IMPROVEMENTS.

CHAPTER 556.

AN ACT relating to certain local improvements in the city of New York.

Passed June 10, 1880; three-fifths being present: The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The comptroller of the city of New York is hereby authorized to inquire into the facts and circumstances under which the contracts for the following works of local improvements were made and entered into by said city, namely: for regulating, grading and setting curb and gutter stones and flagging sidewalks in Eighth avenue, from the centre of Fifty-ninth street to the centre of Seventy-seventh street; from the centre of Eighty-first street to the centre line of One Hundredth street, and from the centre of One Hundredth street to the centre line of One Hundred and Twenty-second street; in One Hundred and Twenty-third street, from Eighth avenue to New avenue; in One Hundred and Fourth street, from Fifth avenue to East river; in One Hundred and Thirty-fifth street, from Eighth avenue to the Harlem river, and in Ninth avenue, from Eighty-sixth street to One Hundred and Tenth street; for forming outlet sewer in Seventeenth street, from Hudson river to and through Eleventh avenue and Twenty-third street to near Tenth avenue; and in Seventeenth street, from Eleventh avenue to and through Tenth avenue to Fourteenth street, with branches; for forming outlet sewer in One Hundred and Eighth street, from Hudson river to Boulevard, to One Hundred and Tenth street to Tenth avenue, with branches in Boulevard, One Hundred and Fourth and One Hundred and Seventh streets; for paving Thirtieth street, between First avenue and East river; for paving Second avenue, between Eighty-sixth and One Hundred and Twenty-fifth streets; and for paving Madison avenue, between Forty-second and Eighty-sixth streets; and if satisfied that the several contracts relating to the said respective improvements were made and entered into by the parties thereto, with the intent and understanding that the city was to charge and receive interest on the various payments made on account thereof from the date of payment to the date of the completion of the work, and not to the date of the confirmation of the assessment, and that the said several contracts were made and entered into in good faith, and that the rates and prices therein charged were fair and reasonable, he shall, on being so satisfied, ascertain and determine the amount of interest at the rate specified in said respective contracts, on the several payments made by the city on account of the work under each contract as the amount progressed from the date of the respective payments to the date of the completion of the work, and the difference between the amount so ascertained and determined and the amount charged and retained by the city against the said contracts, respectively, as interest on the several payments from the date of each payment to the date of the confirmation of the assessment, shall be paid by the city to the respective contractors or their representatives, with interest from the date of the completion of the work, under the respective contracts as aforesaid.

SEC. 2. The said comptroller shall ascertain and determine the date or dates upon which the said contracts for regulating and grading, and setting curb and gutter stones, and flagging* sidewalks in Eighth avenue, but for delays caused, for which the contractors were not responsible, would have been completed, and the date or dates so determined, independent of any certificate, shall be taken to be the time the work under said respective contracts was completed, and to which interest on the payments as aforesaid is to be charged against the contracts.

SEC. 3. In determining the amount of interest to be charged against the respective contracts specified in the first section of this statute, the said comptroller shall have exclusive and final power to inquire into the facts, and ascertain if the work under the said contracts, or either of them, was delayed by the acts of the city, its officers or agents, and if, in his opinion, there was such delay, then during the continuance of such period of delay, as he shall certify, no interest shall be charged against the contracts.

SEC. 4. To provide for the payments by this statute authorized, the comptroller is authorized to issue revenue bonds of the said city in anticipation of the taxes of the city for the year eighteen hundred and eighty-one.

SEC. 5. All assessments hereafter imposed for local improvements in said city shall be made by the board of assessors on the following certificates, to wit:

1. The head of the department charged with the execution of the work in question, shall certify to

the said board of assessors the total amount of all the expenses which shall have been actually incurred by the mayor, aldermen and commonalty of the city of New York on account thereof.

2. The comptroller shall certify to the said board of assessors the amount of the interest, at the legal rate, upon the several installments advanced, or payments made on account of such work, from the time of such payment or advance by the city to a day sixty days after the date of such certificate. Thereafter, the said board of assessors shall assess upon the property benefited, in the manner now authorized by law, the aggregate amounts of such certificates, or such proportion thereof as is now authorized by law, and the said board shall not in any way be enjoined, restrained, hindered or delayed in the performance of this duty; provided that nothing herein contained shall be construed to affect the existing powers of the board for the revision and correction of assessments.

SEC. 6. All contracts for local improvements in said city now in course of execution shall be proceeded with and completed pursuant to the terms of said contracts respectively, and the expense of such improvements shall be assessed upon the property benefited, as in the preceding section specified. The time for completing the work under the said contracts respectively, in all cases where the time allowed by the contract for completing the same has not expired, is hereby extended sixty days; and in all cases when the time has expired, the same is hereby extended for sixty days from the date of the passage of this act.

SEC. 7. This act shall take effect immediately.

* So in original.

THE CITY'S PROPERTY.

REAL AND PERSONAL PROPERTY AS ASSESSED BY THE COMMISSIONERS.

The following schedule of valuation of the real and personal estate in the City of New York has been submitted to the Board of Supervisors for their confirmation by the Tax Commissioners:

REAL ESTATE.			
Wards.	Valuation, 1879.	Valuation, 1880.	Increase.
I.....	\$52,089,726	\$53,056,526	\$966,800

THE WEST SIDE ASSOCIATION.

WHAT HAS BEEN ACCOMPLISHED DURING THE PAST SEASON.

The officers of the West Side Association have published in pamphlet form the report of the doings of the Association to July 1st, most of which have been noticed in these columns. The report of the Committee on Laws and Legislation refers to the failure of the street opening bill prepared by Mr. Simeon E. Church, but it assures property owners that the Corporation Counsel has consented to open

all the unopened streets on the West Side at once, and that proceedings are now being taken for that purpose. A determined effort has been made by the Association to abolish the shanties on the West Side. The bill introduced into the Legislature, in aid of this movement passed the Legislature, but did not receive the approval of the Governor. The bill was deemed necessary, partly by reason of the uncertainty of the existing building laws and the powers of the departments, and partly through the neglect of the departments to enforce the laws. As the matter now stands, the shanties can be removed most expeditiously by the co-operation of the lot owners, and a large number of them have signed an agreement to unite in the movement. Of the twenty-five hundred shanties on the West Side, containing a population of over twelve thousand persons, several hundred have already been demolished, and their occupants have dispersed to other sections of the city. It is the intention of the Association not to relax its efforts in this direction, but to induce the property owners and the city officials, whose duty it is to attend to this matter, to cause the abolition of all the shanties from the West Side at an early day. Immediately after the reorganization of the Association, two important matters claimed its attention; one, the completion of Manhattan square, and the other the site for the proposed World's Fair. An appropriation of \$20,000 was secured for Manhattan square, and has been followed by a further like appropriation for that improvement. A large part of the work was done, and the money expended without the previous adoption by the Park Department of any plan for the improvement, and now owing to the differences in that department, the work is practically suspended. The property owners in the neighborhood are naturally very indignant at the delay and the inefficiency shown in the prosecution of this work.

Various sites were suggested on the West Side for the World's Fair, but, on account of the existence of rival committees, it was thought best to defer further action until the appointment of the commission legally authorized to decide the matter, when the Association can take such measures with reference to the subject as it deems proper. A very laborious part of the business of the Association has been the work of procuring the opening, regulating, grading, sewerage, paving and otherwise improving of streets and avenues on the West Side. A brief summary of work accomplished of this character is annexed to the report.

Mr. Dwight H. Olmstead, the president, in closing his report says:

"The Association has been treated with the utmost courtesy by all the officials and public departments of the City, and every encouragement and reasonable aid has been given to it in its work. The Board of Aldermen has promptly adopted all necessary ordinances for work required to be done. The Association will continue to prosecute the same general objects as heretofore. Many matters require and will receive its especial attention, such as the completion of the West Side Parks, the removal of shanties and telegraph poles, the shifting of the Eighth avenue horse railroad to Ninth avenue, the regulating, grading, sewerage, paving and other improvement and ornamentation of streets, building operations, rapid transit, transfers of titles and changes in the present recording laws, taxation and local assessments, sanitary matters, the methods of municipal administration and the preparation and passage of legislative bills."

MARKET REVIEW.

For list of lots and houses for sale see pages IV and V of advertisements.

REAL ESTATE MARKET.

The Exchange Salesroom was very sparsely attended during the past week and the result was that many offerings were adjourned to a future date. The sales that did come off were all knocked down to the plaintiff, who once more has possession of the auction room. In this manner, some St. Nicholas avenue and also Claremont avenue property was sold during the week for about the amount due on the same. The East River Savings Bank, as plaintiff, purchased 178, 180, 182 and 184 Cherry street, being two brick stores and a brick brewery in rear, for \$30,000. No. 152 One Hundred and Twenty-fourth street elicited considerable bidding but was finally knocked down to plaintiff for \$5,400.

For next Tuesday, Mr. James L. Wells announces a partition sale of Third avenue property on the southwest corner of Fiftieth street, five four-story brick stores and dwellings and 158 East Fiftieth street.

GOSSIP OF THE WEEK.

In the midst of a tropical heat, of course, it is not to be expected that great activity should characterize the real estate market, the exertions of the brokers being controlled to a large extent by the state of the atmosphere. Nevertheless, we take

pleasure in announcing the sale, at private contract, brought to a successful issue by George W. Raynor and W. G. L. King, of twelve lots on the south side of One Hundred and Twenty-seventh street, 100 feet east of Eighth avenue, for \$2,850 each.

From Long Island, we hear of the purchase, by Mr. Jesse Mott, of Mr. Hiram Ackerly's farm, at Centre port, for \$2,000.

The new commission for the revision of assessments was organized on Tuesday last, and on motion of Mr. Andrews, Comptroller Kelly was directed to furnish to the Commission a statement showing the title of the local improvements for which assessments were confirmed prior to June 9, 1880, on which arrears are due, the date of their confirmation, the total amount of the assessments, the amount vacated by the courts, the amount paid by property owners, and the amount remaining unpaid on April 30, 1880.

It is announced that the first meeting of the incorporators of the World's Fair will take place in this city on August 10, and that the first action to be taken after organization, will be the appointment of a special committee to select a site. This committee, it is generally believed, will be composed of commissioners thoroughly acquainted with the topography of our city and suburbs.

The following are the sales at the Exchange Sales-room for the week ending July 9:

* Indicates that the property described has been bid in for plaintiff's account:

*Cherry st, n. s. abt 160 e Market st, 81.8x200 8 x100, irreg. East River Savings Institution. (Amount due, abt \$42,800) ...	\$30,000
Henry st (No. 204), s. s. 23 9 w Clinton st, 23.9 x 100. Thomas B Brady, defendant. (Partition sale) ...	9,000
*45th st, s. s. 325 w 10th av. 23x100.4 H. C. Van Post, guard. (Amount due, abt \$11,400) ...	10,000

Total	\$82,100

BROOKLYN, N. Y.

In the City of Brooklyn, Mr. T. A. Kerrigan has made the following sales for the week ending July 7:

*Baltic st, n. s. 225 e Smith st, 25x100, to Phebe A. Lott	\$1,500
Bergen st, s. s. 325 e Grand av. 50x262 to Wyckoff st, to Alice E. Harrison ...	3,000
*Crown st, s. s. 67 e Albany av. 95 10x261.11 to Montgomery st. x96 8x261.4 ...	
Albany av, n. w. cor Carroll st, 222 7x11.11 to William F. Russell (recvr) ...	305
*Dehevoise pl, w. s. 100 5 n De Kalb av, 21x 165 10, irreg., to Sarah Ann Boyd ...	6,100
Ewen st, e. s. 25 s McIlhenny st, 20x75x25x75, to Michael Hessberg ...	85
*Hoyt st, e. s. extdg from 3d to 4th st, 190.9x257.4 x19.9x274.6, to Geo. W. Stanton Jr. (exr) ...	5,000
*Monroe st, s. s. 384 e Reid st, 19.11x100, to Prince H. Foster ...	1,400
*Plymouth st, s. s. 50 e Jay st 65x100, irreg, to Frederick R. Fowler ...	500
*Prince st, e. s. 181 n Johnson st, 21x95, to Charles Powell ...	2,000
*Sackett st, s. s. 145 w Bond st, 20x75, to Mutual Benefit Life Ins. Co ...	3,000
Smith st, e. s. 80 s Sackett st, 20x80, irreg. Wilhelmina Schmit ...	5,510
Wyckoff st, n. s. 230.2 e Court st, 23x100. William Taylor ...	4,500
3d pl, s. s. 201 w Clinton st, 19x133.5. A. E. Orr ...	430
*Bedford av, e. s. 40 w Gates av, 20x85. Mutual Life Insurance Co ...	2,000
*Gates av, n. s. 113 e Grand av, 24x91.2. F. R. Boerum ...	10
*Kent av, e. s. 550 n Myrtle av, 25x200. Joseph C. Hacker. (Morts. \$900) ...	1,000
*Miller av, w. s. 151 s Division av, 49x100. Jane E. Voorhees ...	1,000
*Park av, n. s. 75 e Portland av, 22 x abt 83. Peter Lott ...	2,500
*3d av, n. w. cor 16th st, 88.4x59. Cornelia Strong ...	6,000
*5th av, w. s. 24 n 19th st, 16.6x80. Daniel Doody ...	540
11 1/2 acres, Flatlands, adj lands of Vanderveer Remsen and Oecksler. Samuel Joseph ...	1,850
Total	\$48,495

BUILDING MATERIAL MARKET.

BRICKS.—The holiday caused a temporary check to consumption in some cases, but it also had an influence in reducing receipts, and the general market has held steadily in consequence. A great many captains and crews spent the "Fourth" at home, and this prevented much loading until about Wednesday and Thursday, so that cargoes for this week ran a little behind in number, with probably the greatest falling off from the vicinity of Haverstraw Bay. Buyers appear to have understood this well enough to remain free from excitement, and while paying full former rates would not submit to an advance. Average cost has ranged at about \$5 for "Up Rivers," and \$5 50@5 75 for Haverstraws, with small variations either way, according to quality, delivery, etc. As a rule, the condition of the stock has been very good for some time, the protracted "dry spell," resulting in an absence of washed brick to any extent, and bringing in some extra fine cargoes. The production continues without much abatement as yet, though occasional rumors are circulated of an intention to reduce work somewhat. Pale Brick continues to hold their own quite as well, if not better than other grades, the supply failing to meet the requirements of the demand which comes principally from Brooklyn, Harlem and the annexed district of Westchester. Fronts from Croton Point are sold close up to productions, and there is also a good demand for Philadelphia's and Trenton's, and Baltimore's finding relatively as good sale as other descriptions.

DOORS, SASH AND BLINDS.—At the moment the general market is somewhat quiet, and without special features of interest. More or less stock goes out but mainly on the ordinary run of orders, and simply in satisfaction of what may be called a regular trade demand. Manufacturers and dealers, however, report that the business has been first rate all the season, and that a large amount of stock has gone out. Local wants were full, the shipping call free from most home sources with a good proportion of export orders and this industry has participated in the animation shown on pretty much all articles of merchandise. The present quietness is considered simply a natural midsummer lull and a good fall trade is looked for. On prices, about the former general range of figures are retained but special rates can be obtained for large orders, regular contracts, etc.

HARDWARE.—Business continues generally moderate and uncertain, and the market, as a whole, somewhat stupid. Naturally more or less of this condition of affairs is to be expected during the midsummer season, but there is evidence to show that matters are worse than usual in many respects, without repeating the many well known causes which have produced the result, it is sufficient to say that buyers do not want liberal supplies, and cannot be attracted into operating until their actual necessities require it. There is likely to be more doing this month at the reduction on cost taking place, but there is nothing to indicate that the interior will stock up freely. The revision of price lists is becoming more general, and among the changes recently made we note the following:

Henry Liston & Sons announce discounts for the coming season: Pages 11 to 17, inclusive, except Segment Saws, 35 per cent; page 12, Segment Saws, special rate; pages 18 to 32, inclusive, 20 per cent; pages 33 to 35, inclusive 25 per cent; pages 39 to 53, inclusive, 20 per cent; pages 54 to 58, inclusive, 25 per cent; pages 59 to 81, inclusive, 20 per cent; pages 82 to 88, inclusive, 52 1/2 per cent; pages 89 to 91 71 per cent; page 92, Files, 30 per cent.

The Nicholson File Company announce the following discounts on the list issued July 1, 879: Nicholson Files, 30 per cent; Royal Mill Files, above 8-inch, 40 per cent; Royal Files, all other kinds, 50 per cent; Tools and specialties, net.

The New England Butt Company adjust prices to conform to those of other makers on Cast Butts, and also announce discounts as follows: Barn Door Hangers, R. Jt and Rail, 25 per cent; Sliding Door Rolls and Way, 20 do; Cistern Tops and Covers, 15 do; Butterworth's Window Springs, net.

The agents now quote Coe's Genuine Screw Wrenches of either make at 50 per cent discount from list. Mechanics' Wrenches, made by L. Coes & Co., and similar quality by A. G. Coes & Co., will continue to rate at 10 per cent less than the "Genuine."

The manufacturers of Bright Wire goods have agreed upon discount 60 per cent, with an additional 10 for prompt cash; they also make the following changes in the list prices of Stair Rod Eyes: Bright \$1 15 per gross, Bronzed or Japanned, \$1 40, and Brass \$5.

The manufacturers of Cabinet Locks have readopted the list current previous to January 1st, but the discount remains as before, 10 per cent.

At a meeting of the manufacturers of Copper Rivets and Burrs, the former list was retained, but the discount changed to 45 per cent.

The Tack manufacturers have issued a new price list, which shows an average reduction of 12 1/2 per cent; Cut are quoted at 25 per cent off.

LATH.—Demand has not been very active, but the supply offering up the present writing has also proven small and the market was held in a fairly uniform position. According to influences of delivery, size of invoice, etc., some few small variations in cost have occasionally taken place, but not enough to disturb the general cargo rate which remains at \$1.50 per M. Letters from manufacturers shown us

this week contain complaints of current rates as unremunerative, and also express a determination to curtail shipments unless an improvement is promised.

LIME.—The strong tone noted in our last has been maintained, and, indeed, made some headway with receivers asking an advance of 10c. per bbl., all around. Demand has improved and exhausted the somewhat increased offerings and buyers do not, as yet, appear to be all satisfied, a great many of the yards now being pretty well down in stock and the consumption tending to increase. There is continued complaint from manufacturers of an absence of profitable margin.

LUMBER.—Although the national holiday occurred during the early portion of the week, its influence appears to have been more or less prostrating on business throughout, and reports are generally dull. Many of the trade continue to calculate with much apparent confidence on what they expect will come in the future, but very few find the present position encouraging. New demand is not only very light but apparently quite indifferent, beyond such parcels as may be wanted for immediate use, and all attempts to induce buyers to move beyond this line are failures. It does not seem to be so much an objection to cost as a determination to confine purchases to actual necessity, and a further shading on prices would not probably help matters much. The accounts from primary points are somewhat conflicting, but generally assume a firmer tone inland, and an increasing business is spoken of. Stocks here show a slow accumulation.

Spruce shows more or less irregularity, but not much strength. Buyers compelled to order an extra difficult schedule would have to pay well for it, as the mills likely to meet the want are pretty full on orders, and this gives them an advantage for new contracts. So also would a choice random sell fairly. There is not, however, much in the way of a direct demand, and the average offering has no certain basis of valuation, while common stock would have to be shaded materially. On random \$3@15 is quoted, and specials at \$15@17, with extra difficult as high as \$18 per M.

White Pine has been selling moderately on home account and commanding former rates, and meets with more or less call for shipment. The latter is mainly on West India account, the inducements on the South American outlet proving very light at the moment. No decided change on values, but they lack buoyancy. We quote at \$17@19 per M for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine has only a slow and uncertain sale and the market is somewhat nominal. Holders ask about former rates, and seem inclined to resist concessions, but buyers are not pressed for stock and stand off, hoping to force a decline. The mills generally are in better shape to receive orders. We quote random cargoes at about \$24@26 per M.; oriented cargoes, \$27@27 1/2 do.; green flooring boards, \$27@27 1/2 do.; and dry do. do. \$26@28. Cargoes at the South \$6@18 per M. for rough, and \$20@22 for dressed at Gulf ports.

The receipts of Yellow Pine at the port of New York for the first six months of the past year compare as follows:

	1880.	1879	1878.
January, feet.....	8,641,674	3,734,978	6,120,484
February, ".....	9,587,325	8,558,191	4,846,500
March, ".....	9,435,135	8,533,692	5,887,800
April, ".....	10,816,494	8,382,946	7,443,471
May, ".....	14,259,839	6,642,237	7,641,773
June, ".....	14,712,759	9,435,100	6,961,235
Total feet.....	67,491,206	45,287,184	38,901,263

Hardwoods not very active, but the accounts from primary points are strong and supplies held with firmness and confidence. We quote at wholesale rates by car-load, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do c. l. s. \$1@20 do cherry, \$45@55 do; white wood, 1/2 and 5/8 inch, \$25@27 1/2 do. and do inch, \$3@35 do; hickory, \$35@45 do, for Western, and \$65@75 for good nearby stock.

Shingles in about the same average demand including a sprinkling of export orders, and dealers quote at former rates. We quote Cypress at about \$6 for saps, and \$8 50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2 50@4 50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch \$16@22 25 for A and \$28 75@33 25 for No 1; for 24-inch \$5 50@16 for A and \$16 75@23 for No 1; for 20-inch \$5 50@10 50 for A and \$11 25@11 75 for No 1.

Among the yards there is a fair average trade for the season of the year, and values in a general way may be written about steady.

From among the lumber charters recently reported we select the following:

An Am brig, 374 tons, from Portland to Cuba, lumber, \$7; a schr, 148 tons, hence to South Side Hay 1, lumber, \$7; a schr, 170 M lumber from Brunswick to New York, \$7.50; a schr, 280 M lumber, from the Gulf to New York, \$10; a schr, from Portland to New York, lumber, \$2.25; a schr, 142 tons, same voyage, \$2.12 1/2; a schr, 295 tons, from Pensacola to Boston, lumber, \$9.25; a brig, 200 M resawed lumber, from Fernandina to New York, \$8.

We find the following in the *Northwestern Lumberman*, respecting one of the principal lumber firms in this city :

The well known and enterprising firm of Dannat & Pell, who have the largest yards and do the largest lumber business of any firm in New York, are embarking in a new venture, which will eclipse any of their previous efforts. The firm has purchased a large tract of heavily timbered land, and are negotiating for an adjoining piece of property which, when in their possession, will give them more than 5,000 acres of some of the best lumber territory in the State. The hills are covered with a fine growth of pine, ash and cherry, and, in fact, with all the woods common to the Adirondack regions. This property lies on the Black river, about 50 miles north of Utica. Dannatsberg is the name given to the new village, which is beautifully located in the midst of a charming country, on the banks of a clear and limpid stream, which abounds with numerous kinds of fish, the principal of which is the speckled trout, ranging in weight from a few ounces to a pound and a half. The mill where the lumber is manufactured is well located upon an unfailling stream of water, with a fall of 16 feet, equal to 1,000 horse-power. The building, 100 feet square, is completely equipped with the best of machinery, and has band, veneer and circular saws, and all the modern appliances necessary in a first class establishment. The capacity is from 50,000 to 60,000 feet per day, or 20,000,000 feet a year. In addition to this building, another large mill is going up, which will give them all the facilities for manufacturing that they will need for years. To aid the transportation of timber, a tramway, 12 miles long, has been built from the forest past the mill to the Black river canal. Forty horses and a large force of men are employed in handling the lumber. The village has been built to accommodate the workmen, and the proprietors have residences in it, as well as the superintendent and managers.

GENERAL LUMBER NOTES.
STATE.

The Albany lumber market, for the week ending July 6th, is reported by the *Argus* as follows:

The sales in the District since our last report have not only been very free, but they have covered some large parcels; this was not expected at this particular time of the year, the advent of "the Fourth" being almost always a dull week. Buyers have been here from New York and vicinity in large numbers. Prices of pine lumber are unchanged and are very strong with an upward tendency. The stock here still consists mainly of dry lumber and is in good assortment; new cut is arriving slowly. Among the round lots reported sold are two of about 750,000 feet. Outside of this market, but reported as having been sold within a few days, is the cut of one mill at Hull, on the Ottawa, which, it is said, will cover 20,000,000 feet, and 9,000,000 feet by Peter McLaren, of Carleton Place, on the Ottawa, to American parties. In coarse lumber we have a steady trade to report; the demand from New York grain shippers continues very active; prices of both spruce and hemlock are very firm with a strong upward tendency. The receipts continue fair, though the make at some of the Northern mills is shipped close up for want of water. The receipts of lumber by lake at Buffalo for the week are 9,788,560 feet. At Oswego, 2,100,400 feet.

The receipts at Albany by canal from the opening of navigation to July 1st were :

Bds & Sctg. ft.	Shingles, M.	Timber, c.f.	Staves, D
1879..	75,942,100	1,296
880..	115,060,600	150	5,400

Freights from Bay City to Buffalo and Tonawanda, \$3.25 @ M. feet; from Saginaw, \$2.50. From Buffalo to Albany \$2.75; from Tonawanda to Albany, \$2.65 @ M. feet. Lake Ontario freights from Port Hope to Oswego, 9' c. @ M. feet, from Toronto to Oswego, 100c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M. feet.

THE WEST.
SAGINAW VALLEY.
Lumberman's Gazette Office,

BAY CITY, July 4, 1880

The market remains in the same agreeable condition which has prevailed for some weeks past, although the recurrence of the national holiday has tended to restrict transactions somewhat. Nevertheless the sales for the week have been liberal and at good prices. The sales include 500,000 feet at \$7.50, \$15 and \$35; 2,000,000 at \$7, \$14, \$33; 800,000 at \$7.50, \$14.50 and \$30.50; 1,000,000 feet at \$7, \$14 and \$35; 500,000 feet at \$7, \$14 and \$30, besides other lots at the same figures, and some coarse stock at \$6.50 and \$13. The feeling is strong that the favorable condition of the market will continue throughout the season.

Freights remain about the same, being \$1.25 @ 2.50 to Buffalo, and \$1.50 to \$1.75 to Ohio ports.

We quote cargo rates:

Three upper quantities.....	\$30 00 @ 35 00
Common.....	13 00 @ 15 00
Shipping cills.....	6 50 @ 7 50
Lath.....	1 25 @ 1 50
Shingles, XXX.....	2 90 @ 3 00
" clear butts.....	1 90 @ 2 50

The following are the shipments for the season to July 1st:

	1878.	1879.	1880.
Lumber, ft.	198,736,612	195,714,811	273,408,974
Lath, pcs.	14,069,000	10,584,750	11,173,250
Shingles.....	57,376,500	80,121,250
Staves.....	5,442,9	1,326,500
Hoops.....	5,603,000	6,418,000	2,575,809
Timber.....	212,000	87,310

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., June 30, 1880. }

The logging business on the river for the week has been nominal and few changes in price have been made, there being quite a difference in the views of buyers and sellers. In the matter of sawed lumber, we quote an appreciable advance of at least \$1 per M for lumber in the water. Wisconsin boards and strips are held at \$16 at St. Louis and good dimension at \$11. The mills along the river have resumed operations, but many of the saws on the Chippewa must remain idle for many weeks to come. Chicago has at last so far got the advantage of the "bears" that \$8.75 is freely paid for piece stuff, which costs \$2 to dry and sell, leaving it sure that yard figures on this staple must advance, even if the movement involves the sacrifice of a few people who have contracted at the low figures heretofore dictated by the buyers. The crops of the West now promise to be more than the farmers anticipated in planting, with the exception of the highlands of western Kansas and Nebraska and the low bottoms along the Mississippi. The key to the lumber business is the prosperity of the farmers, and all the signs indicate a grand fall for both. An advance at Hannibal and a prospective one at St. Louis and Burlington on yard figures is a good indication of the feeling all along the line of markets from Minneapolis to St. Louis. For some unimaginable and unexplainable cause (unless it be the Chicago "bear" organ's raid on prices last week) Davenport reduced her list 50 cents, she still averages with the rest on most articles. A few who have taken the "bill stuff" fever and are now running high grade logs into heavy timbers at common lumber prices in order to get rid of the product of their mills, and, flattering themselves that they have been peculiarly sharp in getting the job, will certainly wish they had declined, before the close of the year. The late floods have reduced the cut of lumber at least 200,000,000 feet on the river, which will have its effect for a year to come, in spite of all the pestiferous crowd at Chicago can do with their organ in misrepresentation. Our readers will find this subject discussed elsewhere in the paper. The shipment of 3,640,000 from Minneapolis tells the story of a continued good demand at this point. The only cut is made on green bill stuff, which foolishness will now be abandoned.

NORTHWESTERN LUMBERMAN, }
CHICAGO, June 30, 1880. }

The general situation of trade, as described by the *Lumberman's* correspondents at the various markets of distribution, is certainly a shade better than it was a week ago. The demand has improved, and at many points may be called moderately good, without in any way doing violence to the facts in the case. Even in this city, where most of the complaints have been made heretofore, the shipments show a considerable gain over those for the corresponding time last year, indicating that orders are coming in a little more freely. The tenor of our correspondence, too, goes to show that the movement of lumber is increasing generally, which perhaps warrants the opinion expressed by many that a boom is already in motion which promises to rival the remarkable one experienced in the trade in 1879. These indications, however, are to be scrutinized very carefully, and great caution must be used to avoid mistaking a false and temporary boom for the true and permanent one. It must not be forgotten that it is early in the season, and hardly time yet for a brisk demand to set in. It may be that the present increase is only a trifling flurry, that will be followed by a period of comparative dullness. We do not wish to assert that such is the case, or even that we think it is; we desire merely to call the attention of our readers to a possibility which they cannot afford to overlook. It is well to be prudent in the matter, and not make the serious mistake of accepting a state of things as established which exists as yet only in the shape of a prob-

bility. The trade is certainly not in a desperate strait, and there is hence no necessity that desperate measures should be taken for its improvement; and this being granted, it seems to the *Lumberman* altogether better to let it pursue its own course for a time, than by acting rashly upon the hasty conclusion that the boom has started, to incur the danger of making it worse than it has been at any time this year.

While there has been no general change in prices, reports from several points show that they are firmer and tending upward. The Winona, Minn., dealers added \$1 to some items in their list, and at one or two other points slight differences are noted in the quotations. There is unquestionably some shading from the published figures in a few markets, the dealers preferring this manner of getting down to the accepted standard of prices, to making a definite change in the lists. In most cases, however, there is but little disposition to sell below the quoted rates, and this feeling of firmness is undoubtedly increasing. That it will eventually result in a general advance seems to be the opinion of most of the operators, but it would be difficult at this time to say when such a thing may be looked for.

The lumbermen of this city held a meeting to-day to discuss the situation of trade and prices, but it resulted in nothing but a pretty forcible statement of the views of the two opposing factions in this market—the manufacturers and the dealers. A motion was carried that the price of piece stuff out of the yards, be fixed at \$9.50 for green and \$10.50 for dry; but, as the vote for it was not by any means unanimous, it will probably have no effect upon anybody's prices. Those who have been selling at \$10.50 will not have to change, and those who have taken less, will hardly advance their prices because of this resolution. The meeting was not called for the purpose of advancing prices, or changing them in any way; it was called simply for the purpose of discussing matters, and to this extent was certainly successful. Most members of the trade evidently agree with the *Lumberman* that it is hazardous to attempt a decided advance so early in the season, and evidently rather wait until the trade stands on surer ground. Later on, the opposing interests will be able to harmonize, and then, if anything is undertaken, it can be carried through, which would hardly be possible under existing circumstances. Another meeting, similar to that of to-day, is to be held on the 6th inst., and it may be expected that others will follow at brief intervals, until the busy part of the season is over.

CHICAGO.

The cargo market has seen but little change during the past week. The receipts have been moderately tight, and the sales moderately ready. Upon one or two days there have been symptoms of heaviness, and on Monday of this week out of twenty-two cargoes at the dock, eight remained there over night, but with the next day's arrivals were taken before Tuesday night. Desirable piece stuff, in quality and length, has, however, been quickly taken, it being only the shorter lengths and coarser stock which has shown any disposition to drag. Cargoes running fairly to 18 or 20 feet and longer are in good demand, while those of 16 feet and shorter, being in good supply, are not so much sought after. Prices have been well maintained, and some endeavor made to still further advance, but without success; the yard prices at present prevailing would seem to forbid any advance upon current cargo rates.

FOREIGN.

The following are from the *Timber Trades Journal*, of June 26, 1880.

LONDON.

The lull that buyers have experienced in the matter of the public sales, we expect, has been felt as rather a relief than otherwise, affording them an interval to take stock of their spring purchases, while giving the market time to breathe. The small inconvenience that might possibly be felt in not having the customary sales to resort to, to meet any special inquiry, can hardly be appreciable, as the yards, so far as we can judge, are supplied with every conceivable class of stuff that is likely to figure at the rooms in Threadneedle street; the frequency of the public auctions has kept them from running short. Every way, a little respite to the trade in this respect cannot be otherwise than welcome.

LIVERPOOL.

The approaching close of the first half of the year has, without doubt, some effect upon the demand for wood goods of all descriptions, and the end of this month is in no wise different from the usual condition of trade at this period. Buyers are unwilling to enter into transactions at a time when they are looking forward to the closing of books and stock taking, notwithstanding the tempting prices that may be placed before them, and therefore the consumption, which still continues on a fair scale, is yet a quiet one, and apparently the outcome of a desire to buy only in small quantities, sufficient for most pressing wants. On Wednesday Messrs. Farnworth & Jardine offered for sale by auction about 1,500 logs, Quebec birch, just arrived per steamship Caspian, and a cargo of spruce deals daily expected to arrive from St. John, N. B.

The attendance at the sale was limited almost entirely to the local trade, and the bidding was by no means brisk; only about 70 logs of birch were sold, and a few oddments from the spruce deal cargo, the wide difference in ideas of value between seller and buyer being the great bar to business. Of the Quebec birch logs, 20 in. and upwards sold at 23½d. to 24d., 19 and under 20 in. at 19d., whilst for 18 to 19 in. wood only 17½d. was bid, and the parcel was conse-

quently withdrawn, which was also the fate of the spruce deal cargo, and for the same reasons, only the birch deals being sold at \$6 12s. 6d., and the boards at \$6 7s. 6d. per standard. For the deal ends, \$5 15s. was bid and declined.

The latest mail advices from Rio Janeiro are as follows:

Pitch Pine Deals.—The only arrival is the John Wesley from Brunswick with 285,372 feet sold at \$6 \$000 per dozen 3x9x14. The market closes very firm in view of the small supply, and we look for a rise in prices before long; possibly 40 \$000 per dozen before the end of this month. Total arrivals since 1st January 5,004,913 feet.

Spruce Pine Deals.—No arrivals, we quote 30 \$000, needed. Total arrivals since 1st January 825,611 feet.

White Pine Lumber.—Market firm, and prices very high, the only arrival is the Paladin with about 150,010 feet reported sold at 105 rs. per foot. We quote 105 rs. to 110 rs. per foot according to quality. Total arrivals since 1st January, 1,297,863 feet.

NAILS.—The market is without much encouragement for the selling interest. Business spurts up a little, occasionally, but does not continue free or take out much stock, and any intimation of additional cost at once checks the movement of buyers. The "official" list continues to be given out as the current market quotation, but \$2.75 to \$2.85 for 10d to 60d are understood to be much nearer the rates at which pretty much all the business is transacted.

PAINTS AND OILS.—A moderate and uncertain distribution of paints is making mostly to the ordinary outlets, and the market, as a whole, shows no life. The call, too, is directed largely to the standard grades of stock, and a great many varieties are for the time being under much neglect. Under the circumstances, sellers have not much advantage, and while liberal concessions are felt, the average tone on values is easy. Linseed oil has had a somewhat irregular market, with the value making no important recovery, but, on the whole, there does not appear to be quite so much inclination among holders to offer stocks. The quotation as we close stands at about 6c. from crushers hauds.

PITCH.—Demand moderate and uncertain, and the market in a dull sort of condition all around; values nominally unchanged. We quote at \$1.87 to \$2.00 per barrel, for city delivered.

SPIRITS TURPENTINE.—The tone of the market has varied according to the supply in hand, but, as a rule, was easy. The demand not very active beyond ordinary trade wants, though a few parcels have been taken for shipment and in this way one or two quite respectable sized sales made. As this report is closed, the quotation stands about 2½¢ to 2¾¢ per gallon, according to the quantity of stock handled.

TAR.—A moderately active business doing on most of the regular outlets, and values held quite steadily. Stocks moderate, and few early additions expected. We quote at \$2.75 to \$3 per bbl. for Newberne and Washington, and \$2.75 to \$3 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

DIRECTORY OF
RELIABLE REAL ESTATE AGENTS.
We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them as capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

REMOVAL

E. A. BOYD,

Successor to PLATT & BOYD, Glass Importer, 79 and 81 Murray street, has removed to his new Warehouse,

61 and 63 Wooster St.,
and

167 and 169 South Fifth Av.,

Near Broome Street,

Where he is prepared to fill orders, no matter of what magnitude.

REMOVAL.

Among the removals of the season we notice that of Bicknell & Comstock, publishers of architectural books, to their new quarters, 194 Broadway, which will be found much more accessible. They purpose in their new location to offer a full line of architects' materials, and keep in stock all the new and leading works of interest to architects and builders, both American and foreign. They are also supplying the improved “Sibley's Builder's Level,” of which they are now sole proprietors and manufacturers.

Absolutely Self-Acting and Non-Freezing.

None more simple and none so durable.

For full description of the

IVERS' Patent Anti-Freezing, Self-Acting Inodorous Water Closet,

ADDRESS

ALFRED

IVERS,

PLUMBER,

THE OUTLOOK IN REAL ESTATE.

"What of the fall business?" That, now, is the question among those anxious to bridge over the sultry season. Anticipations run high, very high, among those whose ideas in regard to real estate are worth listening to. And yet it is a fallacy to suppose that any wild era of speculation will set in during the coming autumn. Of one thing we may assure our readers, that any one who has a good house to sell, in an eligible locality, will be able to dispose of it advantageously during the fall season, for there is every indication now that, owing to the constant increase of population, there will be an unprecedented demand for houses. As to vacant lots, some little time will probably have to elapse before the views of holders and buyers can be reconciled. It looks, owing to the increased scarcity of the number of lots on Manhattan Island, as if holders will ultimately get what they ask, but it will not be in the fall. Time will be necessary to educate investors up to the actual market value, and it may be spring before that is accomplished. The outlook certainly is very flattering and, judging by the reports that reach us from Newport, Saratoga and Long Branch, where so many capitalists are now sojourning, there appears to be once more a general desire on their part to invest in real estate. The opinion also seems to prevail, that he who invests now will find his profits accruing during the next five and six years. Certain it is, that during that period, at least, there will not be a decline of prices for Manhattan Island lots, if, indeed, there will not be a rise sooner than is now anticipated, when the decision in regard to the site of the World's Fair is announced during the coming fall months.

It was an extraordinary event in the history of the real estate market, when, on a scorching day like Tuesday last, the Exchange Salesroom was crowded with bidders and buyers, all anxious to secure the business and tenement property on the East Side. The crowded attendance, though not by any means improving the not over-pleasant atmosphere of the low room, nevertheless acted like a charm upon the regular habits of the market, and their hopes for the future rose as high if not higher than the mercury.

To cripple the resources of financial institutions or large corporations does not only injure those concerns but leads to ultimate dismay and disaster in business circles. This is what the constant tinkering with the tax laws of this State will lead to. To escape undue taxation has been from time immemorial a principle of self-preservation not only on the part of individuals but also of corpora-

tions. Modern commerce depends to a large extent upon facilities obtained from financial institutions and if these latter are crippled, commerce must also suffer. It is indeed a pity to see for instance the renewed attempts of the tax commissioners to enforce the spirit of a law which the United States Supreme Court has declared unconstitutional. The new law, passed during the last session of the legislature, is said to be almost identical with the law of 1866, and hence in endeavoring to resist the enforcement of a law which is not valid, no fault can be found with the hanks of New York. For years they have tamely submitted to an unjust law and their combined capital, during that time, was reduced \$26,000,000. This loss of capital injures business generally, and it will not come back until there is an end to the confused condition of the State laws. Why can there not in this Empire State, where so much intelligence is centred, be found sufficient talent to create a system of tax-laws as generous as those enacted in the younger Western States? There, everything is done to invite capital. Here, everything is done to repel it. How much longer this Empire State must uphold such ruinous principles is a question well worthy the attention of bodies like the Chamber of Commerce, so that the people will see and understand how important it is to have able men at Albany, as, after all, it is only the legislature that can give relief.

Though the official figures of the city census have not yet been announced, enough is known to show the percentages of increase in certain localities. As population always brings along wealth and a demand for ground and dwellings, it will be interesting to holders of real estate to show the growth of certain wards since 1870. The Nineteenth and Twenty-second wards are the banner wards. The increase in the population of the Nineteenth is 73,266, or 85 per cent.; that in the Twenty-second 45,917, or 45 per cent. The increase in the Twelfth Ward is 34,989. The region lying between Fortieth street and Twenty-sixth street, known as the Twentieth and Twenty-first wards, has increased 22,289, almost equally divided between the two wards. The increase from Twenty-sixth street to Fourteenth street, going east and west, is only 11,000, while the section lying below Fourteenth street to Houston street, east and west, including a vast tenement population, has increased 21,000. Of course, in the lower wards there is no perceptible increase, there being a falling off in the Fourth Ward to the extent of nearly 3,000, while again there is an increase in the First Ward amounting to over 2,000. This must be attributed to the large number of new buildings where janitors and their families reside, and form a unique population, who look upon the Battery as their Central Park.

The condition of our great thoroughfare, during the two midday hours of the excessively hot summer weather we now experience, ought to set people a thinking what is required to, at least, provide some shade along Broadway between twelve and two o'clock. During these two hours it is absolutely dangerous to walk any length of

time along that street, so fierce are the rays of the sun, with no shady side anywhere. The street is too wide to be shaded at the noon hour by the stately buildings and too narrow to permit the planting of trees. Why, then, not have universal recourse once more to the old-fashioned awning, which, though it may be a relic of the bygone days of New Amsterdam, nevertheless would guard the health of our active generation, whose brains are, at least, worth protecting as much as those of our Dutch ancestors.

The decreased amount of liabilities for the first six months of 1880, as furnished by Dun, Barlow & Co., is certainly a subject of congratulation for the business community. To know that merchants throughout the Union have lost in the aggregate only \$33,000,000 during the past six months, against \$65,000,000 during the same period of 1879, and \$130,000,000 in the same period of 1878, is certainly reassuring and implies a very excellent condition of prosperity. Nevertheless, there is not that pro rata decrease in the amount of liabilities that we might expect from the decreased number of failures, and, singular to say, for the second quarter of 1880 the average liability is actually higher than that of 1879, namely, \$18,884 for this year, against \$14,776 for last year. The average liability for the whole year of 1878, one of the very worst, was only \$21,000. While, therefore, there has been a diminution in the sum total of losses, it seems to us to be as yet a debatable question whether we have yet arrived at a period where credits can be safely extended so long as the amount lost by an individual failure remains at about the same ratio as it was during a time of general depression.

TELEGRAPH POLES AS REAL ESTATE.

The opinion of Attorney-General Ward upon the novel question whether telegraph poles are to be assessed as real estate will probably find general acceptance. The learned attorney-general says: "It is entirely clear to my mind that these telegraph structures are 'articles erected upon and affixed to the land,' so as to create an interest therein, and are, to the extent of the value thereof, land of the telegraph company erecting them, and as such liable to taxation. And it is the duty of the assessors of the several towns and wards of this State to assess the same as land to the value thereof, so far as any of their lines extend through their respective assessment districts. I have given the question which you have presented careful consideration, for the reason, that as far as I have been able to discover, no decision upon the precise question before us has been made by any of the courts of this State, and the question therefore is a new one. I am greatly aided, however, in reaching this conclusion by the opinion of the Court of Appeals in *People ex rel., etc., v. Cassity*, 46 N. Y. 46, which holds in this language: 'The term 'lands' as used in the statute in relation to assessment and taxation (1 R. S. 360, § 1, 2), includes such an interest in real estate as will protect the erection, or affixing, and possession of buildings and fixtures thereon, though unaccompanied by the fee, and such interest with the buildings and fixtures may be assessed to the owner thereof.' See, also, 74 N. Y. 365, and 52 Barb. 105. It is also held in *People ex rel., New York Elevated Railway Company v. Commissioners of Taxes*, decided by General Term, First Department, and reported in 19 Hun, 460, that 'foundations for piers or columns placed in a public street

by an elevated railroad by legislative authority, whether standing alone or with columns and the superstructure thereon are properly taxable as real estate.' If the piers and columns of an elevated railway, as in the last case cited, and the stringers, ties and rails of a horse railroad, as decided in the case of *People v. Cassity, supra*, are 'land' and taxable as such, though in neither case did the company own the fee of the land upon which these structures stood, it would seem that telegraph posts, piers and abutments and lines are also land and taxable as such. It would seem also from the case of *People v. Cassity, supra*, and *People v. Barker*, 48 N. Y. 70, and indeed from the statute itself, that in all cases the premises are to be assessed in the name of, and to the company owning the line and not in any case as 'non-resident.'—*Albany Law Journal*.

THE WORLD'S FAIR.

A CORRESPONDENT WANTS IT TO ADJOIN THE UPPER END OF THE PARK.

NEW YORK, July 12, 1880.

To the Editor of THE REAL ESTATE RECORD:

DEAR SIR:—In your issue of June 26th, 1880, you suggest that parties having anything to say in regard to locations for the World's Fair should do so at once, as the meeting of the Commission will shortly take place, and such suggestions might assist them as to the selection of a site. I will venture, therefore, to offer a suggestion for the placing of the Exhibition grounds of the World's Fair of the United States, for 1883, above and adjoining the upper end of our Central Park, and bounded as follows: south by One Hundred and Tenth street, west by Eighth avenue, north by One Hundred and Twenty-second street and east by Fifth avenue, containing in all about 200 acres of ground. This location is the most central on the island, being in the immediate vicinity of all our city surface roads as well as the elevated railways, and midway between the North and East rivers. Its location is such as to equally distribute the millions that will come and go in comfort over the many avenues that surround it, instead of crowding them in discomfort over two or three lines of some grasping corporations. For the advantages of this location I desire to state that east of it are the lines of the Second avenue and Third avenue and in all probability the Madison avenue surface railways; west, the Eighth avenue, and a probability of a continuation of the Ninth avenue, also the Forty-second street and Broadway Railway; north, the One Hundred and Twenty-fifth Street Cross Town, and I think an act will be passed to allow the last named railroad to run compressed air engines on its line, starting from the foot of One Hundred and Twenty-fifth street, North River, through One Hundred and Twenty-fifth street to St. Nicholas avenue, down St. Nicholas avenue to One Hundred and Tenth street, One Hundred and Tenth street to Fifth avenue, back to One Hundred and Twenty-fifth street, and east to the river, thus making a direct communication with the East and North River boats, landing passengers at foot of One Hundred and Twenty-fifth street, east or west side of the city. Next are the elevated railways of the Second and Third avenues, and underground of the Fourth avenue, and west are the Sixth and Ninth avenues, which connect with all southern, western, Coney Island, Staten Island and New Jersey railways. It is most convenient for all railway lines from the West, Northwest and North, over the New York Central & Hudson River and Harlem, from the East by the New Haven, Springfield & Hartford and Shore lines, which would land its passengers at the very door of the Exhibition with comparatively little or no extra expense. Last, but not least, is its excellent advantages for landing of freight on the grounds, both by land and water, from home or abroad. Still further I will claim for this location the excellent quality of the soil, being dry and sandy, and, lying as it does about twenty feet above tide water, making its drainage perfect, the sewers being already built; also gas and abundance of water, there being two lines of each on the leading avenues; thus a great saving of expense to the Commission. I will next call your attention to the grand, broad, beautiful avenues, of 150 feet in width, all macadamized, curbed and guttered, upon which to front the main building, that may be, if desired, 1,600x900 feet, with its streets all lighted. No malaria, no chills and fever here to send its thousands

home to beds of sickness and death. I next claim for this location that there is little or no grading required, and there are but two dwellings of any account, and they would serve as Government buildings. I believe that the consent of the owners would be very easily obtained, as I have spoken with several owners who have expressed a willingness to have their property occupied for Exhibition purposes at a moderate compensation, say 6 per cent. on the tax valuation and as much less as possible. I would also mention here that all the Centennial Exhibition buildings in Philadelphia of every kind inside of the inclosure occupied, according to printed reports, seventy-six acres, and the locality mentioned for a site contains about 200 acres, and adjacent to the grounds are about two miles of building space for the erection of hotels, cafes, &c., &c., with an abundant supply of the best water and gas, and sewers already built.

Hoping my remarks will draw out other suggestions for the Commissioners of the Exhibition, I remain
Your's, with respect, R. C.

WHITE STREET AND VICINITY.

Among the recent improvements in the dry-goods district, we point with pleasure to the new warehouse of Mr. Morris L. Herrman, now reaching completion, at 18 White street. It covers a full lot, fronting 25 feet on White street, x 96x107, is five stories high aside of the cellar, and built of Philadelphia Peerless Brick and Bedford Stone. The latter has been supplied by Hinsdale, Doyle & Co., well-known to our readers. The store front is of iron from the Fulton Iron Works of Blake, McMahon & Co., 513 to 519 West Twenty-fifth street, the same establishment having also furnished the vault lights and ventilators for this warehouse. As a model place of business, not surpassed as to stability of construction by any other building in its vicinity, the owner of course takes pride in the new warehouse which will soon ornament that ever growing section of the city. The excellent work done, however, by Mr. John Kelleher, the mason and builder, who has personally attended to all details of construction, cannot be overlooked when comparing this building to others in the same district, gotten up without regard to stability and safety. In this Mr. Kelleher has been ably assisted by Michael Larkin, who has done the cellar work. Of course, in erecting this building, Mr. Kelleher, Mr. John Smith, the carpenter, and their assistants have closely followed the instructions and designs of the well-known architect, Geo. W. Da Cunha, but in the execution of his orders they have acted with true mechanical skill and conscientiousness. The granite sidewalk has been supplied by John Birss, of One Hundred and Thirteenth street and East River. It is by the construction of buildings like these in a section of the city now fixed for a permanent business centre, that character is given to the warehouse district, where there has been heretofore too much ornamentation, and too little solid, honest work.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

A few auction sales took place during the past week, which, notwithstanding the tropical weather, attracted quite large audiences. The sale on Tuesday, by Mr. James L. Wells, of Third avenue business and tenement property, was indeed the topic of general surprise among those who do not expect to see large crowds in the Exchange Salesroom during the summer months. It was a partition sale of property located near Fiftieth street, and Fifty-sixth and Fifty-seventh streets, between Second and Third avenues. Among the great crowd of attendants, most of whom took an intense interest in the sale, were several shrewd investors and builders, and men like Peter Doelger, Mr. Falihee, John H. Riker and John D. Crimmins. The bidding was quite lively, and though the heirs of the estate secured a goodly portion of it, there was prompt and sharp competition between them and outside buyers. The property belonged at one time to Dr. Israel Randolph, who died about a year ago at the St. Nicholas Hotel. The result of the sale must have been quite satisfactory to

the heirs, as well as to the auctioneer. The sale of a lot on the north side of Fifty-seventh street, near the Tenth avenue, on the same day for \$10,600, also gave considerable satisfaction, as it was currently reported that the same lot might have been had at private sale a month ago for \$1,500 less.

GOSSIP OF THE WEEK.

Some notable transactions are recorded in our transfer columns this week. Mr. Loew, in the capacity of President of the Grand Central Bank, has sold to Robert and Ogden Goelet, plot 90.7x—x57x100.7, on the southeast corner of Hudson and Leonard streets, for \$101,000. The Stern Brothers, of Twenty-third street, have taken title to two lots, Nos. 25 and 27 West Twenty-second street, north side, west of Fifth avenue, for a consideration of \$74,000. The buildings are already being pulled down so as to extend the Twenty-third street store through the block.

The property on the southwest corner of Third avenue and Fifty-sixth street, fifty feet on the avenue and ninety five on street, which our readers will see has been disposed of at \$82,500, looks apparently as having been exceedingly well sold. Considering, however, that it is part of the only store on Third avenue, that is seventy five feet wide and is occupied in part by the Bloomingdale Brothers, who on a long lease pay \$7,500 per annum, while the street house pays an additional \$1,020 and will pay considerably more from May next it will be seen that Mrs. Burckle, the purchaser, has made an excellent investment.

During the past week there have been some sales of note at private contract. Mr. H. H. Camman has sold, for Mr. Geo. Sloan, No. 294 Broadway, north of Reade st, 25x130, five stories high with an iron front, for \$98,000. The building runs through to Republican alley.

The Lexington avenue front, east side, between Sixty-fourth and Sixty-fifth streets, ten lots of 20x80 each, has been sold for \$60,000 to S. Marx and Randolph Guggenheimer. The property belongs to James W. Beekman, for whom it has been sold to the above named parties by Mr. E. Popper.

It is also reported that the northeast corner of Madison avenue and Eighty-sixth street, 62.6x103.11, was sold, during the week, for \$25,000.

The building occupied by the New York Daily News has been purchased by the Brooklyn Bridge Trustees for \$116,000.

Property owners should bear in mind that on the first day of August next, 5 per cent. will be added to all unpaid water rates.

A number of brokers and dealers in real estate continue to absent themselves from the city during this hot weather. In addition to those whose summer abodes were noted in this column two weeks ago, we hear that several brokers are enjoying their leisure at Richfield Springs, whence Mr. A. J. Lynch has just returned. Mr. Siegmund T. Meyer is also having his vacation there, while Mr. Lewis J. Phillips, after spending a week at Glenwood, on the Hudson, will join his friends there during the next few days. Mr. Isaac Honig only puts in an occasional appearance in the city, preferring the cool breezes at Long Branch from his easy quarters at the West End. Mr. John D. Crimmins also passes a good many summer days at the Branch. Mr. Henry Raynor enjoys the quiet of Jamesport, Long Island, while Mr. James A. Monsell is cruising along the sound in his yacht, regardless of the state of the real estate market.

The following are the sales at the Exchange Salesroom for the week ending July 16:

* Indicates that the property described has been bid in for plaintiff's account:

*Broadway, w s. opposite monument in centre line of 189th st, 1.798-1.000 acres. Excelsior Savings Bank. (Amount due, abt \$10,150)	\$5,000
*Mott st (No. 220), e s, 25x94, six-story brick store and tenement. Samuel Weil. (2d mort., \$2,150; 1st mort., \$13,318)	12,500
*Rivington st, n e s, 59 7 w Mangin st, 19.9x 81 3. Anna F. Taber. (Amount due, abt \$3,775)	3,800
26th st (No. 328), s s, 47 5 e 9th av, 25x98 9, five-story brick store and tenement. Hamilton Wigan. (Amount due, about \$11,150)	15,700
*53d st, n s, 100 e Lexington av, 17.10x100.5. Jacob Ehrlich (exr) (2d mort., \$4,200; 1st mort, abt \$7,000)	10,000
56th st (Nos. 239-245), n s, 100 w 2d av, 100x 100.4, four-story brick factory. Cornelius Stone. (Partition sale)	25,250

*57th st (No. 254), s. s. e of 3d av, 25x100.4, five-story brick store and tenement. O. J. Gilman. (Partition sale).....	13,200
Interior plot, adj above, 77.4x100.4x75x83.4, John D. Crimmins.....	7,550
57th st (No. 499), n. s. 25 e 10th av, 30x100.5, five-story stone front flat. George Roll. (Amount due, about \$5,050).....	10,565
60th st, n. s. 175 w 10th av, 50x100.5.....	
61st st, s. s. 150 w 10th av, 50x100.5.....	
61st st, s. s. 350 w 10th av, 100x100.5.....	
2 1/2 part of each of above plots. John T. Farley. (Am't due, about \$9,400).....	9,345
76th st (No. 222), s. s. 300 e 2d av, 25x102.2, one-story frame dwell'g. John T. Farley. (Amount due, abt \$6,250).....	2,200
*130th st, s. s. 150 w Morris av, 75x— to "the Kills," riparian or other rights which attach to above property. Wm. M. Bank, receiver of Security Savings Bank.....	25
3d av (No. 816), s. w cor 50th st, 24.4x100, four-story brick store and dwell'g, and one-story frame house. W. H. Redman. (Partition sale).....	19,200
*3d av (No. 814), w. s. adj. 20x100, four-story brick store and dwell'g. O. J. Gilman.....	14,600
3d av (No. 812), w. s. adj. 20x100, similar building. P. A. H. Jackson.....	14,100
3d av (No. 810), w. s. adj. 20x100, similar building. E. F. Cote.....	14,520
*3d av (No. 808), w. s. adj. 20x100, similar building. O. J. Gilman.....	13,225
*3d av, e. s. 25 1/2 s 106th st, 34x70. Henry Masin. (Amount due, abt \$7,050).....	7,635
5th av (No. 622), w. s. 25 s 50th st, four-story brick (stone front) dwell'g, with lease of lot 25x100. John S. Sutphen. (Leased Nov. 1, 1867; term 20 years; ground rent \$100 per annum.) (Amount due, abt \$19,100).....	18,500
Total.....	\$216,915

E. E. Ludlow & Co. have sold the four-story high stoop brown stone house, 25x60 feet, with lot 100.5, No. 18 West Fifty sixth street, for \$14,500.

BUILDING MATERIAL MARKET.

BRICKS.—Very little positively new can be advised on the market for Common Hards, with, perhaps, the exception of a slightly easier tone. Demand, as a rule, was fair, and no great surplus of stock remained over unsold, but buyers were by no means eager or hasty in calling for supplies, and have been exacting in regard to quality as well as figuring closely on cost. They have gained a trifle on the latter score, not many "Up Rivers" exceeding \$4.75 @ 4 1/2 Haverstraws, \$5.50 per M, but, as the pressure of stock was not heavy, sellers retained sufficient advantage or to prevent any great pressure to realize. Pales continue to sell very well and have a fairly steady tone, but the supply appears to be somewhat more closely balanced to the outlet and buyers experience less difficulty in securing what they require. The general supply of brick has come principally from the more distant points on the river, the Haverstraw shipments being restricted by reduced transportation facilities growing out of boats withdrawn for repairs, etc. This difficulty, however, will soon be obviated, and fuller shipments follow. Fronts generally are in very good demand, and values on all kinds well maintained, with no excess of stock offering.

HARDWARE.—Seasonable goods to a small extent have found some sale, but it was only on a basis of the early and positive wants of buyers, and beyond this bids could not be obtained. Supply and assortment are equal to almost any call likely to develop for the present, but manufacturers are not producing with much freedom. Dealers are hopeful of a good fall trade but do not calculate upon a "boom," as buyers will not anticipate their wants. The revision of prices continues. The following is the discount sheet adopted by the Tack Manufacturers' Association, to apply to the hardware list of April 2, 1880: Swedes Iron, Upholsterers', Gimp and Lace Tacks, 35 per cent; Swedes Iron Tinned Tacks, 50 per cent; Common Iron Tinned Tacks, 50 and 10 per cent; Copper Tacks and Nails, 35 per cent; Common Iron Cut Tacks, 30 per cent; Leathered Carpet Tacks, 20 per cent; Brush Tacks, 20 per cent; Swedes Iron Hungarian Nails, 35 per cent; Common Iron Hungarian Nails, 35 per cent; Finishing, Trunk and Clout Nails, 25 per cent; Common and Patent Brads 25 per cent; Cigar Box and Chair Nails, 30 per cent; Basket Nails, 25 per cent; balance of list, 30 per cent. Goods in Hardware List, Tinned, where prices are not given, add 6 cents per pound. The price of Girard Standard Wrenches is reduced to discount 50 per cent, and Girard Agricultural Wrenches to discount 60 per cent. The cost of Shoe Nails has been reduced. The manufacturers of Rules now quote at 60 and 10 for Boxwood, and 50 and 10 per cent. discount for Ivory.

LATH.—The market has not been very active, but receivers say this is mainly due to an absence of stock of desirable character, and they talk very firmly. Up to the present writing, the highest sale known in the regular form was at \$1.50, but it is doubtful if more could be obtained at this figure and some agents, it is said, are unwilling to negotiate on parcels to arrive for less than \$1.75 per M, and sales for out of town delivery have been made at \$1.60 per M. Yard supplies are working downward and the consumption tends to increase.

LIME.—At the recent advance the market appears to be well maintained, and there is a general expression of firmness. The available supply continues to

find a market about as soon as offered, with demand not fully met at that, and reports of light shipments to come.

LUMBER.—Demand does not improve from any quarter to a noticeable extent, and the general conditions of the market are dull. The selling interest will admit nothing more than a "little loss of tone" on prices, but attempts to hurry or increase the sale of stock show this to be rather a mild way of putting it. Not that there is as yet any positively heavy feeling indicating a serious break, but the indifferent character of the demand requires that terms should be made quite attractive to secure attention. Buyers present want are small, and whatever they may hope to use as the season progresses, they are not now willing to negotiate for, especially as there appears to be a gradual increase of offerings from many points. The supplies here are also increasing to some extent, and are pretty well assorted, though a great many additions will yet have to be made in order to show a first class accumulation. Exporters are moving carefully with a general tendency to confine themselves to positive orders.

Spruce continues to be delivered to some extent on contract, but there is not much new demand of an anxious character, and buyers are expecting pretty fair rates as an inducement for them to operate. These expectations, manufacturers assert, are altogether too low, and there is an expressed intention to reduce shipments in this direction very materially unless a better margin is afforded. Indeed, agents are already under instructions to ask an advance, and this tends further to check business. Quoted \$13 @ 15 on random, and \$15 @ 18 on specials.

White Pine has met with a light home demand, mostly in the form of the ordinary run of trade orders, and also secured some call for export. The general movement, however, does not reach a very full aggregate, and business has a dull sort of tone, with prices at the best only barely steady. Supplies increase slowly, but, if all the accounts about heavy purchases by New Yorkers in the interior are correct, full amounts ought to be coming along pretty soon. We quote \$17 @ 19 per M for West India shipping boards; \$23 @ 24 for South American do; \$15 @ 16.50 for box boards; \$17 @ 18 for do wide and sound do.

Yellow Pine meets with uncertain demand both on random and ordered cargoes, and even at a considerable shading it would be difficult to place any great amount of stuff. Stock is said to be pretty full, a great many arrivals since the middle of last month failing to find the sale anticipated, but holders are not pressing in view of hopeful expectations respecting the fall trade. Valuations are somewhat nominal at the moment. We quote randoms cargoes at about \$4 @ 26 per M; ordered cargoes, \$25 @ 27 do; green flooring boards, \$5 @ 27 do; and dry do do, \$26 @ 28. Cargoes at the South \$16 @ 18 per M for rough, and \$20 @ 22 for dressed at Gulf ports.

Hardwoods are rather dull, the current consumption having been provided for by early purchases. Desirable supplies, however, are far from plenty, and holders would in very few cases be willing to shade cost. We quote at wholesale rates by carload, about as follows: Walnut, \$77 @ 85 per M; ash, \$33 @ 36 do; oak, \$35 @ 40 do; maple \$30 @ 35; chestnut, 1st and 2d, \$30 @ 35; do do, c. l. s. \$18 @ 20 do cherry, \$15 @ 25 do; white wood, 1/2 and 5/8 inch, \$25 @ 27.50, and do, inch, \$30 @ 35 do; hickory, \$35 @ 45 do, for Western, and \$65 @ 75 for good nearby stock. The yard trade has improved a little since the opening of the month, but is not, as yet, by any means active, and covers in the main small assortments wanted for early use. Prices range about as for some time quoted.

From among the lumber charters recently reported we select the following:

An Am barque, 1160 tons, from Mirimichi to Adelaide, deals \$1.50 5s B standard; an Am barque, 936 tons, from Mirimichi to Australia, deals, \$1.10s, one port, or \$1.15s two ports; an Am brig, 406 tons, hence to Port Spain, white pine lumber, \$6; a schr, 227 tons, from Mobile to Cape Hayti, lumber, \$9 2; a brig, 407 tons, from Wilmington, N. C. to Matanzas, lumber, \$12; an Am barque 607 tons, from Pensacola to River Plate, lumber \$19 net; a schr, 221 M lumber, from Bridgewater, N. S. to Havana, \$9; a schr, 223 tons, from an Eastern port to the windward, lumber, at or about \$7; a schr, 178 tons, from Norfolk to New York, lumber, \$3; a schr, 125 M lumber from Jacksonville to New York, \$9; a schr, from Portland to Providence, lumber, \$2; a schr, from Portland to New York, lumber, \$2; a schr, 320 tons, from Kennebec to New York, lumber \$2 2; a schr, 200 M lumber, from Fernandina to New York, \$7.50; a brig, 317 tons, hence to Fernandina, part cargo, and back with lumber, \$8 25 for the round; a brig, 200 M lumber, from Fernandina to New York, \$7.75; a schr, 180 M lumber, same voyage, \$8; a schr, 200 M lumber, from Fernandina to New York, \$7.50; a schr, 220 M lumber, from the Gulf to New York, \$10; a harque, 450 M lumber, from Pensacola to Philadelphia, \$9.50, or New York, \$0; a schr, 110 M lumber, from Jacksonville to New York, \$5; a barque, 400 M lumber, from Fernandina to Philadelphia, \$7; a schr, 225 M lumber, from Brunswick to Boston, \$7.75; a brig, 380 M Lumber, from Brunswick to Philadelphia, \$7.

Exports of lumber from the port of New York:

Total.....	698,185	37,408,630

GENERAL LUMBER NOTES.

STATE.

The Albany lumber market, for the week ending July 13th, is reported by the *Argus* as follows:

We have not any change to note in the quotations for pine lumber; they are firmly held. The trade continues good throughout the district with a larger attendance of buyers, so far in July, than we have known for many years; to day, the attendance is noticeably large and some are free to say they find this the cheapest market in which to buy. The buyers, personally or by orders, are principally from New York and New Jersey, with some from the East, from Philadelphia, etc. The receipts of pine lumber continue free, keeping up an excellent assortment, but in view of the steady trade there is not any accumulation of stock.

Coarse lumber is very firm in price and is in brisk demand; the receipts keep up to a fair point, but unless there is a freshet in the Northern streams inside of six weeks all the logs available will be sawed within that time.

Albany is receiving more than its usual share of the lumber arriving by canal; of the 277,000,000 feet received at tide water to July 8th, 129,000,000 feet were left at Albany.

The lumber trade in the Saginaw Valley is reported "in the same agreeable condition" which has prevailed for some weeks, and the feeling is strong that the present favorable condition of the market will continue through the season. Sales of round lots, 500,000 to 2,000,000 feet each, have been made at \$7.50, \$15 and \$35; \$7, \$14 and \$3; at \$7.50, \$11.50 and \$30.50, and at \$7.4 and \$35. One lot, choice, is reported sold at \$8.16 and \$35. The shipments during the week from the Valley have been 23,000,000 feet.

The receipts of lumber by lake at Buffalo for the week are 6,958,000; by rail, 104 cars. At Oswego, 8,231,700 feet.

The receipts at Albany by canal from the opening of navigation to July 8th were:

Bds. & Sctg. ft.	Shingles, M.	Timber, c. f.	Staves, D.
1879..	81,781,000	1,396
1880..	128,559,600	224	5,400

Freights from Bay City to Buffalo and Tonawanda, \$2.25 @ M feet; from Saginaw, \$2.50. From Buffalo to Albany \$2.80; from Tonawanda to Albany, \$2.75 @ M feet. Lake Ontario freights from Port Hope to Oswego, 9 c @ M feet, from Toronto to Oswego, 100c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M feet.

THE WEST.

We have received from A. H. Hitchcock, Esq., Secretary of Chicago Lumberman's Exchange, his elaborate monthly statistical report, from which we take the following figures:

Comparative statement of stock of lumber on hand at Chicago:

	1880.	1879.
Lumber	Lumber	Shingles.
Jan 1..	451,282,039	190,057,000
Feb. 1..	403,981,900	171,495,000
March 1..	338,996,421	152,072,000
April 1..	263,452,591	113,593,000
May 1..	238,483,874	115,116,000
June 1..	292,467,878	130,315,000
July 1..	347,346,419	144,095,000

Comparative statement of stock on hand, July 1, for a series of years

	Lumber	Shingles.	Lath.
1875.....	211,268,600	80,912,500	21,567,025
1876.....	216,895,492	89,326,000	26,513,300
1877.....	245,278,851	84,176,000	13,249,900
1878.....	310,042,844	124,991,000	26,727,320
1879.....	282,282,631	135,735,000	21,891,790
1880.....	347,346,419	144,095,000	29,733,990

SAGINAW VALLEY.

Lumberman's Gazette Office.

BAY CITY, July 11, 1880.

The week past has not been a remarkable one for transactions, being spread-eagle week, when more is usually devoted to thinking and talking about the powder boom of a century ago rather than the lumber boom of the present time. But in the absence of a large amount of trade there remains a firm market and a buoyant feeling. It is doubtful if business will be very rushing for several weeks, the time for summer vacations and harvest being at hand. Building and repairing among the farming community being necessarily suspended that the crops may be looked after, dealers will improve the opportunity to "go fishing," or cool brain and blood at some watering place. But they will be on deck again during the latter weeks of August as bustling and energetic as ever. It is not supposable, however, that the trade will stop entirely on account of the absentees. There will be some shrewd fellows thoroughly devoted to business and of great endurance, who will remain on deck all through the heated term and have their yards sorted up for the early fall trade. This sort will keep the market as lively as it ought to be, while the thermometer ranges as high as at present. A reasonable amount of trade is being done in lumber and shingles and quotations remain steady as before. The sales include 1,000,000 feet at \$5, \$14 and \$32; 600,000 feet at \$5.50, \$13.50 and \$30; 500,000 feet at \$7, \$14.50 and \$33; 800,000 feet at \$7, \$14 and \$35, and 500,000 feet at \$7.50, \$15 and \$35.

Lake freights are as follows: Bay City to Buffalo and Tonawanda, \$2.25; to Ohio ports \$1.75; Saginaw to Buffalo and Tonawanda, \$2.50; to Ohio ports, \$2.

We quote cargo rates:

Three upper quantities.....	\$30 00@35 00
Common.....	13 00@15 00
Shipping culls.....	6 50@7 50
Lath.....	1 25@1 50
Singles, XXX.....	2 90@3 00
clear butts.....	1 90@2 30

NORTHWESTERN LUMBERMAN,
CHICAGO, July 7, 1880.

A tolerably good business has been done by lumbermen in all parts of the country since the date of our last report. Advices from the different sections show that, barring the slight reduction in the volume of trade due to the celebration of the mid summer holiday, the week has been as active as could reasonably be expected. The business doing nearly everywhere, in fact, may be described very simply, as satisfactory for the time of year. The demand is not extraordinary, and it cannot be said that there is an unusual boom in the trade; but the every day sales at most points are large enough to make the representatives of the distributing branch of the business feel that they are doing very well. The current demand would not be active enough for August or September, but for the early part of July there is very little about it that any reasonable operator can complain of.

This statement will hardly hold good in regard to prices. They are not satisfactory to all parties, though they are in practically the same condition as they have been for a week or two. Slight advances are reported on the river at one or two places, but aside from this there has been no important change in the situation. Generally, prices are said to be firm and fully maintained at quotations.

Some of the dealers here complain that they have to meet a pretty sharp competition from several Mississippi river points, which hardly accords with the reports from the markets along that stream that prices are firm and advancing. It is not unlikely, however, that there may be some foundation for this rumor. The shading of quoted rates is not so unfrequent that the adoption of this means of getting an advantage over a competitor can be looked upon as impossible or even very improbable. Admitting that the report is true, it complicates the situation considerably, for if after all the Mississippi men have said about their willingness to co-operate with Chicago in a reasonable advance, they resort to such questionable practices so early in the season, it is difficult to see how they would manage to maintain any figures that might be made as the result of a combination. The Lumberman has no desire to claim anything more for this statement than that it is a rumor, which is given for what it is worth. Meanwhile, the condition of prices at points outside the immediate range of competition with this market is not bad, to say the least. Eastern markets partake of the firmness that exists at the chief source of supply for that section—the Saginaw Valley—and hence there is no weakness of any consequence noticeable in the reports of the quotations that reach us from that direction.

The future of prices seems to depend as much as anything upon the amount of lumber there is to come from the Western saw mills this year, as compared with what they actually produced in former seasons. Some say the floods on the Mississippi and its tributaries have largely decreased the probable production of the mills depending upon the logs put into those streams for their supply, while others say that the actual shortage so produced will prove to be immaterial when the returns come in at the end of the season. It is almost impossible to get at the facts absolutely, and it is probable that the question will not be definitely settled until the work is done and the mills shut down. We are inclined to think that the loss is exaggerated by some and underrated by others. The time lost by the mills is a rather indefinite thing to figure on. It is difficult to say that the log supply before the freshet came equaled the full mill capacity of the valley, and that all the time the saws have been idle represents just so much reduction in the cut. Experience, we think, hardly warrants any such conclusion. But at the same time, there is an actual loss represented by the logs carried away which should not be lost sight of.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., July 8, 1880.

"Quiet and steady" is the report which reaches us from most of the lumber markets. The harvesting in Iowa, Illinois and westward stops the demand for lumber, but as the grain crops are magnificent, everybody anticipates a largely increased consumption and trade very shortly. In the Northwest the haying is an important item in farm labor, and this is now in progress in Dakota and Minnesota, and ought to make decrease in order, but does not.

Trade at Minneapolis, St. Paul, Stillwater, Eau Claire, and at the railroad mills, is all that could be expected or asked. Many of the mills are a long way behind on orders, and very few are soliciting any more. The only article of lumber sold under prices, so far as we can learn, is green dimension, shipped direct from the saw, and many justify this as there is a saving of expense of hauling and piling, and the consumer has to pay a much larger freight bill on the heavy stuff. The mills are now being pushed to their day capacity all along the line, but are not accumulating much stock on the yards, nor making up lost time. A fair demand for logs continues on the St. Croix for their special kinds, but we can learn of no transactions in Chippewa or Black river stock. The shipments from Minneapolis is the best certificate of the happiness of its lumbermen. They are all in a contented state of mind.

Chicago has done but little else than enjoy its Killenny cut freight over the question of forcing the

price of lumber down or up. There is really little significance in any movement so far. With a strong demand and not an overstock, the "bears" find it a large contract to hold prices where they are, and it is a good wager that they will not get the other 400,000,000 out of the Michigan mill men at anything less than present.

There is no move at any of the river towns to advance prices, nor can there be until Chicago gets through with her home fight and settles down to square business.

THE EAST.

The following items are from the Boston Commercial Bulletin:

MAINE.

The unusually dry season which has prevailed, following the little snow which fell last winter, has left the rivers very low in Maine. It is said that the streams have hardly been swelled to a log-driving pitch this season. The result of this, or the result of the drouth, is the interruption of the logging business. The streams throughout the State are contracted within narrower limits than ever known before. On the Penobscot there is said to be 50,000,000 logs "hung up"—left high and dry on the bank of the stream. On the Kennebec 40,000,000 logs are reported in the same useless condition, and on the Aroostook, 25,000,000. The Androscoggin is in a worse condition if anything. Even with all the vast facilities for storing water till wanted, at the lakes, the drives are "hung up" all the way down the river. One jam at Rumford Falls contains 5,000,000 logs. According to reports, there are not logs enough to keep the mills running till October, while it is common to have enough of the previous year's crop left over for the spring sawing. Between the Penobscot and St. John's Rivers there is reported to be 150,000,000 logs that cannot be made available before spring. Last spring logs were \$9 per 1,000, and a year ago \$3. They are now held at \$11.50. Contracts for future deliveries are not made, and only present needs are supplied.

The low water has impeded the log driving on the Connecticut River very much. No logs are expected down as far as Holyoke before July 20, though if the water was favorable they would be down in a week. An advance drive of some 15,000,000 feet was started early, and, as every effort has been made to hurry it along, it is now near Brattleboro, Vt. The company expected to get down an unusual quantity this season and started nearly 60,000,000 feet, but a good share of the logs have had very slow progress. Some 20,000,000 feet are still near McIndoes Falls, and many of the original drive will not be floated till the fall rains come. Over 700 men are employed. The water in the river is lower than the company have ever known it to be before, at this season.

FOREIGN.

The Timber Trades Journal of 3d inst. as follows:

We can now begin to comprehend the reason of the independent stand sellers of f. o. b. stock have assumed during the last few months, in spite of the depressed state of the building trade throughout the country. The fact is, sales have been effected quietly and the extent of the importation coming forward suggests the idea that some importers have intended to steal a little march upon their neighbors. "I have bought practically nothing," has been the continual assertion; the asseveration is hardly corroborated by the import list.

LIVERPOOL.

There is no change of importance visible in the business done during the past week, and upon all sides are expressions heard of the want of life in trade, buyers being uncertain as to the future, and hence will purchase only in quantities sufficient to meet their most pressing wants.

Upon the other hand, the latest advices from shipping ports, especially from Canada, all point to a great advance over the rates of last year, and in point of fact many shippers who in ordinary times would have no difficulty in shipping cargoes during the whole of the season, find themselves with little stock left unsold even at this early period of the year, and with little, if any, opportunity of purchasing more excepting at extremely high prices.

The importation of several cargoes of spruce deals and birch has caused prices to give way, and both these articles are now so low that buyers have all the best of the bargain.

The business during the past week has been confined almost entirely to retail orders, and as this period includes the last week of the half year, when dealers are disinclined to make any purchases, there has not been very much done in whitewood.

GLASGOW.

Referring to our import column, it will be observed that the timber trade here is again beginning to assume a more healthful appearance, and somewhat in keeping with the season, the landing wharf presenting a fair show of various American woods, all in course of being assorted and piled for sale.

At Greenock, on the 24th ult., Messrs. Allison, Cousland & Hamilton held a public sale of American log timber, particulars given below; and on the 29th ult., Messrs. Singleton, Dunn & Co. exposed for sale, at Yorkhill here, a cargo of St. John spruce deals and several parcels of 1st and 3d quality Quebec pine deals, and being among the first imports of the season there was a good attendance. A considerable portion of the spruce deals were sold, chiefly the best dimensions, and the Quebec pine, being superior, especially the 3d quality, were nearly cleared out at full rates, as undernoted.

On the 24th ult., at Greenock, Messrs. Allison, Cousland & Hamilton, brokers:

Av c ft per log Per cub ft.
Quebec waney board wood 43 1s 11½d.
" yellow pine 50 to 65 1s 2d and 1s 1½d.
" 40 1s.

Sawn pitch pine. 35 1s 3¼d.

On 29th ult., at Glasgow, Messrs. Singleton, Dunn & Co., brokers:

Quebec pine deals, per cub ft.—1st qual.—10 to 16 ft, 12 to 23x3—2s 9d to 3s. 16 ft, 11x3—2s 11d. 14 to 16 ft, 9 and 10x3—2s 10d. 14 ft, 11x3, 14 to 16 ft, 7 and 8x3—2s 8d. 12 and 13 ft, 11x3—2s 7d. 12 and 13 ft, 7 to 10x3—2s 6d, 2s 6½d. 10 and 11 ft, 10 and 11x3—2s 6d, 2s 6½d. 10 and 11 ft, 7 to 9x3—2s 4d, 2s 5d.

2d qual (1 lot)—12, 13 and 15 ft, 11x3—1s 8½d.

3d qual.—13 to 16 ft, 11x3—1s 3 ¼d, 1s 4¼d. 10 and 11 ft, 11x3—1s 3d.

St. John, N. B., spruce deals—9 to 13 ft, 13 to 15x3—11¼d. 21 to 24 ft, 11x3—1s. 11, 12, 14 and 16 to 20 ft, 11x3—11¼d. 16 to 23 ft, 10x3—11¼d. 10 to 14 ft, 10x3—11¼d. 9 to 11 ft, 8x3—10¾d.

Spruce battens.—20 to 24 ft, 7x2½—10¾. Scantlings—9 to 24 ft, 6x3 and 2½—10¾d, 10¾d. 9 to 23 ft, 2 to 5 x3—9¾d and 10 d. Deal ends—7 to 11x3—9¼d.

This week's mail from Havana reports:

White pine—Market continues fairly supplied and we quote \$34@35 gold, per mille feet, as to assortment.

Pitch pine—Continues scarce and \$38@40 per mille feet are the prices that are being pretended for first cargoes to come in.

METALS.—COPPER.—Ingot has moved rather slowly. There is some little demand but buyers do not appear anxious, and rarely go beyond immediate wants. Stock well together and pretty firmly held. We quote at 18¼@19 for Lake. Manufactured Copper moderately active and ruling about steady. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do, 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do du, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 28c per lb, and Bolt Copper, 28c per lb. IRON.—Scotch Pig iron most cases is held quite steadily and rather above buyers views, which tends to retard business somewhat. Odd lots, however, from landing parcels can still be picked up at comparatively low figures. We quote nominally at \$21.50@24.00 per ton according to brand and quantity. American Pig has not sold with unusual freedom, but the demand is picking up somewhat with evidences of a further growth and a good fall trade, provided no material addition to cost is made. This, however, is not very likely, as the policy of the entire trade is to hold in check all stimulants to increased production, and importation values firmer and the offering of stock careful. We quote at \$25.00@26 per ton for No. 1; \$23@24 do for No. 2; and \$20@21 for forge. Rails are pretty steady in tone, and a good demand said to prevail for steel but not much business reported. We quote at \$15@47 for iron and \$60@61 for steel, according to delivery. Old Rails \$24.50@25.50 per ton; scrap \$24@25. Manufactured Iron in fair demand and steady, but ample supplies and assortments prevent any positive advance in values. Nominally we quote Common Merchant Bar, ordinary sizes at 2 2@3.3c. from store, and Refined at 2 4@2.5c.; wrought beams at 2.9@3c. Fish plates quoted at 2¼@3¼c.; track bolt and nuts, 3¼@3½c. railway spikes, 2¼c. tank, 2.6@2.7c.; angle, 2.7c.; best flange, 4@4.1c.; and domestic sheet on the basis of 3 2c. for common Nos. 10@20. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig in moderately active demand without much change in cost. We quote 4¼@5c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 7c., and Sheet, 7½c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c. on same terms. TIN.—Pig has been in good demand and firm at advanced cost on the more favorable condition of the foreign market. We quote 20@20¼c. for Australian, 20@20¼c. for Straits, 20¼@20½c. for English Refined, 20@21¼c. for do. Common. Tin Plates have found a fairly jobbing demand and at steady rates of late, the supply being under fair control. We quote I. C. Charcoal, third cross assortment, \$6.25@6.37½c. for Alloway grade, and \$6.37½@6.50 for Melyn grade; I. C. Coke \$5.25@5.37½c. for B. V. grade; \$5.37½@5.50 for Yspitty grade; Charcoal terne \$5.50@5.75½c. for Alloway grade, 14x20; \$12@12.25 for do., 20x28; Coke terne, \$5.12½@5.25 for Glais grade, 14x20, and \$11@11.12½ for do., 20x28—all in round lots. Spelter offered to a fair extent, and with only a moderate demand; values lack buoyancy. Quoted 5@5½c. Sheet Zinc selling slowly, and ruling steady at 7¼@7½c. according to quantity.

NAILS.—Attempts to stimulate a little more animation have not proven successful, and the market generally retains about former characteristics. Stock can be reached at comparatively low figures, but this is not an incentive to buyers who complain less of cost than of the difficulty of distributing goods when they get them. The prospect for the balance of the month, however, is somewhat better, and several large orders are expected. No change has been made in the "list" rates, but to sell goods lower figures continue to be accepted. We quote nominally at about \$2.75@2.85 for 10d to 60d.

PAINTS AND OILS.—The movement of paints and colors continues largely of a jobbing character, and the market shows but little animation. Stocks in second hands are not very full, and in some cases

assortment is greatly reduced, but holders seem to think they can work along until the summer is fairly over, before making additions. Prices are to some extent nominal, but we find about the former range quite generally quoted, and it is doubtful if many concessions could be obtained. Leads appear rather irregular, but make no positive shading. Linseed oil has sold rather more freely, and developed a somewhat steadier tone, but the available supplies were found about equal to the wants of the market, and values did not change. We quote at 60c. from crushers' hands.

PITCH.—A slow distribution of supplies is taking place, and without incident worthy of special note. Stocks meet the outlet, with former rates accepted when bid. We quote at \$1.85@2 per bbl. for city delivered.

SPIRITS TURPENTINE—Some few calls for shipment have been made and a little more stock was taken on home account, but supplies balanced the outlet and the general tone ruled easy. There was, however, no pressure to realize. As this report is closed, the quotation stands about 27@28c. per gallon, according to the quantity of stock handled.

TAR.—Holders remain firm and pretty confident over their supplies. Demand not very active but fair for the season and former rates are submitted to with little hesitation. We quote at \$2.75@3 per bbl. for Newberne and Washington, and \$2.75@3 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

DOUGHERTY, ELLIOT & MORISON.—THE BUSINESS heretofore conducted by the undersigned as an importer and dealer in glass, at No. 13 Murray street, will hereafter be conducted by the firm of Dougherty, Elliot & Morison, in which firm I retain an interest as special partner only.

Dated, New York, July 10, 1880.

EUGENE DELANO.

The undersigned, succeeding to the good will of the business heretofore conducted by MR. EUGENE DELANO, at No. 13 Murray street, have formed a limited partnership, with Mr. Delano as special partner, for carrying on the business of importing and dealing in WINDOW AND PLATE GLASS under the firm of DOUGHERTY, ELLIOT & MORISON.

Dated New York, July 10, 1880.

FRANCIS DOUGHERTY.
HENRY A. ELLIOT.
ROBERT L. MORISON.

C. W. SWEET,

No. 137 BROADWAY

THE \$215,000 PURCHASE IN MADISON AVENUE.

When it became known in Pine street the other day that Mr. Pierrepont Morgan had purchased the house of the Hon. Walter William Phelps at the northeast corner of Madison avenue and Thirty-sixth street for \$215,000—the property fronting 65.8 on the avenue and 175 feet on the street—would-be experts as to values freely expressed their opinions in regard to the purchase price, which the majority considered excessive. Now, it is well, even for brokers and experts, to be reminded of what **THE REAL ESTATE RECORD** has often told them, that the prices of New York real estate depend not only upon future values, but mainly, where hard cash is at play, upon the personal preferences of the buyer. We will, therefore, as far as lies in our power, give a succinct history of this property and its immediate surroundings. The front on the east side of Madison avenue between Thirty-sixth and Thirty-seventh streets was purchased about thirty years ago by Messrs. J. J. Phelps, Wm. E. Dodge and Isaac N. Phelps, for almost nothing, so to speak. Messrs. Murray and Olyphant about the same time purchased the northwest corner of Madison avenue and Thirty-sixth street. These gentlemen subsequently built a residence which finally became the home of Bishop (now Cardinal) McCloskey. Mr. Olyphant also built a house adjoining, and the two houses have since been occupied by Messrs. Oothout and Lucius Tuckerman. The one hundred and ninety-seven feet constituting the east front on Madison avenue, between Thirty-sixth and Thirty-seventh streets, above alluded to, was divided in three good and equal grants of 65½ feet each. Mr. Walter William Phelps, the heir of Mr. J. J. Phelps, has now sold his corner for \$215,000 to Mr. Pierrepont Morgan. The latter gentleman, who had for a long time contemplated the idea of purchasing this corner, was in London when he made up his mind to give a fair consideration for this elegant mansion. The adjoining palatial residences are still occupied by Messrs. Wm. E. Dodge and Isaac N. Phelps, and the sale thus effected through Mr. Homer Morgan reflects credit not only on the broker but also on the new occupant, whose natural in-

clination leads him to prefer a residence in the immediate neighborhood of other bankers and capitalists. On Thirty-sixth street, immediately adjoining, resides Mr. James M. Brown, of Brown Brothers & Co.; on Thirty-seventh street are the residences of Mr. Norvin Green, President of the Western Union Telegraph Company, and of Mr. Lanier of the firm of Winslow, Lanier & Co. Commodore Garrison resides on the northwest corner of Park avenue and Thirty-sixth street.

It will thus be seen that it is worth something to reside in the immediate vicinity of such neighbors, and while the Hon. Mr. Phelps receives an excellent price for his property, Mr. Pierrepont Morgan may be congratulated at having secured such an excellent domicile, which really cannot be duplicated on Manhattan Island.

We understand that, in the course of very few days, General Newton, in obedience to an act of Congress, passed at the recent session, will begin to survey the Bronx River, with a view of improving it and making it a navigable river throughout. The Bronx is only navigable now from the morocco factory in West Farms to Long Island Sound, the remainder being shallow and full of rocks. Considering the steady influx of population on both sides of the river, especially the increase of manufacturing establishments, it will readily be seen how great will be the advantage to the adjacent property that will follow in the wake of the improvements, which it is generally believed will be set on foot as soon as General Newton shall have reported the results of his surveying expedition.

We print to-day in another column the new act providing "for the proper drainage of lands in the City of New York," which having been introduced by Assemblyman J. L. Wells, owing to his energetic efforts received the signature of the Governor, and became a law, the importance of which all property owners will appreciate. The necessity for this act arose from the fact that during the early part of this year the Court of Appeals decided the drainage act then in force unconstitutional, as it was in direct conflict with Section VII. of Article 1 of the Constitution, which provides that when private property shall be taken for any public use, compensation must be made therefor. The new law is especially applicable to the new wards, many portions of which sadly need a proper system of drainage, where sewerage is too expensive. As a sanitary measure the act is of great value, and if carried out faithfully

will render the upper wards as free from malaria as any other section of the city.

There appears to be somewhat of a misapprehension in regard to the manner in which the World's Fair Commissioners will go to work when they meet for organization in this city on August 10th. The general belief has been heretofore that they will at once appoint a sub-committee to select a site. This, we are now authoritatively informed, is premature. The only work expected from the Commissioners after their organization is the granting of authority to raise the required funds. For that purpose they will order books of subscription to be opened for at least six weeks. At the expiration of that time the subscribers to the fund will meet with the Commissioners, and a Board of Finance as well as a Committee on Site will then be appointed. It is, therefore, not likely that anything in regard to selecting a site for the World's Fair will be done until October, and perhaps not until November.

Builders and material men will be interested in the information furnished them to-day in another column in regard to the consumption of pine lumber, and the importation of cement. It is but natural that with the vast improvements going on in this section the West should be anxious to watch closely our supplies on hand, and perhaps take advantage of a supposed decrease in the stock. Our market reporter, however, as usual sets them at rest on this score. The extraordinary increase in the importation of cement footing up 96,000 barrels thus far in 1880—an increase of nearly 40,000 over 1879—will arrest attention, and satisfy builders generally that with this immense supply in the market, there is, at least for the present, no chance for a corner in cement.

The proceedings taken by the mechanics at the Rockaway Hotel were of the Higher Law order, not at all in accordance with the Mechanics' Lien laws of our State. Even the British consul who advised the Canadian workingmen to retain possession of the premises would have done wiser if he had taken counsel from an ordinary American lawyer. Of course the great public sympathizes with the mechanics, but they should look to their boss mechanics for their pay. The latter are under contract to do a certain work, and the law gives them the means to recover by attachment in accordance with legal process. To permit, however, a mob of workingmen to take possession of property, without due process of law, is something that even our

most advanced legislators have not as yet dared to engraft upon our statute books.

LAWS OF NEW YORK.

CHAPTER 530.

AN ACT to provide for the bringing of actions for relief in certain cases where agreements, contracts and instruments in writing have been recorded.

Passed May 31, 1880.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. When any agreement, contract or instrument in writing, relating to real estate, other than those required by law to be recorded, shall have been recorded, or shall be hereafter recorded in the office of the clerk or register of any county in this State, any owner of such real estate, or of an undivided part thereof, or of any interest therein, who claims that such agreement, contract or instrument in writing is invalid or void, or that the same cannot be enforced as against him, either in whole or in part, may bring and maintain, in any court of competent jurisdiction an action for the purpose of having such agreement, contract or instrument in writing declared void or invalid, or for the purpose of being relieved therefrom and to have the same canceled or discharged of record, as to said real estate or his undivided part thereof or interest therein, either wholly or as to such portion of such agreement, contract or instrument in writing as may be void or invalid, or which cannot be enforced as against him.

SEC. 2. This act shall take effect immediately.

AN ACT to provide for the proper drainage of lands in the city of New York.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Whenever, in the opinion of the board of health of the health department of the city of New York, the protection of the public health requires the drainage of any lands in said city, by means other than sewers, such board of health may adopt a resolution describing the location of such lands, and directing the proper drainage thereof by the commissioner or commissioners of the department of said city, having jurisdiction to construct sewers in that part of said city where such drainage is so required. Such board of health shall thereupon cause a map to be made, whereon shall be shown the location of such drains, and the lands required for the construction thereof. Such resolution shall be entered at length in the records of such board of health, and such map shall be filed in such health department. A copy thereof shall be filed in the office of the register of the city and county of New York. Such board of health shall cause another copy of said map, together with a copy of such resolutions, to be delivered to the commissioner or commissioners of the department in said city who shall, by such resolution, be required to construct such drains.

SEC. 2. It shall be the duty of such commissioner or commissioners, upon the receipt of such map and resolution, through the counsel to the corporation of said city, to take immediate and proper proceedings for the acquirement of a right of way over, under or through the lands shown upon said map to be necessary for such drains, and it shall be the duty of such counsel to the corporation immediately to take such proceedings and conduct them to a speedy determination.

SEC. 3. The right of way over, under or through the lands so required for such drains shall be taken and acquired in the manner provided by law for acquiring title to lands in said city to be used as public streets. Provided, however, that the time or times provided in such law for the giving or publication of any notice shall, for the purposes of this act, be reduced one-half, and the time for the sitting of the commissioners of estimate and assessment to hear objections to their report is, for the purposes of this act, hereby made two days in the place of ten days.

Any maps, plans or surveys that may be required for the use of the commissioners of estimate and assessment, to be appointed in such proceeding, shall be furnished by the department charged with the construction of the drains, and shall be prepared and made by surveyors in the regular and stated employment of such department; neither the expense of such surveys nor any other expenses, other than the fees of the commissioners of estimate and assessment attending the proceeding, shall be included in the assessment that may be made by such commissioners of estimate and assessment. The counsel to the corporation shall not be entitled to any compensation for services to be rendered by him in such

proceeding, other than his stated salary. The commissioners of estimate and assessment shall not be allowed any compensation for office rent, clerk or carriage hire. They shall each be entitled to receive the following rates as compensation for their services in full. Where the drain to be constructed is five hundred feet or under in length, the sum of twenty-five dollars. Where the drain exceeds five hundred feet in length, twenty-five dollars, and in addition thereto, five cents per foot for each running foot of drain in excess of five hundred feet, but the compensation of each commissioner shall, in no case, exceed one hundred and fifty dollars.

SEC. 4. Upon the confirmation by the court of the report of the commissioners of estimate and assessment in such proceedings, it shall be the duty of the board of estimate and apportionment of the city of New York immediately to authorize and direct the comptroller of said city to issue bonds in behalf of the mayor, aldermen and commonalty of the city of New York, to the amount necessary to pay the damages awarded to owners of lands for the right of way required for such drains, and to pay for the preparation of plans and surveys provided for as aforesaid, and for the fees of the commissioners of estimate and assessment, and from the proceeds of said bonds the said comptroller shall pay the damages so awarded, in the same manner as in the case of street openings, and the fees of the commissioners of estimate and assessment, and shall also pay the expenses incurred for such plans and surveys as above provided.

SEC. 5. Upon the confirmation of the report of the commissioners of estimate and assessment by the court, the commissioner or commissioners of the department in said city having in charge the construction of such drains shall have the power and they are hereby directed to make and adopt proper and suitable plans for such drains, and to construct them. The necessary cost of such drains, together with the necessary expenses of levying the assessment therefor, shall be levied, assessed and collected in the same manner as is authorized by law for the construction of sewers in said city.

SEC. 6. Chapter five hundred and sixty-six of the laws of eighteen hundred and seventy-one and chapter five hundred and forty-nine of the laws of eighteen hundred and seventy-five are hereby repealed; but such repeal shall not affect any action or proceeding now pending or cause of action existing by reason of anything done under the laws so repealed.

SEC. 7. This act shall take effect immediately.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

The few auction sales which took place at the Exchange Salesroom during the week, though poorly attended, nevertheless called out some lively bidding. A partition sale, by J. T. Boyd, of two four story houses on West Thirtieth street, about 150 feet west of Sixth avenue, resulted quite satisfactorily to the parties in interest, who had figured on about \$25,000. They were knocked down, the one at \$11,850, the other at \$12,300, to different parties. The sale of the southwest corner of Eighth avenue and Fiftieth street, 43.8x100, by Mr. Harnett, on Thursday, was really held to perfect title, and secured the attendance of Mr. Geo. Law. The old gentleman had one or two sharp competitors, but he finally secured it for \$28,500, the Eighth Avenue Railroad Company requiring it for stable purposes. On the same day, Mr. Harnett sold the southwest corner of Seventh avenue and Fifty seventh street, three lots on the avenue, and one street lot, for \$36,500, to Edward Kilpatrick, the corner lot being disposed of at \$13,300. During the past week some forty-five lots in Ravenswood, Queens County, were sold at auction for \$15,000.

GOSSIP OF THE WEEK.

While the ordinary summer quiet in transactions continues, dealers and brokers begin to be more outspoken in regard to the immediate future, and quite an active market is anticipated for September. There is perhaps no market where current events are more closely studied than in the real estate market, where there is no sudden jumping at conclusions, like on the Stock and Produce Exchanges. Thoughtful, deliberate judgment is exercised by investors, and their views are reflected in anticipation of coming operations by dealers and brokers generally. The general state of the country, the favorable condition

of the crops, the renewal of gold importations, and the steady flow of emigration, all tending to increase the wealth of this continent, are continually alluded to as so many reasons for a continuance of prosperity that will benefit real estate all over the country. While other States will reap the pro rata benefit of this prosperity, New York will get the lion's share, added as it will be very shortly now by enterprises and public improvements, characteristic of a metropolitan city. It is argued that already during the coming fall, and especially during the spring, shrewd investors will begin to discount in advance the events that will mark 1883 as a red letter year for our city. It is then that the Brooklyn Bridge will have virtually made one out of two cities, the Hudson River tunnel will then be completed, the Hudson and Harlem rivers will be united by a ship canal, the various rapid transit lines here and in Brooklyn will be up to the demands of an ever increasing population, and last, but not least, the great World's Fair will then be held. How all these matters will affect real estate in and around Manhattan Island even a novice can understand, but shrewd investors do not intend to wait until 1883 is at our doors.

That capitalists, even now, consider no sum too large if they can secure a residence in accordance with their ideas and in a locality where the surroundings are most agreeable to their tastes is evidenced by the purchase of the \$215,000 house by Mr. Pierrepont Morgan, an investment which has been commented upon at length in another column.

Other houses of considerable value have recently been sold like, for instance, the sale of No. 19 West Fifty sixth street by Messrs. E. H. Ludlow & Co. for \$14,500, which reached us at too late an hour last week for proper insertion. This week, Mr. John E. Bazley reports having sold the four-story brown stone house No. 5 East Forty-fourth street, the property of Mr. W. K. Vanderbilt, to Mrs. Ellen H. Smith, of Fifth avenue, for \$60,000.

Mr. Homer Morgan has also sold during the week, at private contract, No. 61 West Fifty-fourth street to G. M. Groves for \$30,250. The same gentleman has sold the Thomas place at Yonkers for \$25,000 to G. D. Pitkin.

The Valentine property, on Union street, Flushing, has been sold to a New York gentleman for \$4,500. The Thompson farm, of thirty-five acres, at Hicksville, has been sold to Mr. L. Margot for \$1,050.

The new assessment commission has not yet got into the regular working harness, and will not be until September. In the meantime, property owners affected by the new law are requested to file their claims with the Comptroller and corporation counsel.

In a recent competition for designs of city houses to be constructed in New York, the four prizes of \$100 each were awarded to Mr. John H. Friend, of New York, Messrs. Rossiter & Wright, of New York, Mr. Robert Brown, of Boston, Mass., and Mr. J. J. Gould, of Providence, R. I. The judges were, Mr. David Jardine, architect, Mr. C. O'Reilly, architect and builder, and Mr. T. M. Clark, architect.

The following are the sales at the Exchange Salesroom for the week ending July 23:

* Indicates that the property described has been bid in for plaintiff's account:

30th st (No. 111), n. s. 148 w 6th av. 25x95, four-story brick tenement and four-story brick tenement in rear. Denis Bannon. (Partition sale.)	\$12,200

John Dickinson.....	500
Total.....	\$25,931

BUILDING MATERIAL MARKET.

BRICKS.—The general showing on the market for Common Hards has been an easy one, and, while no great reduction on cost is to be recorded, the advantage was principally with the buyer. Accumulations afloat were not only always full, but showed considerable surplus, and customers who might have objections to urge over parcels in treaty, could suspend negotiations with full confidence that waiting over a day or so would make no difference in regard to supply or assortment available, and was not unlikely to prove advantageous in regard to cost. There has been no direct urging of sales, as the price is too low for that, but holders were free to operate whenever opportunity occurred. Consumption has either gradually fallen off, or has been provided for on previous purchase, but there is certainly much less demand for brick, and just about as great an amount seeking a market. The receipts have been of a general character, with Haverstraw Bay again contributing its average proportion. The production is said to continue without break, except such as take place through the influence of storms, but manufacturers have lately been talking over the propriety of shutting down. About \$4.25@4.10 for "Up-Rivers," and \$5.25@5.50 for Haverstraws are general cargo quotations, but have been exceeded on special lots. Pales are quoted at \$3@3.50 per M, but on this range the market is quite firm, and more stock could be used if available. We also hear of a little call for "lammies," which appear to be wanted in some sections of Brooklyn for foundation, and filling in on frame houses, etc. Fronts of all kinds firm, and in good, fair demand.

CEMENT.—There has been a large amount of Cement used this season, but there has been a still larger amount of it available, and, during the past four or five weeks, the surplus of supply over demand has wrought its natural influence upon values of both domestic and foreign. In Rosendale, manufacturers and dealers did a first-rate spring and early summer business, the distribution covering a large city demand, with liberal movements Eastward and Southward, some call for California, and a fair number of export orders. Suddenly, however, buyers became very scarce, offerings received little attention, sellers commenced to compete for such trade as could be found and prices made quite a decided drop, until finally \$8@85 became the operating rate, though the quoting rate was quite different, and, as a matter of course, much higher. At present the tone is very unsettled, but without signs of improvement. The manufacturers of Saylor's Portland have, in the meantime, adopted themselves to the situation, with a reduction on cost of \$2.50@2.75 per bbl., and the agents say they will continue to adjust their figures to a relative basis of the value of the imported article, and fight it out on that line, if it takes all summer. Foreign cements have found quite as bad a market as the domestic article, and, in reality, have all gone to pieces on value. There has been a quoted or list rate, but exactly where the selling rate stood it would be a very difficult matter to say, as the transactions were not so willingly reported as when the course of the market ranged in the other direction. We, however, hear of offerings as low as \$2.50@2.60 per bbl. for delivery and time within three months. It is possible that some of the principal brands have not suffered to this extent, and we know where large quantities have been placed on contracts made early in the season, but all have had to undergo reductions of late to secure attention from buyers. Further, it is asserted that the "free distribution" reported in some cases, was in reality merely a shipment of supplies to interior points to await events and relieve the pressure here. A great deal of very poor stock has come here with the good, and it is an unsolved problem what will be done with these undesirable goods which have accumulated heavily. The imports, since the first of the year, are the largest ever known in a like period, and show an increase over corresponding period of 1879 of 37,179 bbls., and are larger than the importations for the entire years of 1878 and 1877. Not included in the total below are some 20,140 bbls. received thus far this month, bringing the importation since January 1st up to over 96,000 bbls. At one time, within a few weeks, some 10@12,000 bbls. were afloat at this port awaiting a market. These figures speak for themselves.

The following are the importations of Cement at the port of New York for the periods named:

	1880.	1879.	1878.	1877.
Jan.....	4,406	3,616	4,770
Feb.....	2,586	950	3,502
March.....	3,048	5,175	2,835	470
April.....	20,533	4,605	8,520	555
May.....	22,708	12,620	9,555	1,000
June.....	22,657	11,823	6,883	1,150
Total.....	75,968	38,769	36,065	3,175

HARDWARE.—Demand continues to show more or less caution from most sources, and buyers evidently do not intend to move to any extent beyond immediate and positive wants if they can help it. Orders, however, have increased somewhat, especially from the southward, and the encouragement thus obtained induces a cheerful feeling among dealers who count with much confidence upon a gradual expansion of the demand into larger and more general volume. Values are gradually being brought down on leading articles, and this must act as an additional attraction for buyers it is naturally expected. The manufacturers of Brass Butts have agreed to reduce cost to discount 45 per cent. The following are the new figures for Eagle Anvils under 100 lb:—Nos. 3.0, \$1; 2.0, \$1.75; 0, \$2.25; 1, \$2.75; 2, \$3.25; 3, \$4; 4, \$4.50; 5, \$5.25; 6, \$6; 7, \$6.50; 8, \$7.25; 9, \$8.25. Anvils, 100 lb. and upward, remain as before; discount from the list, 20 per cent.

The meeting of the manufacturers of Wood Screws resulted in the adoption of the following rates of discount: Flat Head Steel 45 per cent, Round Head Steel 35 per cent., Flat Head Brass 35 per cent., Round Head Brass 20 per cent.

At a meeting of the Sash Weight Manufacturers of this city and vicinity, the following prices were agreed upon: In 500-lb. lots or more, 1 1/4 cents per lb. net. For all Dumb Waiter and extra size Sash Weights, 1/2 cent per lb. advance over the above prices. Terms—Net cash, 30 days. Regular standard sizes to run from 2 to 30 lbs.

LATH.—There is a pretty strong feeling current on this market. Supplies have continued moderate, and the indications are not favorable to the belief that they can greatly increase as the product from all accounts has been small and manufacturers are in very few cases willing to ship at the price now ruling. As yet, demand here does not show much animation, it being a little early for consumption to set in full, but the fall wants will be large and the accumulation in dealers hands has of late commenced to show quite a shrinkage. Out of town calls, also, have of late been numerous, and this outlet will exhaust quite an amount of stock.

LUMBER.—The general movement of supplies continues moderate, and it would be a difficult matter to place much stock at the moment, except at a concession. Orders given in pretty much all cases have the basis of early and positive wants alone, and demand shows an apparent lack of faith in lumber at present rates. Buyers may possibly be over cautious, but they certainly show an indisposition to invest with freedom now as to contracts for the future, and trade is slow. As the outlet stands, the supply is full enough, with something to spare in many cases, but still not so much of a surplus as to cause any very heavy pressure, and, with the market in its current condition, few additional amounts of importance are likely to be forwarded. A very fair fall trade is calculated upon if no attempt is made to "boom" values.

Spruce appears to have reached the usual period for a stand off between buyers and sellers, before entering upon the fall trade. On the one hand, there is the effort to make wants appear small and demand indifferent, with a view of gaining concessions, and on the other hand, is to be heard all the regular and stereotyped reports about the scarcity of logs, low waters, shutting down of mills, manufacturers losing money, etc., etc., and thus it is likely to stand until one side or the other makes a break to start business. Eastern accounts, of late, respecting supplies, have been as bad as the most rampant "bull" could wish, and sellers say this is the particular year when all the reports are to be confirmed. As high as \$19@20 is asked on extra difficult specials for fall delivery. Random on spot worth \$12@15, and the general run of specials, \$15@18.

White Pine remains about steady on most grades, with a continuation of fair demand for shipment mostly to the West Indies, and some call for home use. The latter demand, however, is, in a measure, curtailed by larger direct receipts for consumers account and general stocks accumulate a trifle. All advices from the interior continue strong. We quote \$17@19 per M. for West India shipping boards; \$22@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine is in pretty good stock with some holders giving indications of anxiety to realize. There is, however, no direct pressure as yet, and, generally, valuations remain about as before. Manufacturers, through their agents, are looking around for customers on fall and winter deliveries, and easy terms are suggested, but not much business accomplished. Indeed, the supply exceeds demand and tone is weak. We quote random cargoes at about \$24@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$25@26 do.; and dry do. do. \$25@27. Cargoes at the South \$16@18 per M. for rough, and \$20@21 for dressed at Gulf ports.

A paper published "out West" reprints our figures of receipts of yellow pine lumber, and, in commenting upon the steady increase in the volume of arrivals, suggests that the exhibit would be more gratifying were some information given as to the amount left on hand. Of course it would, but there appears no probable way of arriving at reliable data upon the subject. The lumber dealers are without an organization of any kind, and a few weak attempts to work up something of the sort has been summarily squelched under a general plea that the trade requires neither protection or information. There is, therefore, no official centre to receive and compile the figures, and THE REAL ESTATE RECORD, warned by past experience, does not propose to waste time and

money in the effort to reach an end which only a few leading dealers have shown a disposition to aid and support. It may be noted, however, that within the past thirty days the accumulation must have been quite rapid, as a great many randoms were piled out for want of a market, and a number of specials arriving too late to meet the terms of contract have been rejected and gone to swell the amount awaiting sales. Previous to this, however, the demand was remarkably good, as shown in our reports, and the reshapes therefrom by New York correspondents to interior papers, and the call covered additional orders from the Elevated railroads (about the largest customers the previous year), liberal purchases for hotel building at Coney Island and Rockaway, as well as for railroad improvements on routes leading to these points, and a great deal of summer cottage work at all suburban watering places. Many million feet were also consumed in building grain elevators, docking improvements, the Brooklyn Bridge, etc., and there was more than the usual wants for warehouses, factories, and other heavy building purposes. Yellow pine was not brought here to pile up and look at, and, while there is some surplus on the market at the moment, matters will eventually work around into good shape again.

Hardwoods are wanted, but the desirable offering proves quite small, and the market has a dull tone. For attractive stock full rates could be obtained. We quote at wholesale rates by carload, about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. ellis, \$18@30 do. cherry, \$45@75 do.; white wood, 1/2 and 3/4 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do. for Western, and \$65@75 for good nearby stock.

Shingles remain quite steady on all grades and continue to sell very fairly to all regular outlets. Stocks not large. We quote Cypress at about \$6 for saps, and \$8 50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A and \$23.75@33.25 for No. 1; for 24-inch, \$6.50@16 for A and \$16.75@23 for No. 1; for 20-inch \$5@10.50 for A and \$11.25@11.75 for No. 1.

At the yards, the distribution of stock is very fair and tending to increase somewhat with the demand of a general character. Values are well maintained.

The export of shingles from the port of New York, for the first six months of the past four years compare as follows:

	1880.	1879.	1878.	1877.
No.	No.	No.	No.	No.
January.....	299,000	181,000	170,000	113,000

GENERAL LUMBER NOTES.

STATE.

The Albany lumber market, for the week ending July 20th, is reported by the *Argus* as follows:

There is not any change in the value of pine lumber, but we have a firmer market to report than at any time this season since the opening. We hear of no sales of round lots; nor is there any disposition to press sales; still the business since our last report has been very good to the East, New York, Brooklyn, New Jersey, etc. The market is in good shape; stocks ample and well assorted.

In coarse lumber we have not any change to report in quotations. Stocks of hemlock and spruce

continue very light, and the canal receipts are taken as fast as they come in. But little rain has fallen on the line of streams leading to the Northern mills.

The Canada Lumber manufacturers are actively employed; much of the product will, of course, reach this side the St. Lawrence, but the manufacture of deals for the English market is far more profitable; hence the shipments in that direction will curtail the supply for the American market.

The receipts of lumber by lake at Buffalo for the week are 7,794,000; by rail, 70 cars. At Oswego, 6,467,000 feet.

Freights from Bay City to Buffalo and Tonawanda, \$2.25 @ M. feet; from Saginaw, \$2.50. From Buffalo to Albany \$2.80; from Tonawanda to Albany, \$2.75 @ M. feet. Lake Ontario freights from Port Hope to Oswego, 9 c. @ M. feet, from Toronto to Oswego, 100c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M. feet.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette Office.

BAY CITY, July 19, 1880.

The market continues in the satisfactory condition prevailing for some time past. The demand is less active than during June, but still is of a surprising character for this time of year. The heated term seemed to cause no diminution of orders, and about the only thing checking sales has been the inability to find the stock to buy. Sales are still made ahead of the cut, and the present outlook reveals no point where an unfavorable change can take place. The consumption of lumber at the East is very large, and with an easy money market there is nothing to prevent business and the inauguration of new enterprises. Sales of various amounts at \$7, \$14 and \$30 and \$7.50 \$15, \$33@35 are reported; also some coarse stock at \$6.50, \$13 and \$30. The shipments from the river last week were about 30,000,000 feet.

The trade in shingles has been active and prices well maintained. Nearly all the river mills have sold their cut ahead. Sales have been made at \$1.90@2.00 for clear butts and \$2.90@3.00 for XXX.

Freights continue at figures previously given, namely: \$2.25 from Bay City to Buffalo and Tonawanda; \$1.75 to Ohio ports; \$2.50 from Saginaw to Buffalo and \$2 to Ohio ports.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., July 15, 1880.

The news printed elsewhere to the effect that the Beef Slough Company had agreed to make an exchange of logs, so as to supply the several mills on the Chippewa with a stock for the season, has a most important bearing on the supply of lumber for the fall business. There can be no such thing as an overstock made this year, and had this exchange not been effected, there would have been a shortage, that, like Michigan, they would have certainly been called upon to furnish a large amount of stock to the wholesale men of the river. As it is, there will be enough without outside aid. There is nothing in the situation but what is encouraging for every man in the business in the West, either as manufacturer or dealer. A grand harvest is now well assured and safely garnered in all the middle belt of country. General prosperity is visible everywhere, and if the lumbermen do not share it, it will be their own fault and folly. A very few yet remain in the business who are working for glory, and are utterly indifferent to the filthy lucre. That sort have mostly got tired out and quit. The rest ought to ask for a furlough for the balance of the year.

Trade at St. Louis continues to run about 25 per cent above the business of 1879. The shipments run from 600 to 800 M per day; prices firm.

At Chicago there is no laughing on the back seats, and profanity is the only consolation taken in by both parties.

Saginaw is truly bappy over her shipments of 275,000,000 this year.

Dubuque is proud and happy over a 2,000,000 business per week.

Clinton is having her full share of a trade much larger all over the West than last year.

Minneapolis shows up a good record of nearly 4,000,000 per week, which comes to her without special effort.

NORTHWESTERN LUMBERMAN,
CHICAGO, July 14, 1880.

The week ending to-day has brought no important developments in the condition of the principal markets for lumber. Both in respect to volume and prices, the trade is in practically the same state as was described last week, and as the Lumberman has been describing for several weeks past. Sellers have very little complaint to make about the amount of business they are doing. They could not reasonably expect the demand to be better at this time; and generally we think there is very little, if any, dissatisfaction expressed with it. At some points, trade is even active to a remarkable degree. Our reports from Saginaw and along the Michigan shore of Lake Huron, describe the business doing at the principal manufacturing points from which the eastern and southwestern demand is supplied with white pine lumber, as unprecedented for the season of the year. The fact that all the lumber the mills in that section can make is bought up as soon as it leaves the saw, and much of it before its manufacture has even begun, indicates that the lumbermen at the East anticipate a lively demand this season for Michigan pine. Some of this lumber will no doubt go to make up the deficiency in the home supply for the East; caused by the hanging up of a large portion of the logs put into the water in Maine. It is estimated that the shortage due to this circumstance will reach 200,000,000 feet,

and may considerably exceed that figure. But this fact is not sufficient of itself to explain the extraordinary activity at the eastern Michigan producing points. There must be some other influence at work to make lumber so much in demand, and it can be nothing else than the prospect, which has already assumed the character of a strong probability, that the consumption of lumber at the East this season is to be exceptionally large. It is impossible, upon any other hypothesis, to explain the fact that such a demand now exists at primary points, and we think our readers will gladly accept this as the true solution of the puzzle.

That no positive and radical change in prices has occurred yet, is not to be regarded as strange, for the reason that such a movement must originate, of necessity, in Chicago, and the dealers here have wisely refrained from any attempt to force such a thing upon the trade prematurely. There is no necessity for undue haste. Prices now are not ruinously low. That they are lower than it is desirable to have them, everybody admits; but it is better to get along with them in their present shape for a week or two, than to take the risk of a collapse after the advance is started. When the change is made it should be made to last, and if it is brought about judiciously, it will last. Everything now is working steadily toward the end desired. The general tone of the trade is becoming firmer every day, and shortly this firmness will culminate in a unanimous desire for a higher list. Then prices will be put up, and the trade may look with confidence to see the new figures fully maintained.

FOREIGN.

This week's Havana mail reports:

White Pine.—Market is now better supplied and under a moderate demand. We quote \$32@34 gold per mille feet, as to assortment.

Pitch Pine.—Continues scarce and \$38@40 per mille feet, as to class, are the prices that are being pretended for first cargos to come in.

Cooperage Stock.—Box Shooks.—Market continues heavily supplied and the demand has entirely subsided; prices nominal.

Mild. do.—Large stock of those for sugar that find no buyer; prices entirely nominal, those for molasses are less abundant, and also without quotations.

Empty Casks.—Neither stock nor demand at present.

Hoops.—Stock continues exceedingly heavy and entirely neglected at nominal quotations.

The Timber Trades Journal, with dates to 10th inst., furnishes the following:

LONDON.

The first sailing vessel wood laden to enter the port of London from Quebec this year was the full-rigged ship Hovding, belonging to Moss, near Christiania. This vessel left Quebec on the 6th of June, and entered the West India Docks on the 5th of July, after a favorable passage. Her cargo consists of 3d pine deals and a special parcel of birch timber, which will be delivered in the docks mentioned, but we understand the deals are going into craft overseas. It is somewhat remarkable that this vessel left Quebec with another of the same nationality, the Canada, both bound to London, and arrived within a few hours of each other. The cargoes of both vessels are for Messrs. Bryant, Powis & Bryant, of Leadenhall street, E. C. The Hovdings, like the Mary Anns and Janes of our coasting trade, seem to be common among our Scandinavian friends, as another of the name, also pine laden from Quebec, is due in port.

Pitch pine logs display a tendency to advance in price. The increased consumption of this wood during the last few years has not been one of the least marked features of the timber trade. At no very remote period it was despised by architects, and considered unable to bear a strain; now the wood is not only largely employed as weight-carrying beams, but it is also used for joinery work of the highest class, and in the best class of buildings.

Second Quebec spruce regulars, unreserved, fetched at the sale £7 15s. to £8 5s, though only one out of eight went at the lower figure, probably owing to the bidding being nearly exhausted by the previous lots sold. Halifax 3x11 spruce, all qualities, was knocked down at £7 5s. and £7 10; pitch pine planks kept at their normal level of £10 15s and £11; fresh birch timber excited some competition, and 18 in and upwards realized \$3 5s. per load, while under 18 in went at 10s. less. Very few lots of flooring were sold, although a very good assortment was catalogued. The result looking at prices as a whole, and keeping in mind the conditions under which the goods were offered, gives no evidence of a weakening market, and we are glad to see values for American goods hold up so well in view of the large supplies close at hand.

LIVERPOOL.

The import of spruce deals has been in excess of the requirements of the trade, and in this article prices have given away; but this and birch timber are the only two that have receded. Pitch pine timber is firm at late prices, and will be yet dearer before it is cheaper, as prices abroad are very high and the wood scarce, which, together with the great difficulty experienced in obtaining tonnage to bring over what little is ready for shipment, makes shippers unwilling sellers at present, unless at a considerable advance over rates now current.

Last week we wrote of the high cost of Canadian goods, and advices received since then point to a still further advance, especially in all first-class goods, whether timber or deals; and, as most shippers have already sold on contract to their fullest extent, there will be only a very small quantity of pine timber or deals sent here on the market, and it is therefore

possible that the number of auction sales will be fewer during the ensuing season than is usual.

GLASGOW.

Cargoes of deals continue to arrive here, and are in course of preparation for sale, but at Greenock and Port Glasgow, the North American timber import business, which is usually very large, can hardly be said to have commenced, most of the Quebec traders having had long passages outward, owing to ice obstructions in the Gulf. These ships have not yet arrived in Clyde, and will be much later than usual. The first of the new wood brought to market should be readily taken up by shipbuilders, who bid fair to be our principal consumers this year.

NAILS.—Demand has been moderate and careful both on home and shipping account, and buyers generally still resist temptations to anticipate their wants. There is more doing than at the opening of the month, however, with a belief that the movement will generally increase. The combination of manufacturers continue to meet and "resolve" that price lists shall remain as before, but actual business is on a more advantageous basis for buyers than the official lists. We quote at \$2.75@2.85@3 per keg according to quantity.

PAINTS AND OILS.—The demand is erratic and the market without any very solid basis at the moment. Holders of most of the leading descriptions, however, retain a fair amount of faith in their stocks, and the offerings are carefully made while a full line of former figures is in many cases quite steadily insisted upon. Generally, supplies are equal to any ordinary call, but not growing rapidly as the importation is light and the home product moderate. Linseed oil in pretty good demand, but the movement not as free as desired and with considerable competition from the western product local producers have inclined to shade cost a trifle. The general quotation, however, remains at 60c. from crushers' hands.

PITCH.—The demand continues slow and careful and confined to ordinary trade orders. Supplies full enough to meet all wants, and held with much confidence. We quote at \$1.85@2 per bbl. for city, delivered.

SPIRITS TURPENTINE.—A somewhat unsettled tone prevailed, but with no wide range on values. Pretty good controlled stocks prevent a shrinkage on price, while attempts to increase cost check the demand. Most of the business has been on home account. As this report is closed, the quotations stand about 27½@28¼c per gallon, according to the quantity of stock banded.

TAR.—The market is very well maintained, and holders show no anxiety to operate, the small supply in hand giving them great advantages. The prevailing call moderate, and principally for ordinary trade lots. It is said that only about 100 bbls. are available in first hands. We quote at \$2.75@3 per bbl. for Newberne and Washington, and \$2.75@3 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

REAL ESTATE.

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

ROOM FOR THE MANUFACTURING INTEREST.

The official figures showing the foreign trade of the country during the fiscal year ending June 30, 1880, are at last published, and cannot fail to produce that confidence in the permanence of prosperity which is the main source of prosperity itself. That a country constantly growing in population and full of thrift, contains a vast army of consumers of home products, needs no illustration, but that in the face of this steadily increasing home consumption we have been unable to export merchandise, the value of which was \$125,000,000 greater than the amount exported during the previous fiscal year must be, indeed, encouraging to those who can at all comprehend how sharp is the competition in the neutral markets. All this aside of the exports of gold and silver coin and bullion. It is the result of energy and thrift on the part of Western farmers and Eastern manufacturers, who can produce and make more than we require, and sell that surplus to foreign lands at a profit. That profit in some manufactured articles may not have been great, but it is a healthy sign of the times when capitalists and producers generally begin to understand that it is better to keep on manufacturing, and sell say one-fourth of their products at a low rate in foreign country, if by so doing they keep up the employment of labor, and can sell the remaining three-fourths of their products more readily and to greater advantage to home consumers. All these intricacies that underlie the progress of manufacturing in this country have become better understood during the past five years, and while the East is losing more and more its hold upon agriculture, the manufacturing interest is slowly and steadily coiling, anaconda like, in and around the great Eastern cities. We know retired merchants, still in their prime of life, who once more have gone into business during the past six months, and, when the nature of their business was enquired into, it was in every instance manufacturing. More than this, most of these new establishments make articles of fashion and luxury, thus showing that wealth in our midst is constantly on the increase, and sufficiently wide-

spread to place the home manufacturer on a par, if not ahead, of the foreign importer. It may, perhaps, interest our readers to know that one of our large jewelry establishments is now exporting gold bracelets to Europe and selling them at a profit in Paris.

Of course, where, in the presence of so much competition, it becomes a virtual science to reduce working expenses to their very minimum, it cannot be expected that these establishments can all find room on the high-priced soil of Manhattan Island; but our suburbs, where real estate is yet obtainable at low figures, will be taken in hand for the erection of numerous new manufacturing establishments. It was only a few years ago that cotton merchants continually growled at the high price of real estate in New York, as they could not afford to build on Manhattan Island cotton warehouses sufficiently large to store the thousands of bales they had constantly on hand. They growled long enough till somebody fixed their attention upon the suburbs, and now we can boast of possessing the largest cotton warehouses in the world. Not in the midst of our city, it is true, but on Staten Island, in Brooklyn and Jersey City, where the thousands of bales are stored just as close to the shipping point as if they were packed in mammoth warehouses on Manhattan Island, and with a considerable reduction of price for the ground occupied. The example of the cotton men will, ere long, be followed by the large manufacturers, who are increasing all around us and calling for more room. They will in vain look for permanent extensive quarters on the island at rates allowable by the cost price at which their manufactured articles must be produced if they at all desire to be successful. It is beyond the Harlem and beyond the Hudson that they can be accommodated, and as there is plenty of land there yet to be had by the acre at reasonable rates, it is important that those having charge of manufacturing interests should not overlook the advantages which the suburbs of New York offers in this respect, for it is an interest, indeed, which year after year becomes a more and more important link in the great chain containing the sources of our national prosperity.

A WORD WITH SOME UP-TOWN LOT OWNERS.

The REAL ESTATE RECORD has time and again blamed the public departments, notably the Department of Public Works, for neglecting those necessary West Side improvements that must precede the construction of houses by individual lot owners.

We have pointed out how, in some sections, capitalists and owners stood ready to build if their respective streets were only regulated, curbed and guttered, so that those desirous of improving could have no excuse for retarding their operations. There are West Side sections, however, where this excuse does not hold good, and we therefore address ourselves to-day to West Side owners who have no reason to find fault with the work done for them by the public departments, and who can, if they will, begin at once the construction of much needed houses. The section we particularly allude to is bounded by One Hundredth and One Hundred and Sixth streets, Eighth and Tenth avenues. The streets in that locality are all in a condition for immediate improvement, and it only needs a little energy on the part of one or two lot owners to make them all follow their example and do likewise. To show that there is capital enough, and more than enough, to do all the building that is required to make this section remunerative to the owners of the soil, and at the same time increase the value of adjoining property, we give a few names of owners who own lots in the district above described. There is the estate of Wm. D. Murphy, owning about fifty lots; Orlando B. Potter, about thirty; Alexander Roux, twelve or fifteen; ex-Governor Edwin D. Morgan, about forty; Robert Marshall, some fifty lots; David Knapp, about forty; Edward Kearney and wife, or heirs of the Glendenning family, about twelve lots, and Miss Susan King also owns quite a number of lots there. If a few of the parties named above, and nearly all of them are public spirited citizens, would set to work and build some forty or fifty houses there at once and without delay, it would be indeed a pioneer movement for that locality, which would result in profit to the owners and general benefit to the city at large. It only needs a start. Who will open the ball? Let two or three or four of the most energetic men of those mentioned confer together. If each individual should only improve a part of his vacant property, it would at once tend to increase the value of his adjoining lots, and a beginning will have been made toward providing domiciles for families that prefer to live on the high, salubrious ground there, rather than on the low ground of the East Side. Whatever has been done in that line south of the section named above has been followed by good results, and the time is ripe now to go to work at once with the practical improvement of the blocks lying north of One Hundredth street. The owners named, if they follow our advice, will thank us in less than a year for the suggestion we now make,

with a thorough understanding of the pecuniary advantages to be derived by them.

THE IMPROVEMENT OF PARK AVENUE.

LAWS OF NEW YORK.—CHAPTER 558.

AN ACT to authorize the improvement of the public squares, parks or places in the Fourth avenue, between Sixty-seventh and Ninety-sixth streets, in the city of New York.

Passed June 10, 1880; three-fifths being present.

The People of the State of New York, represented in the Senate and Assembly, do enact as follows:

SECTION 1. The department of public parks of the city of New York, are hereby authorized and directed to proceed with the improvement and inclosure of the several public squares, parks or places laid out and established within the lines of Fourth avenue, in the city of New York, between Sixty-seventh and Ninety-sixth streets, in said city. But said squares or places shall be so laid out and established as not to change, alter or interfere with the Fourth avenue improvement, or with the plans and openings established and carried out by the board of engineers of the Fourth avenue improvement.

SEC. 2 To provide the money necessary to do the work, authorized by the first section of this act, the comptroller of the city of New York is hereby authorized and directed to create and issue, upon the requisition of said department, in the name and on behalf of the mayor, alderman and commonalty of the city of New York, a public fund or stock, not exceeding fifty thousand dollars in all, whereof twenty-five thousand dollars shall be payable on the first day of November, eighteen hundred and eighty-one, and the balance of twenty-five thousand dollars on the first day of November, eighteen hundred and eighty-two, with interest at the rate not exceeding six per cent. per annum; and the proceeds of said fund or stock shall be applied to payment for the work, labor and materials required to be done under the authority of this act.

SEC. 3 The board of estimate and apportionment of the city of New York is hereby directed to include in the final estimates of the amounts required to pay the expenses of conducting the public business of the city and county of New York, during the years eighteen hundred and eighty-one and eighteen hundred and eighty-two, an amount sufficient to pay in each of said years one-half of the principal and interest of the fund or stock authorized to be issued by this act.

SEC. 4 This act shall take effect immediately.

TITLES TO VALUABLE REAL ESTATE UPSET.

Judge Cooke, of the Supreme Court, filed with the Kings County Clerk on Wednesday his decision in the suit of Bollermann against Blake, which involves the title to a large amount of property in Washington, Willoughby, Waverly, Portland and DeKalb avenues, Brooklyn, estimated to be worth a quarter of a million dollars. The estate was owned by Caspar Bollermann at the time of his death in 1866, and was claimed by his direct heirs, two brothers and one sister, of Wiesbaden, Germany. By power of attorney their lawyer sold portions of the estate, the purchasers supposing that they received good titles. Two years ago Leopold Bollermann, a scissors-grinder in this city, and John B. Bollermann, an employee of the Department of City works in Brooklyn, instituted proceedings to establish their rights as heirs to the property as citizens of this country, the German heirs being debarred legally from receiving the estate. A test case was selected, Charles Blake, of No. 230 Washington avenue being made defendant, to prove the title to his house. Judge Cooke's opinion gives judgment to the plaintiffs. It discusses the facts in the case under the treaty of 1844 between the United States and the Grand Duchy of Hesse, and the act of the Legislature of 1868 releasing the title of the estate to the relatives. Judge Cooke holds that on the death of the ancestor the title was vested in the plaintiffs, as the nearest relatives who were citizens of this country, subject, however, to the power of conveyance for two years granted to the alien heirs by the treaty. No conveyance having been made in the required time the right to it was lost.

By this decision the plaintiffs get the profits of the estate since 1866, which are estimated at \$100,000. There are about thirty houses on the property. The plaintiffs trace their relationship back to Joachim Bollermann, who emigrated to this country in 1658. The case may go to the Court of Appeals.

A SUIT FOR DEFICIENCY AGAINST A BISHOP.

On October 22, 1879, a decree of foreclosure was entered against St. Anthony's Roman Catholic Church, Greenpoint. The sale did not realize the amount of the mortgage. Mrs. Mary Williams held a second mortgage of \$30,000 on the property, and obtained an order in the Supreme Court for leave to sue Bishop Loughlin, of the diocese, the bondsman in the case, for the amount of the deficiency. The bishop asked for and obtained from Mrs. Williams an extension of time to pay the deficiency and reduced the amount of the debt to \$23,000. On Monday last, Hon. John McKeon, on behalf of Bishop Loughlin, made a motion before Judge Barnard in the Supreme Court to vacate the order permitting Mrs. Williams to sue the bishop, on the ground that no notice was given the opposing party, as required by the code. Mr. C. C. Mudge, on behalf of Mrs. Williams, said that he was not proceeding under the code, but under a provision of the statute which did not require the notice claimed. There had been no surprise in the matter, as the bishop had proceeded to liquidate the debt and had made no complaint against the proceeding until now. The plaintiff desires to get her money. Decision reserved.

FORECLOSURE OF MECHANICS' LIEN.

In the New York Court of Common Pleas, Special Term, Judge Van Hoesen presiding, in the case of Robert McMurray *versus* Robert Hutcheson, it was held that "a sub-contractor filing a lien after an assignment for the benefit of creditors by his contractors is entitled to judgment against the owner, contractor and his assignee for the foreclosure of the lien, and is not compelled to share in the general fund in the hands of the assignee as an ordinary creditor. And where the assignee of the contractor has paid the amount of the lien to the County Clerk, and the lien has thus been discharged, the amount so deposited is in lieu of the property, and the lienor, upon bringing his proper action, is entitled to judgment for the payment to him of the money so deposited."

NEW YORK'S MODEL WAREHOUSE.

Phoenix like, there has arisen on the ruins which, for such a length of time, marked the destruction by fire of one of the largest warehouses in New York, a new building, 100x200, the property of Mr. George Bliss and Mr. F. H. Cossitt, which is as near fire-proof as anything can be. The walls are brick and the Broadway, Grand and Crosby street fronts are faced with iron. The iron is all hacked with brick so as to make it impossible for fire to be conducted from one floor to the other through the walls, as the walls are solid. Even the iron posts are filled with brick, and the sash weights are hung outside. The cornice is metal, backed with brick. The roof is tin and the ladders leading to the scuttles, as well as the scuttles themselves, are of wrought iron. The boilers for supplying steam heat and power are under Crosby street, outside the line of the building wall.

The exterior of the building is a plain iron facade, on all three streets painted white. It is very high and it impresses the spectator with its solidity. The basement ceiling is twelve feet high, and the ceilings of the first floor and lofts are a number of feet higher. There are one hundred and fifty windows in the building, giving an abundance of light and making each floor an extremely attractive show-room. Each floor is a single immense room, measuring two hundred feet by fifty, and the basement is even larger, as it is enlarged by extensions on all sides fifteen feet in width which run under the sidewalk, the sidewalk above being glass.

Messrs. Mills & Gihh occupy the whole building, and have divided the immense warehouse in so many departments, forming part of their extensive business. There are the white goods, linen, embroidery and lace departments, then come the places for velvets, cashmeres, neckwear and notions, and finally the hosiery departments, and the floors set apart for packing and shipping. Of course, all of the floors are united by staircases, elevators for passengers as well as freight. The building is six stories high, rising to an elevation of one hundred feet above the sidewalk. Mr. John Correja, of 141 Broadway, is the architect, and Mr. R. L. Darragh the builder. There are over four hundred feet of vault lights in this building furnished by Mr. James L. Jackson, of 315 East Twenty-eighth street

who has also supplied the entire iron fronts, the cornices and the iron scuttles. Mr. Philip Herman, of 405 West Fourteenth street, has attended to the carpenter work, and in his contract was also included the supplying of stairs and sashes as well as the painting. The plumbing has been done on the most scientific principles by Harkness Boyd, of Grand street, while all the glass of this large warehouse has been supplied by Mr. E. A. Boyd. The building is to be lighted by electricity throughout, and the apparatus therefore has been supplied by the Western Electric Manufacturing Co., Church street, which firm has also superintended the construction of the automatic fire alarm in said building. Otis Bros. had the contract for the passenger and freight elevators. The steam boilers and steam heating, etc., have been supplied by Gillis & Geogheghan, and everything pertaining to the building has been finished with first-class mechanical skill and conscientiousness.

MARKET REVIEW.

For list of lots and houses for sale see pages iv and v of advertisements.

REAL ESTATE MARKET.

There was but little to interest outside buyers at the Exchange Salesroom during the week, the offerings being few and unimportant. On Thursday, Messrs. Lespinasse & Friedman offered some valuable business property on Lisenard, Greenwich, Doyer and Harrison streets, but, as it was only a half interest, no outsiders, but only parties in interest made bids, Mr. Oliver Bronson securing it for \$22,410. A lot on Seventy-first street about one hundred feet east of First avenue was sold at auction during the week for \$3,000.

GOSSIP OF THE WEEK.

Following the example of other markets, where activity has not been seriously interfered with, even during the hot summer days, there also appears to be a disposition in the real estate market to resume operations before September. During the past week, some transactions in vacant property have been closed and more contracts will be signed during the first days of the coming week. It will also be seen by our advertising columns that owners and brokers are beginning to make announcements and are disposed to test the market. Some eligible lots on Lenox Hill are offered by Mr. C. T. Barney, and several lots on One Hundred and Twenty-second street, ready for immediate improvement, by King & Stevens.

Mr. Moritz Bauer has sold during the past week his twelve lots on the southwest corner of Second avenue and Seventy-first street for \$66,000. There are four lots on the avenue and eight on the street. The purchaser intends to improve them at once.

Scott & Myers have sold at private contract four lots on the south side of Eighty-fourth street, 175 feet east of Ninth avenue, for \$19,500.

The One Hundred and Twenty-seventh street lots, sold as recently reported in this column for \$2,850 each, were resold by Mr. Lionel Froehlich, for \$1,250 each, or a sum total of \$39,000, to Mr. H. J. Burchell, who has since taken title to the same.

It will be seen by referring to our columns of transfers that only one-half part of the Evening Express building, No 23 Park row, has been sold by Mr. J. Wilton Brooks, for \$80,000.

The Department of Public Works will shortly be transferred to No. 31 Chambers street, the Sinking Fund Commissioners having authorized the execution of a lease of the premises from July 1, 1880, until May 1, 1885, at \$12,500 a year, with the privilege of renewal for five years more at \$1,000 a year.

The old Church of the Messiah, Broadway opposite Waverly place, which has been used as a theatre recently, is to be torn down and a row of warehouses erected on the site, the property belongs to the A. T. Stewart estate. It will further be seen in our list of projected buildings that important improvements are being made along Fifty-seventh street and Ninth avenue. A seven-story brick apartment house, costing \$115,000, is to be erected on the southwest corner of Ninth avenue and the street mentioned above. Two other buildings, costing in the aggregate \$68,000, will be built on the same street, fifty feet west of Ninth avenue. A thirty-one foot front apartment house is to be erected on Eighty-third street, west of the Grand Boulevard, and two houses are to be built

on the southeast corner of the Boulevard and One Hundred and Eighth street.

From Brooklyn we hear of the sale, at private contract, by Mr. J. C. Eadie of No. 325 South First street, corner of Ninth street, 25x77, with three-story brick building, for \$5,500, to Mr. Henry Ross of New York.

"A Subscriber," who, in a postal card, endeavors to point out "mistakes" in our columns of transfers, is informed that, if he will make himself known, we will show him that the boot is on the other leg—that no mistake has been made by THE RECORD but a decidedly important one by our anonymous correspondent.

The following are the sales at the Exchange Sales-room for the week ending July 30:

* Indicates that the property described has been sold in for plaintiff's account:

*East Broadway, s s, 47.4 w Clinton st, 24x87.6. James Saunders. (Leasehold.) (Amount due, abt \$1,650)	\$3,000
Lispenard st (No. 17), n s, 25x100

*Orient av, e s, 50 s Liberty av, 50x100. Alvin F. Hill	1,000
*Brooklyn and Jamaica plank road, cor Rapelje av, 63x146x63x163. Samuel Beatty	1,000
Total	\$32,675

BUILDING MATERIAL MARKET.

BRICKS.—There is really nothing of interest on the general market at the moment, business moving along quietly, and values keeping down to about a basis of former figures. The balance between supply and demand shows a slight surplus of the former, and this naturally neutralizes any effort to secure an advance on price. Sellers, however, do not at the moment, appear much inclined to make any special effort toward buoyancy, and are content to keep cargoes moving at the return to be secured rather than take action calculated to injure trade in any way. "Up-Rivers" have sold at \$4@4.50, and Haverstraw's at \$4.75@5.25, with choice at \$5.50 M., and on this line of quotations business is still under way, as we write. Pale Brick continue stiff in price, and the demand exceeds the supply with a prospect that consumption will prove full for some time to come. At the manufacturing centres, work continues full, and in addition to the amounts sent forward there is considerable stock piling up at primary points. Makers are still talking about stopping work, but no time is fixed or even suggested, so far as can be ascertained. Front Brick are in about proportionate demand, and remaining steady on all the principal makes.

HARDWARE.—The movement of supplies is of somewhat irregular character and the manner in which invoices are made up show that buyers have

by no means departed from the caution which has long governed demand. Business, however, is unquestionably on the increase and all present indications are favorable for a good fall trade. Some of the lists on regular goods are still under revision, looking to an adjustment in accord with reductions heretofore announced, but all new figures are well maintained and the selling interest finds quite a support in the renewed firmness on metal. Among changes not before noted by us are the following: The manufacturers of Iron Wire now quote Bright and Annealed, Nos. 0@18, 45@47 1/2 per cent. discount. A revised price list has been issued by the Hammond Hammer Co. with discount of 20 per cent. on orders of \$100 and upward. The Gaylord Manufacturing Co. have reduced the price of German Drawor and Till Locks.

LATH.—We have heard of two or three cargo sales since our last and all at \$1.50 per M, which seems to have become a fixed rate. Receivers, however, claim that it cannot remain fixed long, on the theory that the wants of dealers are gradually but surely increasing and that this must soon be reflected upon the wholesale market. Eastern advices, too, are strong, and having succeeded in securing an advance on lumber, manufacturers will be more inclined than ever to use efforts to increase the cost of lath. We occasionally hear of odd lots of the old speculative accumulation coming on sale.

LIME.—Demand has been good and exhausted everything available as well as the bulk of the stock to arrive, so that current receipts do not help the position much. Indeed, there is a very strong market all around, and the full figures of the late advance are maintained on both Eastern and State stock. Of the latter, there is said to be a fair amount within call.

LUMBER.—Some few points of improvement have been shown, but are confined to one or two grades, and, as a whole, the market remains in a dull condition. Consumers who are under engagement for fall work, which will require special cuts, etc., appear to have become converted to the theory that nothing can be gained on price by holding off, and they have, therefore, entered into contract for a portion of their supplies, especially such as may be drawn from the Eastward. The feeling, however, is not sufficiently general to create liberal demand or much excitement and many of the selling interest seem to be disappointed because the lumber market does not start off into a new "boom." It is not unlikely this disappointment will have to be borne with for some time at least. A great deal of stock will be wanted before the close of the season, but buyers are likely to practice self-denial in a large number of cases, should the cost be forced too high upon them. Accumulations here are growing a trifle, but no dealers appear to have a surplus of attractive quality. From pretty much all points in the interior the accounts are strong.

Spruce is not much wanted at the moment, the yards carrying a fair supply and fresh consumptive calls proving moderate. Buyers, however, have been bringing in schedules and making contracts for future, in some cases at very extreme rates where the cut required was of extra difficult character. There is evidently some fright over the continued reports of a prospective scarcity of supplies, especially of the more desirable logs and their product, and where there is no possibility of doing without stock it is deemed judicious to make engagements. Many, however, without denying a probable reduced supply are, upon a basis of former experience, unwilling to admit of a coming famine, and there is no doubt the extravagant character of some of the assertions made in the interest of the producer greatly neutralizes the effect intended, by restricting demand to those who can by no possible means do without, or find a substitute in some other class of goods. Randoms are quoted at \$13.50@15, and specials, \$15.50@18, with choice lengths on close terms as to time of delivery, \$1@2 per M. higher.

White Pine is, as a rule, held with a considerable showing of steadiness and the general average of valuation does not vary materially. A great deal of stock comes in and the accumulation increases a trifle, but the bulk of the receipts appear to have a place provided and, as before noted, include a number of parcels bought at primary points by the large consumers. Exporters are moving slowly and with caution, positive orders alone being taken as a basis for negotiation. We quote \$17@19 per M. for West India shipping boards; \$23@24 for South American do.; \$15.50@16.50 for box boards; \$17@18 for do. wide and sound do.

Yellow Pine is plenty enough for all demands, with quite a surplus to spare and the tone of the market continues slack. A better and larger assortment than usual can be found on the spot, and agents appear to have an authority to offer much more for future delivery than can be disposed of even at reduced cost. There has not, however, been quite so much disposition to shade of late and the tone is on the whole steadier at the close. We quote random cargoes at about \$24@25 per M.; ordered cargoes, \$34@36 do.; green flooring boards, \$25@26 do.; and dry do. do. \$25@27. Cargoes at the South \$16@18 per M. for rough, and \$20@21 for dressed at Gulf ports.

Hardwoods sell very well and command full prices if the stock is thoroughly seasoned and attractive. Otherwise the offering is neglected and has no regular value. Advices from the interior are, as a rule, quite firm. We quote at wholesale rates by carload, about as follows: Walnut, \$77@85 per M.; ash,

\$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do. cherry, \$45@75 do.; white wood, 1/2 and 5/8 inch. \$25@27.50, and do. inch. \$33@35 do.; hickory, \$35@45 do, for Western, and \$55@75 for good nearby stock.

The demand for invoices from the yards is fair and on the increase with buyers wants covering about the usual ground. Values are generally well maintained and dealers firm and confident.

From among the lumber charters recently reported we select the following:

A Br barque, 383 tons, from Montreal to Montevideo or Buenos Ayres, lumber, at or about \$16; an Am brig, 474 tons, from Portland to River Plate, lumber, \$13.50; an Am harque, 550 tons, from Portland to Paysander, lumber, and back to Baltimore, private terms; an Am brig, 466 tons, from Bangor to Rio Janeiro, lumber, \$14 net, free of Rio lighterage; an Am brig, 256 tons, from Machias to Cienfuegos, lumber, \$9.25; a schr, 140 M lumber, from King's Ferry to New Haven, \$8.50; a schr, 190 M lumber, from Jacksonville to New York, \$8.75; a schr, 100 M lumber, from Charleston to New York, \$6.50; three schrs, from Norfolk to New York, pine lumber, \$3; a number of schrs, from Richmond to New York, oak ties, 17c.; two schrs, 285 and 289 tons, hence to Charleston, Belgian paving blocks, \$10 per M, and hack with lumber, \$7@7.50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	427,645	16,703,580
South America	255,102	11,086,523
East Indies, Africa, etc	102,983	4,549,812
Europe, Continent	130,000	1,934,290
Europe, United Kingdom	160,000	5,775,045
Total	1,075,730	40,049,250

GENERAL LUMBER NOTES. STATE.

The Albany lumber market, for the week ending July 27th, is reported by the *Argus* as follows:

We have not any change to note in the price of Pine Lumber, but the tendency is strongly upward. Increasing activity is noticeable throughout the District, which presents an appearance very different from the usually dull month of July. Several round lots have changed hands during the week, including one lot 1,250,000 feet of box to go to New Brunswick, N. J.; beyond these the general trade to New York, Brooklyn, New Jersey and the East have been good. The receipts, mainly of new cut, have been very free; stocks are ample and are in very good assortment.

Coarse Lumber continues in very good demand at steady prices. Spruce and Hemlock are going off freely with steady receipts; Hemlock is in fair stock; Spruce is only in moderate supply. The connection made between the waters of Indian and Peseco lakes and the Hudson River has furnished additional power to the Northern lumber mills.

The Saginaw market continue to be largely sold ahead of the make and they remain in the satisfactory condition prevailing for some time past; the demand is of a very surprising character for this time of year; the heated term has caused no diminution of orders; the only thing checking sales is the inability to find stock to buy. The shipments from the river for the week are 30,000,000 feet.

The receipts of lumber by lake at Buffalo for the week are 10,003,000 feet; by rail, 58 cars. At Oswego, 4,200,000 feet.

The receipts at Albany by canal from the opening of navigation to July 23d were:

Bds. & Sctg. ft.	Shingles, M.	Timber, c. f.	Staves, D
1879..	106,487,700	2,706
1880..	155,908,700	224	5,400

Freights from Bay City to Buffalo and Tonawanda, \$2.25 @ M. feet; from Saginaw, \$2.50. From Buffalo to Albany \$2.75; from Tonawanda to Albany, \$2.75 @ M. feet. Lake Ontario freights from Port Hope to Oswego, 90c. @ M. feet, from Toronto to Oswego, 100c., and from Oswego to Albany, \$1.80. From Ottawa to Albany \$3.75 @ M. feet.

River freights are without change.

THE WEST.

The following from our special correspondent arrived too late for the last number of THE RECORD, but, as it contains matters of general interest, we make room for it this week.

CHICAGO, July 21, 1881.

Up to the present time the lumhermen of Chicago have been transacting this season only an average business. In point of volume, it has kept along with that of last year, the amount actually handled varying but a few feet at any time. The demand, while not what would be called good, has been fair for the spring and early summer season; at first it was thought that the consumption of stock would be very large, but bad roads in the country during the earlier weeks of the season, and the weakness and uncertainty of prices at the principal distributing markets, later, combined to lessen the purchases of the farmers in the West, upon whom, it may be said, the lumhermen of this section depend very largely to consume their products. The local demand has

been good, the erection of a considerable number of new buildings in the city creating a market for rather more than the usual quantity of lumber. The course of prices has, as is usual at this season of the year, been downward from the established figure of the first quarter of the year. With the opening of navigation, prices invariably drop, because of the fact that a majority of the yard dealers buy a large portion of their lumber afloat, and when the time comes for stocking up, prefer selling low in order that they may also buy pretty well down towards the bottom of the scale. Their plan is generally successful, and it commonly happens that the prices, both at the cargo market and the yards, go down steadily until midsummer. But this year this plan failed to operate to the satisfaction of the bear interest. The prices of lumber at the yards declined steadily enough; they could not do otherwise with one-half of the trade bent on cutting them; but the cargo prices failed to respond to the downward movement and fall off to a corresponding extent. The result has been, that while the value of cargo lumber has been maintained pretty steadily, many of the yard men have been selling their stuff for less than it could be replaced. They have become tired of this sort of thing now, and are beginning to brace up a little, the "bears" being evidently satisfied that their efforts to put down the price of lumber afloat will not prove successful, and that they will therefore not be able to retrieve their losses by stocking up their yards at low prices.

Yesterday the first movement was made in the direction of higher prices. A meeting of the dealers convened in the Exchange Rooms, and immediately proceeded to adopt a new list of prices. A similar meeting had been called some two weeks ago, but owing to a lack of harmony between the "bull" and the "bear" interests, it was found impossible to agree upon any uniform prices. The latter have now found that it is useless for them to stand out longer against the logic of circumstances, and are willing to accept the situation as it is. I have condensed into the following list the principal part of the schedule issued yesterday:

YARD PRICES.

1st and 2d clear, 2in.	\$45 00
1st and 2d clear, 1 1/4 and 1 1/2 in.	43 00
1st and 2d clear, 1in.	42 00
3d clear, 1 1/4, 1 1/2 and 2in.	37 00
3d clear, 1in.	36 00
A select, 1 1/4, 1 1/2 and 2in.	33 00
A select, 1in.	31 00
B select, 1 1/4, 1 1/2 and 2in.	25 00
B select, 1in.	21 00
A stock boards, 12in.	36 00
B stock boards, 12in.	32 00
C stock boards, 12in.	25 00
A box boards	42 00
B box boards	36 00
C box boards	25 00
D box boards	16 00
1st common flooring, 6in. D. & M.	32 00
2d common flooring, 6in. D. & M.	30 00
3d common flooring, 6in D. & M.	22 00
Fencing flooring, selected.	15 00
1st and 2d clear flooring strips.	35 00
A siding strips.	32 00
B flooring strips.	30 00
B flooring strips.	28 00
1st and 2d clear siding	18 50
1st common siding.	17 50
2d common siding.	16 00
3d common siding.	12 00
Beaded ceiling, \$1 more than siding.	
Common boards, 10 and 20 ft.	12 50@13 50
Common boards, 12, 14, 16 and 18 ft.	11 50@12 50
No. 2 boards.	9 50@10 50
No. 1 fencing.	12 00@13 00
No. 2 fencing.	10 00@11 00
Joist and scantling, 12, 14, 16, 18 ft.	10 00@11 00
Timber under 18 ft, 4x4 to 8x8, inclusive.	10 50@11 50
2x4, 10 and 20 ft.	12 00@13 00
20 feet	11 50@12 50
22 feet.	14 00@15 00
24 feet.	15 00@16 00
26, 28 and 30 feet.	18 00@19 00
Clear shingles.	2 85@3 00
Extra A shingles.	2 50@2 65
Standard A shingles.	2 25@2 40
Lath.	2 00@2 25

[The inside prices in the above, are for green stock.]

This list is a slight advance upon the prices current here before the meeting—about 50 cents upon common lumber, fencing and dimension stuff. It is chiefly valuable in that it gives the quotations sent out here more uniformly than they have previously had. Before adjourning, the meeting passed the following:

"Resolved—That it be considered dishonorable for any concern to publish a list quoting prices below those made by this meeting."

I find it to be the general impression that the new list will be faithfully observed by the dealers. The meeting by which it was made represented fully four-fifths of the entire trade, and in the absence of any important influence of a weakening character, it will hardly be possible for the other one-fifth to create any disturbance, even if it were so disposed.

The present condition of trade is all, or nearly all that the operators in this market can ask for. Orders are coming in rapidly, and at all the yards there is as much business on hand as can well be disposed of from day to day. All the indications go to show that this is not a temporary flurry but the beginning of an active season, that will undoubtedly cover the entire time between this and Dec. 1. Ad-

vices from the interior report the outlook flattering, and, in accordance with this, retail dealers are buying pretty freely in anticipation of a good trade. Some parties in the trade take a very sanguine view of the situation. In conversation a day or two since with one of the largest operators on the Mississippi River, your correspondent was assured that the prospects for lumbermen and their business were never brighter than they are to-day. In opposition to this is the fact that there is a very large supply still to come forward, and it is possible, though not probable, that it may, by and by, have a depressing effect upon the trade. The practical reduction of the Mississippi Valley supply to the extent of some 200,000,000 feet by the floods last month, however, will help to lessen this danger of an over supply, and, indeed, if the present prospects of a good demand do not prove misleading, all fear that there will be too much lumber will be forgotten in less than sixty days.

SAGINAW VALLEY.

Lumberman's Gazette Office.

BAY CITY, July 26, 1880.

The inquiry for stock continues good, but transactions are limited by the lack of desirable lumber on the market. Orders cannot be filled as readily as last month, so many orders having then been placed ahead. Prices are firm and the impression prevailing in the trade is that the present figures will be maintained throughout the season. The most important sale reported is one of 2,000,000 feet as \$7.25, \$14.50 and \$32. For a lot of choice lumber it is said \$7.50, \$15 and \$35 was refused, and \$8, \$16 and \$36 asked. This shows how limited is the quantity of desirable lumber on the market.

The general outlook continues favorable, although some disposition to "bear" is observable in New York. The dealers there will undoubtedly wake up to find themselves behind hand with their stock, as the Chicago dealers have done, for the demand from other sections is now absorbing all the stock on the market. Maine and Pennsylvania are certainly behind hand, from the hanging up of logs, and the Canadian stock is neither inexhaustible or altogether desirable. Trade continues good at Buffalo, Albany and Boston, as well as at the Ohio ports, and this fact, with the condition of our own market renders it improbable that prices will decline to any extent in the East. Money is easy and the manufacturers are practically masters of the situation. It is gratifying to know that they entertain reasonable views.

Shingles are in active demand, and the stock offering is quickly taken at \$1.90@2 for clear butts and \$2.90@3 for XXX. These prices are for standard river brands; some country brands may be bought for less.

Lake freights are steady at \$2.25@2.50 to Buffalo and Tonawanda, and \$1.75@2.00 to Ohio ports, outside figures for Saginaw. Plenty of cargoes are offering. The shipments last week were some 20,000,000 feet. There is likely to be a considerable increase this week.

The following from the *Northwestern Lumberman*:

The general tone of the markets of the country continues of a most favorable character, as regards the disposition to consume lumber, and with but the slightest indication from any point of a lack of disposition to lay in stocks or to handle with the utmost freedom. At the East the indications point to a rise in real estate, which to the lumber trade simply means an increase of building projects and a corresponding demand for building materials. A glance at the fact that the specie resources of the country are at this time over \$500,000,000, while the United States and national bank notes aggregate \$690,000,000, coupled with the prospect that the influx of specie during the balance of the season is in all probability to reach a volume never equaled in the history of the country, and we at once have all the conditions before us of a feeling of ability to do, which will, no doubt, develop into the actual undertaking of business projects on a scale commensurate with the confidence which the condition of things is calculated to inspire. That the crops of the country are all that the most sanguine can desire, is now placed beyond a shadow of doubt, while the prospects for a foreign demand at remunerative prices are most encouraging to the hopes of the western farmer, who has the grain to dispose of, as well as the manufacturing element of the East who are to share in the benefits accruing from its sale.

The New York market has evidently felt the effect of the recent condition of things in Chicago, and the trade at that point, not appreciating the causes which had led to a decline in Chicago and fearing that there might be more in it than they could at once discern, the market has been reported as having less tone than was warranted by the general condition of the lumber business in the country at large. Still, prices have been steady, exhibiting no disposition to recede. Our advices from Pennsylvania, are to the effect that only about one third of the logs have been got in at Williamsport, and the market at Philadelphia is firm, with an advancing tendency.

From the Northeast we learn that the excessive droughts have largely curtailed the log crops of the Connecticut, Kennebec and Penobscot rivers, and with a good general demand for lumber, the tendency is to an advance in the values of all varieties. The curtailing of the Spruce, Hemlock and Pine supplies from the rivers named, has its effect upon the markets of Boston, New York and Philadelphia, as well as upon the demand at Albany and western points, for the productions of Michigan and western Canada. At all points east of Michigan, the feeling is one of timidity, with an advancing tendency reported everywhere. At Saginaw, the mills are reported cutting on lumber contracts 60 days ahead in nearly every case, while the prices are as high as the owners of stock feel to be desirable, even to themselves, in the interest of a healthy future trade. On the west

side of Michigan, the demand for lumber is represented to be active, with stocks contracted ahead to such extent as to give rise to the assertion that not more than 160,000,000 feet of the season's cut at Muskegon, remained to be sold on the first of July. This statement, if correct, is a fair indication of the condition of things upon the entire eastern shore of Lake Michigan.

The market of Eastern Wisconsin is properly tributary to this city, and is faithfully performing its part of the task of supplying Chicago, with its requisite stocks. Western Wisconsin and the Mississippi valley, while curtailed by the recent freshets to the extent of from 235,000,000 to 250,000,000 feet from the expected product of the current season, through loss of logs, but more particularly through loss of time from a delay of the mills, will, from all indications, fall but little, if any, short of the product of 1879. While the actual loss of logs from going below the mills where they were to be sawed, will probably reach 50,000,000 feet—which will yet figure in the product of another year—the loss of a month's time will be nearly or quite compensated in the earlier start of fully a month at the beginning of the season, supplemented by the increased energy which will be called out by the demands of the market. A review of the entire field leads us to sum up with the conclusion that the consumptive demand from all portions of the country is an increasing one, with an unexceptional indication in every direction of advancing values.

LUMBERMAN AND MANUFACTURER, }
MINNEAPOLIS, Minn., July 22, 1880. }

Notwithstanding the terrific efforts of the bears in Chicago, backed by the only paper which pretends to make any specialty of the lumber trade, the business of the city seems to be improving. Cargo rates are a shade better, and yard prices stiff. It is "manifest destiny" that the lumber makers of Michigan are to have living prices for their products from this time forward and the knot of middlemen in Chicago cannot prevent it, even if they have to go to work for a living.

St. Louis is happy in a good business with fair receipts and large shipments. All hands stand ready for Chicago to give the word and up goes prices.

Hannibal is feeling the shortage resulting from the floods, worse than any other point on the river. Stocks are light, but trade is good, and prices firm. The dealers now realize the mistake in the reduction early in the season. They will not probably repeat the experiment again.

Since the above was written, the proceedings of the Lumbermen's meeting at Chicago, on Tuesday, have reached us and from which it appears that prices have been so materially advanced as to call for a corresponding increase at all points along the river, whether they are in direct competition with Chicago, or not. If anybody on the river hesitates to support the movement at Chicago by an advance of his list, he should be immediately expelled from church, as there is no excuse which can be given for such perversity. There is no reason for any point on the river being \$1 less than Chicago. The excuse heretofore has been that we must wait for Chicago to move. Now is the proper time to act.

FOREIGN.

The *Timber Trades Journal* is at hand with advices to 17th inst.:

LONDON.

Whatever may be the opinions regarding the tendency of values in the Baltic trade, the evidence is pretty plain from the other side of the Atlantic that we are not going to witness any decline on pine goods in this market; the inclination seems rather the other way, and it is highly probable that before the present season reaches its close the best kinds of pine will improve, while, if we are to give full credence to the reports that reach us from across the water, there is a possibility of a scarcity of that essential article of commerce. The United States are, so it is said, buying up all the prime quality logs to be had as fast as they are cut down. This, however, must not be taken for more than it is worth, as, when it comes to be analyzed, the effect on our markets here will not be of that grave character that one would be apt to infer at the first blush, and the supplies will not be influenced to any considerable extent, as we are given to understand what our Yankee friends are seeking for on the Canadian frontier is a superior class of timber to what is in the ordinary way shipped to our shores. In fact, we have it from a good authority that in the States much of what we term first quality is classed among their lower grades, and which their own forests keep them tolerably supplied with.

At Messrs. Churchill & Sim's sale, last Wednesday, spruce went very indifferently; a parcel of St. John, 3x11, 12 feet unassorted realized £7 15s. per Petersburg standard, and some 3x9, freshly imported, were knocked down at £7 10s. Had these goods been offered unreserved, the likelihood is they would not have done even so well, a parcel of Miramichi that was unreserved going at 5s. less than the last quotation. These prices do not betray any great come-down, but they sufficiently indicate that buyers are not prepared to have this article pushed on the market too freely. Some 1st quality St. John were put up at £9 5s., but there were no bidders. The same with regard to a parcel of 1st Quebec bright pine, submitted to the room at £22 10s. to £23 15s., that failed to tempt buyers, not because the goods were not worth the money, but from the fact that the trade here are already supplied, and can look with sangfroid on this class of goods in the sale, unless they see a bargain going.

LIVERPOOL.

There is apparently a more healthy feeling in this

market, and with more inquiry from the country districts sellers are firm. Advices from abroad show the probability of a short supply in nearly every article, and therefore sellers are now indifferent for business, unless they can get a fair price for their goods, and this disposition becomes almost every day more and more strikingly marked, especially with holders of good to prime qualities of all kinds of timber and deals.

At the auction sales of last week this was prominently shown, where the auctioneer declined to go on at the prices offered, although there was a good company of buyers, composed not only of local dealers, but of country consumers, and a fair amount of the spirit of competition evinced; yet they felt justified in withdrawing portions of several cargoes of spruce deals, rather than sell at the prices offered.

The imports into this market continue to be nearly all spruce deals and birch timber, and, although they have come forward very freely, no material reduction in prices has taken place; in fact, the quotations given a week ago are about the prices of to day, as will be shown from the returns of the last auction sales, as set forth below.

This week's steamer from Rio Janeiro brings dates to July 5th, and reports as follows:

Pitch Pine Deals—No arrivals, and with only three vessels reported as loading in the United States, prices will most probably go above 40\$000 per dozen 3x9x14.

Spruce Pine Deals—We have not a single arrival to report, worth 31\$000 per dozen. Needed.

White Pine Lumber—The arrivals consist of 218,528 feet, viz: 158,157 feet ex Nettie from New York, sold at 100 rs. per foot, 60,371 feet ex Amy A. Lane from New York, sold at 100 rs. per foot.

The market closes weak at 100 rs. per foot, owing to the fact that over 200,000 feet are held by second hands on speculation.

METALS.—**COPPER.**—Ingot has met with only a slow and uncertain demand, and the market as a rule had quite a dull tone. Stocks, however, were moderate, well under control and holders firm at full former rates in pretty much all cases. We quote at 18 3/4 @ 19 for Lake. Manufactured Copper in good average demand, and the tone of the market steady. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 31c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 26c per lb, and Bolt Copper, 28c per lb. **IRON.**—Scotch Pig in the hands of importers is very plenty, but it appears under good control, and, with a growing demand, the market is strong, at advancing rates. As we close, the valuations is at about \$22.00 @ \$26.00 per ton, according to brand and quantity. American Pig has continued to sell with moderation, and few buyers could be induced to take supplies to an extent exceeding early and well known requirements. There has been a moderate, and rather diminishing offering of desirable stock however, and on all leading brands cost was advanced. There is a sanguine feeling among the trade that we are on the eve of another "boom," and an excited fall market is predicted. We quote at \$27.00 @ 28 per ton for No. 1; \$23 @ 24 do for No. 2; and \$21 @ 22 for forge. Rails have found quicker and larger sales, and the market has strengthened with reduced offerings of both domestic and foreign. We quote at \$46 @ 48 for iron and \$63 @ 65 for steel, according to delivery. Old Rails \$27 @ 28 per ton; scrap \$26 @ 27. Manufactured Iron has scarcely met with a movement in proportion to that of pig, but all stocks are held with firmness, on a full limit of valuation. Nominally we quote Common Merchant Bar, ordinary sizes at 2 1/2 @ 2 3/4 c. from store, and Refined at 2 3/4 @ 2 5/8 c.; wrought beams at 3 @ 3 1/2 c. Fish plates quoted at 2 1/4 @ 2 1/2 c.; track bolt and nuts, 3 1/2 @ 3 3/4 c. railway spikes, 2 1/4 c., tank, 2 @ 2 1/2 c.; angle, 2 1/2 c.; best flange, 4 @ 4 1/2 c.; and domestic sheet on the basis of 3 1/2 c. for common Nos. 10 @ 20. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. **LEAD.**—Domestic Pig has sold with a little greater freedom, but the supply available for the outlet was ample and no great advance on price secured. Holders in all cases refrain from pressure. We quote 4 1/2 @ 4 5/8 c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 7c., and Sheet, 7 1/2 c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c. on same terms. **TIN.**—Pig has found a continued good demand, and with the stocks under control, holders were firm at higher rates. The amount of supplies afloat is said to be unusually small. We quote 21 @ 21 1/2 c. for Australian, 21 1/4 @ 21 1/2 c. for Straits, 21 1/2 @ 21 5/8 c. for English Refined, 21 @ 21 1/4 c. for do. Common. Tin Plates were not extensively sought after, but in small lots, considerable stock went out, and values ruled firm, closing with an inclination to buoyancy. We quote I. C. Charcoal, third cross assortment, \$6.25 @ 6.37 1/2 c. for Allaway grade, and \$6.37 1/2 @ 6.50 for Melyn grade; I. C. Coke \$5.25 @ 5.37 1/2 c. for B. V. grade; \$5.37 1/2 @ 5.50 for Yspitty grade; Charcoal terne \$5.50 @ 5.75 for Allaway grade, 14x20 @ 12.25 for do., 20x28; Coke terne, \$5.12 1/2 @ 5.25 for Glais grade, 14x20, and \$11 @ 11 1/2 c. for do., 20x28—all in round lots. Spelter selling moderately in small lots, but the general tone of the market rather firmer. Quoted 5 1/4 @ 5 1/2 c. Sheet Zinc has found about the ordinary demand, and closes steady, at 7 1/4 @ 7 1/2 c., according to quantity.

NAILS.—An irregular tone has continued on this market, and it seems difficult to bring matters into

really satisfactory shape. Manufacturers and dealers make an effort to infuse greater strength and confidence, but find buyers far from tractable, and it frequently becomes necessary to vary values in order to effect sales. The general tendency, however, is upward, and it would now probably prove difficult to find anything, except a few outside lots, for less than \$3 per keg. We quote 10d to 60d, common fence and sheathing, per keg, \$3.00; 8d and 9d, common do, per keg, \$3.25; 6d and 7d, common, do per keg, \$3.50; 4d and 5d, common, do per keg, \$3.75; 3d and 4d, light, per keg, \$4.50; 3d, fine, per keg, \$5.25; 2d, per keg, \$5.25.

Cut spikes, all sizes, \$3.25. Floor casing and box, \$3.75 @ 4.50. Finishing, \$4.00 @ 4.75.

CLINCH NAILS.

1 1/2 inch, \$5.50 @ 5.65; 1 3/4 inch, \$5.25 @ 5.35; 2 inch, \$5.00 @ 5.15; 2 1/2 @ 2 3/4 inch, \$4.75 @ 4.85; 3 inch and longer, \$4.50 @ 4.60.

PAINTS AND OILS.—The distribution continues slow and uncertain and the general market without many really encouraging features at the moment. Out of town dependent points have not yet exhausted supplies and local wants are small. Dealers, however, are hopeful of a good trade, soon to develop, and, while adjusting rates to suit the circumstances of the present, are not willing to offer stocks freely or contract for the future except at pretty full figures. Linseed oil has not found much demand outside of jobbing orders, but these foot up very fair and in the aggregate move quite a little stock. Considerable competition prevails and this checks buoyancy, though it has not enabled buyers to secure much better terms. We quote at 60c. per gallon from crushers' hands.

PITCH.—A moderately active movement is met by a fair supply, and the market shows no essentially new features. Holders manage to retain prices on about a steady level. We quote at \$1.85 @ 2 per hhl. for city delivered.

SPIRITS TURPENTINE.—The market has been stronger and more positive. Supplies here were very small and well in hand, with no immediate additions expected, and the advices from primary points proved quite stimulating. Latterly the offerings to arrive increased somewhat, but sellers gave way reluctantly. As this report is closed, the quotations stand about 28 1/2 @ 29 1/2 c. per gallon, according to the quantity of stock handled.

TAR.—A firm position is maintained, and the advantage may still be considered as principally with the selling interest. Supplies are limited and cannot be reached except at an advance. We quote at \$3 @ 3.25 per hhl. for Newberne and Washington, and \$3 @ 3.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

 from Mahopac Falls to Peekskill, 2 roads.....350

MORTGAGES.

NOTE.—The arrangement of this list is as follows:
 The first name is that of the mortgagor, the next that of
 the mortgagee. The description of the property then
 follows, then the date of the mortgage, the time for
 which it was given, and the amount. The general dates
 used as headings are the dates when the mortgage was
 handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the
 name of a street in these lists of mortgages, they mean
 that it is a Purchase Money Mortgage, and for fuller
 particulars see the list of transfers under the corres-
 ponding date

REAL ESTATE.
